§ 1490a. Loans to provide occupant owned, rental, and cooperative housing for low and moderate income, elderly or handicapped persons or families

(a) Interest rates; credits; determination of eligibility; recoupment; multi-family housing projects; assistance payments to owners; amount limitations; recordkeeping and payment requirements for owners

(1)(A) Notwithstanding the provisions of sections 1472, 1487(a) and 1485 of this title, loans to persons of low or moderate income under section 1472 or 1487(a)(1) of this title, loans under section 1485 of this title to provide rental or cooperative housing and related facilities for persons and families of low or moderate income or elderly or handicapped persons or families and loans under section 1490f of this title to provide condominium housing for persons and families of low or moderate income, shall bear interest at a rate prescribed by the Secretary at not less than a rate determined by the Secretary of the Treasury upon the request of the Secretary taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the average maturities of such loans, adjusted to the nearest one-eighth of 1 per centum, except that such loans to provide housing and related facilities for persons or families of moderate income shall bear interest at the rate established by the Secretary of Housing and Urban Development under section 1709-1 of title 12 with respect to maximum interest rates established for mortgages insured under section 1709(b) of title 12 if the Secretary determines that the borrower can afford such higher interest charges. Any loan guaranteed under this subchapter shall bear interest at such rate as may be agreed upon by the borrower and the lender.

(B) From the interest rate so determined, the Secretary may provide the borrower with assistance in the form of credits so as to reduce the effective interest rate to a rate not less than 1 per centum per annum for such periods of time as the Secretary may determine for applicants described in subparagraph (A) if without such assistance such applicants could not afford the dwelling or make payments on the indebtedness of the rental or cooperative housing.

(C) For persons of low income under section 1472 or 1487(a) of this title who the Secretary determines are unable to afford a dwelling with the assistance provided under subparagraph (B) and when the Secretary determines that assisted rental housing programs (as authorized under this subchapter, the National Housing Act [12 U.S.C. 1701 et seq.], and the United States Housing Act of 1937 [42 U.S.C. 1437 et seq.]) would be unsuitable in the area in which such persons reside, the Secretary may provide additional assistance, pursuant to amounts approved in appropriation Acts and for such periods of time as the Secretary may determine, which may be in an amount not to exceed the difference between (i) the amount determined by the Secretary to be necessary to pay the principal indebtedness, interest, taxes, insurance, utilities, and maintenance, and (ii) 25 per centum of the income of such applicant. The amount of such additional assistance which may be approved in appropriation Acts may not exceed an aggregate amount of $985,000,000 for contracts entered into with respect to fiscal year 1979 and an aggregate amount of $500,000,000 for contracts entered into with respect to fiscal year 1980. Such additional assistance may not be so approved with respect to any fiscal year after fiscal year 1980.

(D) With respect to borrowers under section 1472 or 1487(a) of this title who have received assistance under subparagraph (B) or (C), the Secretary shall provide for the recapture of all or a portion of such assistance rendered upon the disposition or nonoccupancy of the property by the borrower. In providing for such recapture, the Secretary shall make provisions to provide incentives for the borrower to maintain the property in a marketable condition. Notwithstanding any other provision of law, any such assistance whenever rendered shall constitute a debt secured by the security instruments given by the borrower to the Secretary to the extent that the Secretary may provide for recapture of such assistance.

(E) Except for Federal or State laws relating to taxation, the assistance rendered to any borrower under subparagraphs (B) and (C) shall not be considered to be income or resources for any purpose under any Federal or State laws including, but not limited to, laws relating to welfare and public assistance programs.

(F) Loans subject to the interest rates and assistance provided under this paragraph (1) may be made only when the Secretary determines the needs of the applicant for necessary housing cannot be met with financial assistance from other sources including assistance under the National Housing Act [12 U.S.C. 1701 et seq.] and the United States Housing Act of 1937 [42 U.S.C. 1437 et seq.].

(G) Interest on loans under section 1472 or 1487(a) of this title to victims of a natural disaster shall not exceed the rate which would be applicable to such loans under section 1472 of this title without regard to this section.

(H) Repealed. Pub. L. 96-153, title V, § 501(c)(3), Dec. 21, 1979, 93 Stat. 1133.

(2)(A) The Secretary shall make and insure loans under this section and sections 1484, 1485, and 1487 of this title to provide rental or cooperative housing and related facilities for persons and families of low income in multifamily housing projects, and shall make, and contract to make, assistance payments to the owners of such rental, congregate, or cooperative housing in order to make available to low-income occupants of such housing rentals at rates commensurate to income and not exceeding 25 per centum of income. Such assistance payments shall be made on a unit basis and shall not be made for more than 70 per centum of the units in any one project, except that (i) when the project is financed by a loan under section 1485 of this title for elderly or handicapped housing, by a loan under section 1484 of this title to a public or private nonprofit owner, or by a loan under section 1484 of this title and a grant under section 1486 of this title, such assistance may be made for up to 100 per centum of the units, and (ii) when the Secretary determines such action is necessary or feasible, he shall make such payments with respect to more than 70 per centum of the units. In approving projects for assistance under this paragraph, the Secretary shall give a priority to projects in which assistance is provided to 40 per centum or fewer of the units contained in the project.

There are authorized to be appropriated to the Rural Housing Insurance Fund such sums as may be necessary to reimburse such fund for the amount of assistance payments described in subsection (a)(1)(C) of this section. § 1755. Direct expenditures for agricultural commodities and other foods

(a) Administrative expenses; nutritional education; pilot projects; cash-in-lieu of commodities study; refusal of commodities and receipt of other commodities available to the State in lieu of the refused commodities

The funds provided by appropriation or transfer from other accounts for any fiscal year for carrying out the provisions of this chapter, and for carrying out the provisions of the Child Nutrition Act of 1966 [42 U.S.C. 1771 et seq.], other than section 3 thereof [42 U.S.C. 1772] less

[*See main edition for text of* (*1*) *and* (*2*)]

(3) not to exceed 1 per centum of the funds provided for carrying out the programs under this chapter and the programs under the Child Nutrition Act of 1966 [42 U.S.C. 1771 et seq.], other than section 3 [42 U.S.C. 1772], which per centum is hereby made available to the Secretary to supplement the nutritional benefits of these programs through grants to States and other means for nutritional training and education for workers, cooperators, and participants in these programs, for pilot projects and the cash-in-lieu of commodities study required to be carried out under section 1769 of this title, and for necessary surveys and studies of requirements for food service programs in furtherance of the purposes expressed in section 1751 of this title, and section 2 of the Child Nutrition Act of 1966 [42 U.S.C. 1771],

shall be available to the Secretary during such year for direct expenditure by him for agricultural commodities and other foods to be distributed among the States and schools and service institutions participating in the food service programs under this chapter and under the Child Nutrition Act of 1966 [42 U.S.C. 1771 et seq.] in accordance with the needs as determined by the local school and service institution authorities. Any school participating in food service programs under this chapter may refuse to accept delivery of not more than 20 percent of the total value of agricultural commodities and other foods tendered to it in any school year; and if a school so refuses, that school may receive, in lieu of the refused commodities, other commodities to the extent that other commodities are available to the State during that year. The provisions of law contained in the proviso of section 713c of title 15, facilitating operations with respect to the purchase and disposition of surplus agricultural commodities under section 612c of title 7, shall, to the extent not inconsistent with the provision of this chapter, also be applicable to expenditures of funds by the Secretary under this chapter. In making purchases of such agricultural commodities and other foods, the Secretary shall not issue specifications which restrict participation of local producers unless such specifications will result in significant advantages to the food service programs authorized by this chapter and the Child Nutrition Act of 1966.

(b) Cash donations in lieu of commodity donations during school year for school food service programs; funds for States administered by Secretary: withholding; disbursement for breakfasts and lunches

Not later than May 15 of each school year, the Secretary shall make an estimate of the value of agricultural commodities and other foods that will be delivered during that school year to States for the school lunch program. If such estimated value is less than the total level of assistance authorized under subsection (e) of this section, the Secretary shall pay to each State educational agency, not later than June 15 of that school year, an amount of funds that is equal to the difference between the value of such deliveries as then programed for such State and the total level of assistance authorized under subsection (e) of this section. In any State in which the Secretary directly administers the school lunch program in any of the schools of the State, the Secretary shall withhold from the funds to be paid to such State under the provisions of this subsection an amount that bears the same ratio to the total of such payment as the number of lunches served in schools in which the school lunch program is directly administered by the Secretary during that school year bears to the total of such lunches served under the school lunch program in all the schools in such State in such school year. Each State educational agency, and the Secretary in the case of private schools in which the Secretary directly administers the school lunch program, shall promptly and equitably disburse, such funds to schools participating in the school lunch program, and such disbursements shall be used by such schools to purchase United States agricultural commodities and other foods for their food service program. Such foods shall be limited to the requirements for lunches and breakfasts for children as provided for in regulations issued by the Secretary.

[*See main edition for text of* (c) *and* (d)]

(e) Level of commodity assistance; computation of index; emphasis on high protein foods

For the fiscal year ending June 30, 1975, and subsequent school years, the national average value of donated foods, or cash payments in lieu thereof, shall not be less than 10 cents per lunch, and that amount shall be adjusted on an annual basis each school year after June 30, 1975, to reflect changes in the Price Index for Food Used in Schools and Institutions. The Index shall be computed using five major food components in the Bureau of Labor Statistics' Producer Price Index (cereal and bakery products, meats, poultry and fish, dairy products, processed fruits and vegetables, and fats and oils). Each component shall be weighted using the same relative weight as determined by the Bureau of Labor Statistics. The value of food assistance for each meal shall be adjusted each July 1 by the annual percentage change in a three-month simple average value of the Price Index for Foods Used in Schools and Institutions for March, April, and May each year. Such adjustment shall be computed to the nearest one-fourth cent. Among those commodities delivered under this section, the Secretary shall give special emphasis to high protein foods, meat, and meat alternates (which may include domestic seafood commodities and their products). Notwithstanding any other provision of this section, not less than 75 per centum of the assistance provided under this subsection (e) shall be in the form of donated foods for the school lunch program.

(As amended Nov. 10, 1977, Pub. L. 95-166, §§ 5, 7, 10(1), 19(a), 91 Stat. 1334-1336, 1345; Nov. 10, 1978, Pub. L. 95-627, §§ 5(b), 12(a), 92 Stat. 3619, 3625.)

EFFECTIVE DATE OF 1977 AMENDMENT

Amendment of subsec. (e) by section 19(a) of Pub. L. 95-166 effective July 1, 1977, see section 19 of Pub. L. 95-166.

§ 1756. Payments to States; matching payments by States; makeup and disbursement of State revenue

Funds appropriated to carry out section 1753 or 1754 of this title during any fiscal year shall be available for payment to the States for disbursement by State educational agencies, in accordance with such agreements, not inconsistent with the provisions of this chapter, as may be entered into by the Secretary and such State educational agencies, for the purpose of assisting schools of the States in supplying (1) agricultural commodities and other foods for consumption by children and (2) food service equipment assistance in furtherance of the school lunch program authorized under this chapter. Such payments to any State in any fiscal year during the period 1947 to 1950, inclusive, shall be made upon condition that each dollar thereof will be matched during such year by $1 from sources within the State determined by the Secretary to have been expended in connection with the school-lunch program under this chapter. Such payments in any fiscal year during the period 1951 to 1955, inclusive, shall be made upon condition that each dollar thereof will be so matched by one and one-half dollars; and for any fiscal or school year thereafter, such payments shall be made upon condition that each dollar will be so matched by $3. In the case of any State whose per capita income is less than the per capita income of the United States, the matching required for any fiscal or school year shall be decreased by the percentage which the State per capita income is below the per capita income of the United States. For the purpose of determining whether the matching requirements of this section and section 1759 of this title, respectively, have been met, the reasonable value of donated services, supplies, facilities, and equipment as certified, respectively, by the State educational agency and in case of schools receiving funds pursuant to section 1759 of this title, by such schools (but not the cost or value of land, of the acquisition, construction, or alteration of buildings of commodities donated by the Secretary, or of Federal contributions), may be regarded as funds from sources within the State expended in connection with the school-lunch program. For the school year beginning in 1976, State revenue (other than revenues derived from the program) appropriated or used specifically for program purposes (other than salaries and administrative expenses at the State, as distinguished from local, level) shall constitute at least 8 percent of the matching requirement for the preceding school year, or, at the discretion of the Secretary, fiscal year, and for each school year thereafter, at least 10 percent of the matching requirement for the preceding school year. The State revenues made available pursuant to the preceding sentence shall be disbursed to schools, to the extent the State deems practicable, in such manner that each school receives the same proportionate share of such revenues as it receives of the funds apportioned to the State for the same year under sections 1753 and 1759a of this title and sections 1773 and 1774 of this title. The requirement in

this section that each dollar of Federal assistance be matched by $3 from sources within the State (with adjustments for the per capita income of the State) shall not be applicable with respect to the payments made to participating schools under section 1753 of this title for free and reduced price lunches: *Provided*, That the foregoing provision shall not affect the level of State matching required by the sixth sentence of this section. The Secretary shall certify to the Secretary of the Treasury from time to time the amounts to be paid to any State under this section and the time or times such amounts are to be paid; and the Secretary of the Treasury shall pay to the State at the time or times fixed by the Secretary the amounts so certified.

(As amended Nov. 10, 1977, Pub. L. 95-166, § 19(b), 91 Stat. 1345.)

AMENDMENTS

1977—Pub. L. 95-166, among other changes, substituted in first sentence "Funds appropriated to carry out" and "food service equipment assistance" for "Funds apportioned to any State pursuant to" and "nonfood assistance"; substituted in third sentence "fiscal or school year thereafter" for "fiscal year thereafter"; substituted in fourth sentence "fiscal or school year" for "fiscal year"; and substituted the sixth sentence "For the school year beginning in 1976, State revenue (other than revenues derived from the program) appropriated or used specifically for program purposes (other than salaries and administrative expenses at the State, as distinguished from local, level) shall constitute at least 8 percent of the matching requirement for the preceding school year, or, at the discretion of the Secretary, fiscal year, and for each school year thereafter, at least 10 percent of the matching requirement for the preceding school year" for "For the fiscal year beginning July 1, 1971, and the fiscal year beginning July 1, 1972, State revenue (other than revenues derived from the program) appropriated or utilized specifically for program purposes (other than salaries and administrative expenses at the State, as distinguished from local, level) shall constitute at least 4 per centum of the matching requirement for the preceding fiscal year; for each of the two succeeding fiscal years, at least 6 per centum of the matching requirement for the preceding fiscal year; for each of the subsequent two fiscal years, at least 8 per centum of the matching requirement for the preceding fiscal year; and for each fiscal year thereafter at least 10 per centum of the matching requirement for the preceding fiscal year".

EFFECTIVE DATE OF 1977 AMENDMENT

Amendment of first, third, fourth, and sixth sentences by section 19(b) of Pub. L. 95-166 effective July 1, 1977, see section 19 of Pub. L. 95-166.

§ 1757. State disbursement to schools; purpose; child and children defined; food costs; limitation

Funds paid to any State during any fiscal year pursuant to sections 1753 or 1754 of this title shall be disbursed by the State educational agency, in accordance with such agreements approved by the Secretary, as may be entered into by such State agency and the schools in the State, to those schools in the State which the State educational agency, taking into account need and attendance, determines are eligible to participate in the school-lunch program. Such disbursement to any school shall be made only for the purpose of assisting it to finance the cost of obtaining agricultural commodities and other foods for consumption by children in the school-lunch program and food service equipment assistance in connection with such program. The terms "child" and "children" as used in this chapter shall be deemed to include persons regardless of age who are determined by the State educational agency, in accordance with regulations prescribed by the Secretary, to be mentally or physically handicapped and who are attending any child care institution as defined in section 1766 of this title or any nonresidential public or nonprofit private school of high school grade or under for the purpose of participating in a school program established for mentally or physically handicapped: *Provided*, That no institution that is not otherwise eligible to participate in the program under section 1766 of this title shall be deemed so eligible because of this sentence. Such food costs may include, in addition to the purchase price of agricultural commodities and other foods, the cost of processing, distributing, transporting, storing or handling thereof. In no event shall such disbursement for food to any school for any fiscal year exceed an amount determined by multiplying the number of lunches served in the school in the school-lunch program under this chapter during such year by the maximum Federal food-cost contribution rate for the State, for the type of lunch served, as prescribed by the Secretary. In any fiscal year in which the national average payment per lunch determined under section 1753 of this title is increased above the amount prescribed in the previous fiscal year, the maximum Federal food-cost contribution rate, for the type of lunch served, shall be increased by a like amount. Lunch assistance disbursements to schools under this section and under section 1759a of this title may be made in advance or by way of reimbursement in accordance with procedures prescribed by the Secretary.

(As amended Nov. 10, 1977, Pub. L. 95-166, § 3, 91 Stat. 1332; Nov. 10, 1978, Pub. L. 95-627, § 10(d)(1), 92 Stat. 3624.)

AMENDMENTS

1978—Pub. L. 95-627 added provision relating to definition of "child" and "children".

1977—Pub. L. 95-166 substituted "food service equipment assistance" for "nonfood assistance".

EFFECTIVE DATE OF 1978 AMENDMENT

Amendment by Pub. L. 95-627 effective Oct. 1, 1978, see section 14 of Pub. L. 95-627, set out as an Effective Date of 1978 Amendment note under section 1755 of this title.

§ 1758. Program requirements

(a) Nutritional standards; medical and special dietary needs of individual students; diminution of food waste; acceptance of offered foods

Lunches served by schools participating in the school-lunch program under this chapter shall meet minimum nutritional requirements prescribed by the Secretary on the basis of tested nutritional research; except that such minimum nutritional requirements shall not be construed to prohibit the substitution of foods to accommodate the medical or other special dietary needs of individual students. The Secretary shall establish, in cooperation with State educational agencies, administrative procedures, which shall include local educational agency and student participation, designed to diminish waste of foods which are served by schools participating in the school lunch program under this chapter without endangering the nutritional integrity of the lunches served by such schools. Students in senior high schools that participate in the school lunch program under this chapter (and, when approved by the local school district or nonprofit private schools, students in any other grade level in any junior high school or middle school) shall not be required to accept offered foods they do not intend to consume, and any such failure to accept offered foods shall not affect the full charge to the student for a lunch meeting the requirements of this subsection or the amount of payments made under this chapter to any such school for such lunch.

(b) Eligibility criteria for free and reduced price lunches; income poverty guidelines; discrimination and overt identification prohibited; income guidelines for reduced price lunches; free or reduced price lunches for children of unemployed parent or guardian

(1) No later than June 1 of each fiscal year, the Secretary shall issue revised income poverty guidelines for use during the subsequent 12-month period from July through June. The income poverty guidelines shall be the nonfarm income poverty guidelines prescribed by the Office of Management and Budget adjusted annually under section 2971d of this title: *Provided*, That the income poverty guidelines for the period commencing July 1, 1978, shall be made as up to date as possible by multiplying the nonfarm income poverty guidelines based on the average 1977 Consumer Price Index, by the change between the average 1977 Consumer Price Index and the Consumer Price Index of March 1978, using the most current procedures of the Office of Management and Budget. The income poverty guidelines for future periods shall be similarly adjusted. Any child who is a member of a household which has an annual income not above the applicable family-size income level set forth in the income poverty guidelines prescribed by the Secretary shall be served a free lunch. Following the announcement by the Secretary of the income poverty guidelines for each 12-month period, each State educational agency shall prescribe the income guidelines, by family size, to be used by schools in the State during such 12-month period in making determinations of those eligible for a free lunch as prescribed in this section. The income guidelines for free lunches shall be prescribed at 25 percent above the applicable family size income levels in the income poverty guidelines prescribed by the Secretary. Each fiscal year, each State educational agency shall also prescribe income guidelines, by family size, to be used by schools in the State during the 12-month period from July through June in making determinations of those children eligible for a lunch at a reduced price, not to exceed 20 cents. Such income guidelines for reduced-price lunches shall be prescribed at 95 per centum above the applicable family size income levels in the income poverty guidelines prescribed by the Secretary. Any child who is a member of a household, if that household has an annual income which falls between (A) the applicable family size income level of the income guidelines for free lunches prescribed by the State educational agency and (B) 95 per centum above the applicable family size income levels in the income poverty guidelines prescribed by the Secretary, shall be served a reduced price lunch at a price not to exceed 20 cents. Local school authorities shall publicly announce such income guidelines on or about the opening of school each fiscal year, and shall make determinations with respect to the annual incomes of any household solely on the basis of a statement executed in such form as the Secretary may prescribe by an adult member of such household: *Provided*, That such local school authorities may for cause seek verification of the data in such application. No physical segregation of or other discrimination against any child eligible for a free lunch or a reduced price lunch shall be made by the school nor shall there be any overt identification of any child by special tokens or tickets, announced or published lists of names, or by other means. For purposes of this subsection, "Consumer Price Index" means the Consumer Price Index published each month by the Bureau of Labor Statistics of the Department of Labor.

This section is referred to in sections 1753, 1759a, 1760, 1766, 1769, 1773, 1774, 1786 of this title.

§ 1759a. Special assistance funds

(a) Formula for computation of payments; computation of lunches to eligible children in schools funding service to ineligible children from non-Federal sources; special-assistance factors; semiannual adjustments based on changes in series for food away from home of Consumer Price Index; base period for adjustments

Except as provided in section 1759 of this title, in each fiscal year each State educational agency shall receive special assistance payments in an amount equal to the sum of the product obtained by multiplying the number of lunches (consisting of a combination of foods which meet the minimum nutritional requirements prescribed by the Secretary pursuant to section 1758(a) of this title) served free to children eligible for such lunches in schools within that State during such fiscal year by the special-assistance factor for free lunches prescribed by the Secretary for such fiscal year and the product obtained by multiplying the number of lunches served at a reduced price to children eligible for such reduced-price lunches in schools within that State during such fiscal year by the special-assistance factor for reduced-price lunches prescribed by the Secretary for such fiscal year. In the case of any school which determines that at least 80 percent of the children in attendance during a school year (hereinafter in this sentence referred to as the "first school year") are eligible for free lunches or reduced-price lunches, special-assistance payments shall be paid to the State educational agency with respect to that school, if that school so requests for the school year following the first school year, on the basis of the number of free lunches or reduced-price lunches, as the case may be, that are served by that school during the school year for which the request is made, to those children who were determined to be so eligible in the first school year and the number of free lunches and reduced-price lunches served during that year to other children determined for that year to be eligible for such lunches. In the case of any school that (1) elects to serve all children in that school free lunches under the school lunch program during any period of three successive school years and (2) pays, from sources other than Federal funds, for the costs of serving such lunches which are in excess of the value of assistance received under this chapter with respect to the number of lunches served during that period, special-assistance payments shall be paid to the State educational agency with respect to that school during that period on the basis of the number of lunches determined under the succeeding sentence. For purposes of making special-assistance payments in accordance with the preceding sentence, the number of lunches served by a school to children eligible for free lunches and reduced-price lunches during each school year of the three-school-year period shall be deemed to be the number of lunches served by that school to children eligible for free lunches and reduced-price lunches during the first school year of such period, unless that school elects, for purposes of computing the amount of such payments, to determine on a more frequent basis the number of children eligible for free and reduced-price lunches who are served lunches during such period. For the fiscal year beginning July 1, 1973, the Secretary shall prescribe a special-assistance factor for free lunches of not less than 45 cents and a special-assistance factor for reduced-price lunches which shall be 20 cents less than the special-assistance factor for free lunches: *Provided*, That if in any State all schools charge students a uniform price for reduced-price lunches, and such price is less than 20 cents, the special assistance factor prescribed for reduced-price lunches in such State shall be equal to the special assistance factor for free lunches reduced by either 10 cents or the price charged for reduced-price lunches in such State, whichever is greater. The Secretary shall prescribe on July 1 of each fiscal year, and on January 1, of each fiscal year, semi-annual adjustments in the national average rates for lunches served under section 1753 of this title and the special-assistance factor for the lunches served under this section and the national average rates for breakfasts served under section 4 of the Child Nutrition Act of 1966 [42 U.S.C. 1773], that shall reflect changes in the cost of operating a school lunch and breakfast program under this chapter and the Child Nutrition Act of 1966 [42 U.S.C. 1771 et seq.], as indicated by the change in the series for food away from home of the Consumer Price Index for All Urban Consumers published by the Bureau of Labor Statistics of the Department of Labor: *Provided*, That the initial such adjustment shall reflect the change in the series for food away from home during the period September 1973, through November 1973: *Provided further*, That each subsequent adjustment shall reflect the changes in the series for food away from home for the most recent six-month period for which such data are available: *Provided further*, That such adjustments shall be computed to the nearest one-fourth cent. Notwithstanding the foregoing two sentences, (1) for the fiscal year beginning July 1, 1973, no special assistance factor under this section shall, for any State, be less than the average reimbursement paid for each free lunch (in the case of the special assistance factor for free lunches), or for each reduced price lunch (in the case of the special assistance factor for reduced price lunches), in such State under this section in the fiscal year beginning July 1, 1972; and (2) adjustments required by the sentence immediately preceding this sentence shall be based on the special assistance factors for the fiscal year beginning July 1, 1973, as determined without regard to any increase required by the application of this sentence.

In providing assistance for school breakfasts and lunches served in Alaska, Hawaii, Guam, American Samoa, Puerto Rico, the Virgin Islands of the United States, the Trust Territory of the Pacific Islands, and the Commonwealth of the Northern Mariana Islands, the Secretary may establish appropriate adjustments for each such State to the national average payment rates prescribed under sections 1753 and 1759a of this title and section 1773 of this title, to reflect the differences between the costs of providing lunches and breakfasts in those States and the costs of providing lunches and breakfasts in all other States.

In no event, however, shall reimbursement to school food authorities exceed the net cost of operating both the lunch and breakfast programs, taking into account the total costs and total incomes of both programs.

§ 1761. Summer food service programs for children in service institutions

(a) Assistance to States; definitions; facilities to be used; eligible service institutions; order of priority in participation; assistance to rural area eligible service institutions to participate in the programs; reimbursement of camps, limitation

(1) The Secretary is authorized to carry out a program to assist States, through grants-in-aid and other means, to initiate, maintain, and expand nonprofit food service programs for children in service institutions. For purposes of this section, (A) "program" means the summer food service program for children authorized by this section; (B) "service institutions" means nonresidential public or private nonprofit institutions, and residential public or private nonprofit summer camps, that develop special summer or school vacation programs providing food service similar to that made available to children during the school year under the school lunch program under this chapter or the

school breakfast program under the Child Nutrition Act of 1966 [42 U.S.C. 1771 et seq.]; (C) "areas in which poor economic conditions exist" means areas in which at least 33⅓ percent of the children are eligible for free or reduced price school meals under this chapter and the Child Nutrition Act of 1966, as determined by information provided from departments of welfare, zoning commissions, census tracts, by the number of free and reduced price lunches or breakfasts served to children attending public and nonprofit private schools located in the area of program food service sites, or from other appropriate sources, including statements of eligibility based upon income for children enrolled in the program; (D) "children" means individuals who are eighteen years of age and under, and individuals who are older than eighteen who are (i) determined by a State educational agency or a local public educational agency of a State, in accordance with regulations prescribed by the Secretary, to be mentally or physically handicapped, and (ii) participating in a public or nonprofit private school program established for the mentally or physically handicapped; and (E) "State" means any of the fifty States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands of the United States, Guam, American Samoa, the Trust Territory of the Pacific Islands, and the Northern Mariana Islands.

(2) To the maximum extent feasible, consistent with the purposes of this section, any food service under the program shall use meals prepared at the facilities of the service institution or at the food service facilities of public and nonprofit private schools. The Secretary shall assist States in the development of information and technical assistance to encourage increased service of meals prepared at the facilities of service institutions and at public and nonprofit private schools.

(3) Eligible service institutions entitled to participate in the program shall be limited to those that—

(A) demonstrate adequate administrative and financial responsibility to manage an effective food service;

(B) have not been seriously deficient in operating under the program;

(C) either conduct a regularly scheduled food service for children from areas in which poor economic conditions exist or qualify as camps; and

(D) provide an ongoing year-round service to the community to be served under the program (except that an otherwise eligible service institution shall not be disqualified for failure to meet this requirement for ongoing year-round service if the State determines that its disqualification would result in an area in which poor economic conditions exist not being served or in a significant number of needy children not having reasonable access to a summer food service program).

(4) The following order of priority shall be used by the State in determining participation where more than one eligible service institution proposes to serve the same area:

(A) local schools or service institutions that have demonstrated successful program performance in a prior year;

(B) service institutions that prepare meals at their own facilities or operate only one site;

(C) service institutions that use local school food facilities for the preparation of meals;

(D) other service institutions that have demonstrated ability for successful program operation; and

(E) service institutions that plan to integrate the program with Federal, State, or local employment programs.

The Secretary and the States, in carrying out their respective functions under this section, shall actively seek eligible service institutions located in rural areas, for the purpose of assisting such service institutions in applying to participate in the program.

(5) Camps that satisfy all other eligibility requirements of this section shall receive reimbursement only for meals served to children who meet the eligiblity requirements for free or reduced price meals, as determined under this chapter and the Child Nutrition Act of 1966 [42 U.S.C. 1771 et seq.].

(b) Payments to service institutions; food service operations costs: adjustments in maximum reimbursement levels; meals per day limitation; budget for administrative costs: submittal and approval by State; administrative cost payments: maximum allowable levels; study of food service operations and administrative costs: report to Congress

(1) Payments to service institutions shall equal the full cost of food service operations (which cost shall include the cost of obtaining, preparing, and serving food, but shall not include administrative costs), except that such payments to any institution shall not exceed (1) 85.75 cents for each lunch and supper served; (2) 47.75 cents for each breakfast served; or (3) 22.50 cents for each meal supplement served: *Provided*, That such amounts shall be adjusted each January 1 to the nearest one-fourth cent in accordance with the changes for the twelve-month period ending the preceding November 30 in the series for food away from home of the Consumer Price Index for All Urban Consumers published by the Bureau of Labor Statistics of the Department of Labor: *Provided further*, That the Secretary may make such adjustments in the maximum reimbursement levels as the Secretary determines appropriate after making the study prescribed in paragraph (4) of this subsection.

(2) Any service institution shall be permitted to serve up to three meals per day of operation if at least one of the three meals is a meal supplement, and any service institution that is a camp shall be permitted to serve up to four meals per day of operation, if the service institution has the administrative capability, and the food preparation and food holding capabilities (where applicable), to manage more than one meal service per day, and if the service period of different meals does not coincide or overlap. Such meals may include a breakfast, a lunch, a supper, and meal supplements.

(3) Every service institution, when applying for participation in the program, shall submit a

complete budget for administrative costs related to the program, which shall be subject to approval by the State. Payment to service institutions for administrative costs shall equal the full amount of State approved administrative costs incurred, except that such payment to service institutions may not exceed the maximum allowable levels determined by the Secretary pursuant to the study prescribed in paragraph (4) of this subsection.

(4)(A) The Secretary shall conduct a study of the food service operations carried out under the program. Such study shall include, but shall not be limited to—

(i) an evaluation of meal quality as related to costs; and

(ii) a determination whether adjustments in the maximum reimbursement levels for food service operation costs prescribed in paragraph (1) of this subsection should be made, including whether different reimbursement levels should be established for self-prepared meals and vendored meals and which site-related costs, if any, should be considered as part of administrative costs.

(B) The Secretary shall also study the administrative costs of service institutions participating in the program and shall thereafter prescribe maximum allowable levels for administrative payments that reflect the costs of such service institutions, taking into account the number of sites and children served, and such other factors as the Secretary determines appropriate to further the goals of efficient and effective administration of the program.

(C) The Secretary shall report the results of such studies to Congress not later than December 1, 1977.

(c) Payments for meals served during May through September; exceptions for continuous school calendars

Payments shall be made to service institutions only for meals served during the months of May through September, except in the case of service institutions that operate food service programs for children on school vacation at any time under a continuous school calendar.

(d) Advance program payments to States for monthly meal service; letters of credit, forwarding to States; determination of amount; valid claims, receipt

Not later than April 15, May 15, and July 1, of each year, the Secretary shall forward to each State a letter of credit (advance program payment) that shall be available to each State for the payment of meals to be served in the month for which the letter of credit is issued. The amount of the advance program payment shall be an amount which the State demonstrates, to the satisfaction of the Secretary, to be necessary for advance program payments to service institutions in accordance with subsection (e) of this section. The Secretary shall also forward such advance program payments, by the first day of the month prior to the month in which the program will be conducted, to States that operate the program in months other than May through September. The Secretary shall forward any remaining payments due pursuant to subsection (b) of this section not later than sixty days following receipt of valid claims therefor.

(e) Advance program payments to service institutions for monthly meal service; certification of personnel training sessions; minimum days per month operations requirement; payments: computation, limitation; valid claims, receipt; withholding; demand for repayment; subtraction of disputed payments

(1) Not later than June 1, July 15, and August 15 of each year, or, in the case of service institutions that operate under a continuous school calendar, the first day of each month of operation, the State shall forward advance program payments to each service institution: *Provided*, That (A) the State shall not release the second month's advance program payment to any service institution that has not certified that it has held training sessions for its own personnel and the site personnel with regard to program duties and responsibilities, and (B) no advance program payment may be made for any month in which the service institution will operate under the program for less than ten days.

(2) The amount of the advance program payment for any month in the case of any service institution shall be an amount equal to (A) the total program payment for meals served by such service institution in the same calendar month of the preceding calendar year, (B) 50 percent of the amount established by the State to be needed by such service institution for meals if such service institution contracts with a food service management company, or (C) 65 percent of the amount established by the State to be needed by such service institution for meals if such service institution prepares its own meals, whichever amount is greatest: *Provided*, That the advance program payment may not exceed the total amount estimated by the State to be needed by such service institution for meals to be served in the month for which such advance program payment is made or $40,000, whichever is less, except that a State may make a larger advance program payment to such service institution where the State determines that such larger payment is necessary for the operation of the program by such service institution and sufficient administrative and management capability to justify a larger payment is demonstrated. The State shall forward any remaining payment due a service institution not later than seventy-five days following receipt of valid claims. If the State has reason to believe that a service institution will not be able to submit a valid claim for reimbursement covering the period for which an advance program payment has been made, the subsequent month's advance program payment shall be withheld until such time as the State has received a valid claim. Program payments advanced to service institutions that are not subsequently deducted from a valid claim for reimbursement shall be repaid upon demand by the State. Any prior payment that is under dispute may be subtracted from an advance program payment.

(f) Nutritional standards; free cost meals to children in approved institutions; camp services, charges for meals to ineligible children; quality assurance, model specifications and standards; meal preparation contracts, requirements; inspection and testing

Service institutions receiving funds under this section shall serve meals consisting of a combination of foods and meeting minimum nutritional standards prescribed by the Secretary on the basis of tested nutritional research. Such meals shall be served without cost to children attending service institutions approved for operation under this section, except that, in the case of camps, charges may be made for meals served to children other than those who meet the eligibility requirements for free or reduced price meals in accordance with subsection (a)(5) of this section. To assure meal quality, States shall, with the assistance of the Secretary, prescribed model meal specifications and model food quality standards, and ensure that all service institutions contracting for the preparation of meals with food service management companies include in their contracts menu cycles, local food safety standards, and food quality standards approved by the State. Such contracts shall require (A) periodic inspections, by an independent agency or the local health department for the locality in which the meals are served, of meals prepared in accordance with the contract in order to determine bacteria levels present in such meals, and (B) that bacteria levels conform to the standards which are applied by the local health authority for that locality with respect to the levels of bacteria that may be present in meals served by other establishments in that locality. Such inspections and any testing resulting therefrom shall be in accordance with the practices employed by such local health authority.

(g) Regulations, guidelines, applications, and handbooks; publication; startup costs

The Secretary shall publish proposed regulations relating to the implementation of the program by November 1 of each fiscal year, final regulations by January 1 of each fiscal year, and guidelines, applications, and handbooks by February 1 of each fiscal year: *Provided*, That for fiscal year 1978, those portions of the regulations relating to payment rates for both food service operations and administrative costs need not be published until December 1 and February 1, respectively. In order to improve program planning, the Secretary may provide that service institutions be paid as startup costs not to exceed 20 percent of the administrative funds provided for in the administrative budget approved by the State under subsection (b)(3) of this section. Any payments made for startup costs shall be subtracted from amounts otherwise payable for administrative costs subsequently made to service institutions under subsection (b)(3) of this section.

(h) Direct disbursement to service institutions by Secretary

Each service institution shall, insofar as practicable, use in its food service under the program foods designated from time to time by the Secretary as being in abundance. The Secretary is authorized to donate to States, for distribution to service institutions, food available under section 1431 of title 7, or purchased under section 612c of title 7 or section 1446a-1 of title 7. Donated foods may be distributed only to service institutions that can use commodities efficiently and effectively, as determined by the Secretary.

(i) Administration of program by Secretary, in event of nonadministration by the State, and direct disbursement to service institutions; notification

If any State (1) is unable for any reason to disburse the funds otherwise payable to it under this section, or (2) does not operate the program in accordance with the requirements of this section, the Secretary shall assume authority for administration of the program in such State, and shall disburse the funds directly to service institutions in the State for the same purposes and subject to the same conditions as are required of a State disbursing funds made available under this section. In cases described in clause (1) of the preceding sentence, the State shall notify the Secretary, not later than January 1 of each fiscal year in which the program is operated, of its intention not to administer the program.

(j) Administrative expenses of Secretary; authorization of appropriations

Expenditures of funds from State and local sources for the maintenance of food programs for children shall not be diminished as a result of funds received under this section.

(k) Administrative costs of State; payment; adjustment; standards and effective dates, establishment; funds: withholding, inspection

(1) The Secretary shall pay to each State for its administrative costs incurred under this section in any fiscal year an amount equal to (A) 20 percent of the first $50,000 in funds distributed to that State for the program in the preceding fiscal year; (B) 10 percent of the next $100,000 distributed to that State for the program in the preceding fiscal year; (C) 5 percent of the next $250,000 in funds distributed to that State for the program in the preceding fiscal year; and (D) 2½ percent of any remaining funds distributed to that State for the program in the preceding fiscal year: *Provided*, That such amounts may be adjusted by the Secretary to reflect changes in the size of that State's program since the preceding fiscal year.

(2) The Secretary shall establish standards and effective dates for the proper, efficient, and effective administration of the program by the State. If the Secretary finds that the State has failed without good cause to meet any of the Secretary's standards or has failed without good cause to carry out the approved State management and administration plan under subsection (n) of this section, the Secretary may withhold from the State such funds authorized under this subsection as the Secretary determines to be appropriate.

(3) To provide for adequate nutritional and food quality monitoring, and to further the implementation of the program, an additional amount, not to exceed the lesser of actual costs

or 1 percent of program funds, shall be made available by the Secretary to States to pay for State or local health department inspections, and to reinspect facilities and deliveries to test meal quality.

(*l*) Food service management companies; subcontracts; assignments, conditions and limitations; meal capacity information in bids subject to review; registration; record, availability to States; small and minority-owned businesses for supplies and services; contracts: standard form, bid and contract procedures, bonding requirements and exemption, review by States, collusive bidding safeguards

(1) Service institutions may contract on a competitive basis only with food service management companies registered with the State in which they operate for the furnishing of meals or management of the entire food service under the program, except that a food service management company entering into a contract with a service institution under this section may not subcontract with a single company for the total meal, with or without milk, or for the assembly of the meal. The Secretary shall prescribe additional conditions and limitations governing assignment of all or any part of a contract entered into by a food service management company under this section. Any food service management company shall, in its bid, provide the service institution information as to its meal capacity. The State shall, upon award of any bid, review the company's registration to calculate how many remaining meals the food service management company is equipped to prepare.

(2) Each State shall provide for the registration of food service management companies. For the purposes of this section, registration shall include, at a minimum—

(A) certification that the company meets applicable State and local health, safety, and sanitation standards;

(B) disclosure of past and present company owners, officers, and directors, and their relationship, if any, to any service institution or food service management company that received program funds in any prior fiscal year;

(C) records of contract terminations or disallowances, and health, safety, and sanitary code violations, in regard to program operations in prior fiscal years; and

(D) the addresses of the company's food preparation and distribution sites.

No food service management company may be registered if the State determines that such company (i) lacks the administrative and financial capability to perform under the program, or (ii) has been seriously deficient in its participation in the program in prior fiscal years.

(3) In order to ensure that only qualified food service management companies contract for services in all States, the Secretary shall maintain a record of all registered food service management companies and their program record for the purpose of making such information available to the States.

(4) In accordance with regulations issued by the Secretary, positive efforts shall be made by service institutions to use small businesses and minority-owned businesses as sources of supplies and services. Such efforts shall afford those sources the maximum feasible opportunity to compete for contracts using program funds.

(5) Each State, with the assistance of the Secretary, shall establish a standard form of contract for use by service institutions and food service management companies. The Secretary shall prescribe requirements governing bid and contract procedures for acquisition of the services of food service management companies, including, but not limited to, bonding requirements (which may provide exemptions applicable to contracts of $100,000 or less), procedures for review of contracts by States, and safeguards to prevent collusive bidding activities between service institutions and food service management companies.

(m) Accounts and records

States and service institutions participating in programs under this section shall keep such accounts and records as may be necessary to enable the Secretary to determine whether there has been compliance with this section and the regulations issued hereunder. Such accounts and records shall at all times be available for inspection and audit by representatives of the Secretary and shall be preserved for such period of time, not in excess of five years, as the Secretary determines necessary.

(n) Management and administration plan; notification and submittal to Secretary; specific provisions

Each State desiring to participate in the program shall notify the Secretary by January 1 of each year of its intent to administer the program and shall submit for approval by February 15 a management and administration plan for the program for the fiscal year, which shall include, but not be limited to, (1) the State's administrative budget for the fiscal year, and the State's plans to comply with any standards prescribed by the Secretary under subsection (k) of this section; (2) the State's plans for use of program funds and funds from within the State to the maximum extent practicable to reach needy children, including the State's methods for assessing need, and its plans and schedule for informing service institutions of the availability of the program; (3) the State's best estimate of the number and character of service institutions and sites to be approved, and of meals to be served and children to participate for the fiscal year, and a description of the estimating methods used; (4) the State's plans and schedule for providing technical assistance and training eligible service institutions; (5) the State's schedule for application by service institutions; (6) the actions to be taken to maximize the use of meals prepared by service institutions and the use of school food service facilities; (7) the State's plans for monitoring and inspecting service institutions, feeding sites, and food service management companies and for ensuring that such companies do not enter into contracts for more meals than they can provide effectively and efficiently; (8) the State's plan and schedule for registering food service management companies; (9) the State's plan for timely and effective action against program violators; (10) the State's plan for determining the amounts of program payments to service institutions and for disbursing such payments; (11) the State's plan for ensuring fiscal integrity by auditing service institutions not subject to auditing requirements prescribed by the Secretary; and (12) the State's procedure for granting a hearing and prompt determination to any service institution wishing to appeal a State ruling denying the service institution's application for program participation or for program reimbursement.

(o) Violations and penalties

(C)(i) the total number of supplements served in the State in these institutions by (ii) the national average payment rate for supplements in such institutions.

For the six-month period ending June 30, 1978, the national average payment rate for supplements served in these institutions shall be 6 cents. The Secretary shall prescribe adjustments to this national average payment rate on July 1 and January 1 of each year. Such adjustments shall be computed to the nearest one-fourth cent based on changes, measured over the most recent six-month period for which data are available, in the series for food away from home of the Consumer Price Index for All Urban Consumers.

(4) For meals served to children in institutions electing to use the reimbursement procedures under subsection (f)(3) of this section, each State shall receive assistance in the following manner:

(A) for meals served to children who are members of families that satisfy the income standards for free school meals under section 1758 of this title, each State shall receive an amount equal to the sum of the products obtained by multiplying—

(i)(I) the number of breakfasts served by (II) the sum of the national average payment rate for breakfasts and the national average payment rate for free breakfasts under section 4 of the Child Nutrition Act of 1966 [42 U.S.C. 1773];

(ii)(I) the number of lunches and suppers served by (II) the sum of the national average payment rate for lunches under section 1753 of this title and the national average payment rate for free lunches under section 1759a of this title; and

(iii)(I) the number of supplements served by (II) the national average payment rate for supplements determined under clause (C) of paragraph (1) of this subsection;

(B) for meals served to children who are members of families that satisfy the income standards for reduced-price meals under section 1758 of this title, each State shall receive an amount equal to the sum of the products obtained by multiplying—

(i)(I) the number of breakfasts served by (II) the sum of the national average payment rate for breakfasts and the national average payment rate for reduced-price breakfasts under section 4 of the Child Nutrition Act of 1966 [42 U.S.C. 1773];

(ii)(I) the number of lunches and suppers served by (II) the sum of the national average payment rate for lunches under section 1753 of this title and the national average payment rate for reduced-price lunches under section 1759a of this title;

(iii)(I) the number of supplements served by (II) the national average payment rate for supplements determined under clause (C) of paragraph (2) of this subsection; and

(C) for meals served to all other children in these institutions, each State shall receive an amount equal to the sum of the products obtained by multiplying—

(i)(I) the number of breakfasts served to such children by (II) the national average payment rate for breakfasts under section 4 of the Child Nutrition Act of 1966 [42 U.S.C. 1773];

(ii)(I) the number of lunches and suppers served to such children by (II) the national average payment rate for lunches under section 1753 of this title; and

(iii)(I) the number of supplements served to such children by (II) the national average payment rate for supplements determined under clause (C) of paragraph (3) of this subsection.

(5) For meals served in family or group day care homes, each State shall receive amounts sufficient to make payments for such meals under subsection (f)(4) of this section.

(d) Requirements for approval; notification

Any eligible public institution shall be approved for participation in the child care food program upon its request. Any eligible private institution shall be approved for participation if it (1) has tax exempt status under title 26 or, under conditions established by the Secretary, is moving toward compliance with the requirements for tax exempt status, or (2) is currently operating a Federal program requiring nonprofit status. Family or group day care homes need not have individual tax exempt certification if they are sponsored by an institution that has tax exempt status, or, under conditions established by the Secretary, such institution is moving toward compliance with the requirements for tax exempt status or is currently operating a Federal program requiring nonprofit status. An institution applying for participation under this section shall be notified of approval or disapproval in writing within thirty days after the date its completed application is filed. If an institution submits an incomplete application to the State, the State shall so notify the institution within fifteen days of receipt of the application, and shall provide technical assistance, if necessary, to the institution for the purpose of completing its application.

(e) Hearing

The State shall provide, in accordance with regulations issued by the Secretary, a fair hearing and a prompt determination to any institution aggrieved by the action of the State as it affects the participation of such institution in the program authorized by this section, or its claim for reimbursement under this section.

(f) State disbursement to institutions; time of payment; notification; maximum per meal reimbursement rate; election of manner of reimbursement by certain institutions; reimbursement of administrative expenses; start-up funds; advance payments

(1) Funds paid to any State under this section shall be disbursed to eligible institutions by the State under agreements approved by the Secretary. Disbursements to any institution shall be made only for the purpose of assisting in financing the cost of providing meals to children attending institutions, or in family or group day-care homes. Disbursement to any institution shall not be dependent upon the collection of moneys from participating children. All valid

claims from such institutions shall be paid within forty-five days of receipt by the State. The State shall notify the institution within fifteen days of receipt of a claim if the claim as submitted is not valid because it is incomplete or incorrect.

(2) The Secretary shall establish maximum per meal reimbursement rates for each of the three categories of institutions specified in subsections (c)(1), (2), and (3) of this section. Such maximum reimbursement rates for lunches and suppers shall be equal to the maximum reimbursement rates established by the Secretary for lunches served under the national school lunch program. The disbursement to any institution for meals provided under this section shall not be less, for any fiscal year, than the sum of the products obtained by multiplying the total number of each type of meal (breakfast, lunch or supper, or supplement) served in such institution in that fiscal year by the applicable national average payment rates for States for each such type of meal at that category of institution, unless the resulting sum exceeds the cost to the institution of providing such meals.

(3) Institutions, other than family or group day care home sponsoring organizations, may elect to receive reimbursement in accordance with the eligibility of each enrolled child for free, reduced-price, or paid meals under section 1758 of this title. Such reimbursement shall be based on (A) the national average payment rates for lunches under section 1753 of this title; (B) the national average payment rates for free lunches and reduced-price lunches under section 1759a of this title; (C) the national average payment rates for breakfasts, free breakfasts, and reduced-price breakfasts under section 4 of the Child Nutrition Act of 1966 [42 U.S.C. 1773]; and (D) the national average payment rates for supplements under subsection (c) of this section. Reimbursements to such institutions shall be made under the same procedures for determining such reimbursement levels as were prescribed by regulations in effect on September 30, 1978.

(4) Institutions that participate in the program under this section as family or group day care home sponsoring organizations shall be provided, for payment to such homes, a reimbursement factor in an amount determined by the Secretary to be adequate to cover the cost of obtaining and preparing food and prescribed labor costs, involved in providing meals under this section, without a requirement for documentation of such costs. Such institutions shall also receive reimbursement for their administrative expenses. Reimbursement for administrative expenses shall not exceed maximum allowable levels prescribed by the Secretary. Reimbursement for administrative expenses shall also include start-up funds to finance the administrative expenses for such institutions to initiate successful operation under the program. Such start-up funds shall be in addition to other reimbursement to such institutions for administrative expenses. Start-up funds shall be payable to enable institutions satisfying the criteria of subsection (d) of this section, and any other standards prescribed by the Secretary, to develop an application for participation in the program as a family or group day care home sponsoring organization or to implement the program upon approval of the application. Such start-up funds shall be payable in accordance with the procedures prescribed by the Secretary. The amount of start-up funds payable to an institution shall be not less than the institution's anticipated reimbursement for administrative expenses under the program for one month and not more than the institution's anticipated reimbursement for administrative expeses under the program for two months.

(5) By the first day of each month of operation, the State shall provide advance payments for the month to each approved institution in an amount that reflects the full level of valid claims customarily received from such institution for one month's operation. In the case of a newly participating institution, the amount of the advance shall reflect the State's best estimate of the level of valid claims such institutions will submit. If the State has reason to believe that an institution will not be able to submit a valid claim covering the period for which such an advance has been made, the subsequent month's advance payment shall be withheld until the State receives a valid claim. Payments advanced to institutions that are not subsequently deducted from a valid claim for reimbursement shall be repaid upon demand by the State. Any prior payment that is under dispute may be subtracted from an advance payment.

(g) Meals served by participating institutions

(1) Meals served by institutions participating in the program under this section shall consist of a combination of foods that meet minimum nutritional requirements prescribed by the Secretary on the basis of tested nutritional research. Such meals shall be served free to needy children.

(2) No institution may be prohibited from serving breakfast, lunch, supper, and supplements to any eligible child each day, except in the case of institutions that provide care to schoolchildren outside of school hours.

(3) No physical segregation or other discrimination against any child shall be made because of his or her inability to pay, nor shall there be any overt identification of any such child by special tokens or tickets, different meals or meal service, announced or published lists of names, or other means.

(4) Each institution shall, insofar as practicable, use in its food service foods designated from time to time by the Secretary as being in abundance, either nationally or in the food service area, or foods donated by the Secretary.

(h) Donation of agricultural commodities by Secretary; measurement of value; cash in lieu of commodities

The Secretary shall donate agricultural commodities produced in the United States for use in institutions participating in the child care food program under this section. The value of such commodities (or cash in lieu of commodities) donated to each State for each school year shall be, at a minimum, the amount obtained by multiplying the number of lunches and suppers served in participating institutions in that State during that school year by the rate for commodities or cash in lieu thereof established for that school year under section 1755(e) of this title. Any State receiving assistance under this section for institutions participating in the child care food program may, upon application to the Secretary, receive cash in lieu of some or all of the commodities to which it would otherwise be entitled under this subsection. In determining whether to request cash in lieu of commodities, the State shall base its decision on the preferences of individual participating institutions within the State, unless this proves impracticable due to the small number of institutions preferring donated commodities.

(i) Information required from state plans

For the child care food program, the State plan required under section 1759a(e) of this title shall provide, in addition to other information required by regulation or available from regular reporting:

(1) the number of institutions and the number of family or group day care homes participating in the program, together with the average daily attendance in such institutions;

(2) the number of institutions and the number of family or group day care homes in the State that are licensed, approved, or registered or that receive funds under title XX of the Social Security Act [42 U.S.C. 1397 et seq.], and the number of such institutions and homes that participate in the program authorized under this section;

(3) the action program, the State proposes to undertake to use the Federal funds provided under this section, including the State's plans to (A) extend the program to all eligible institutions (placing priority on reaching institutions in needy areas first), (B) assist family or group day care homes in obtaining sponsoring organizations, and (C) encourage eligible institutions to participate in the program;

(4) a plan for the conduct of audits; and

(5) a plan to monitor program performance and measure progress in achieving program goals.

(j) Availability of money for audits

The Secretary shall make available for each fiscal year to States administering the child care food program, for the purpose of conducting audits of participating institutions, an amount up to 2 percent of the funds used by each State in the program under this section, during the second preceding fiscal year.

(k) Standard form agreement regulations

The Secretary may issue regulations directing States to develop and provide for the use of a standard form of agreement between each family or group day care sponsoring organization and the family or group day care homes participating in the program under such organization, for the purpose of specifying the rights and responsibilities of each party.

(*l*) Studies; maximum administrative payments reflecting costs of institutions; report and recommendations to Congress

(1) The Secretary shall study the administrative costs of institutions participating in the program under this section, including the cost effect of such factors as the types of institutions, the number of children served, and the location of institutions in urban or rural areas. The Secretary may prescribe maximum allowable levels of administrative payments that reflect the costs of institutions participating in the program.

(2) The Secretary shall conduct a study of the food service operations carried out in the program under this section. Such study shall include, but not be limited to (1) an evaluation of meal quality as related to costs; and (2) a determination of whether maximum reimbursement levels should be set for food service costs, including whether different reimbursement levels should be established for self-prepared meals and vendored meals, economies of scale, and differences between food service operations in institutions and family and group day care homes.

(3) The Secretary shall conduct a study on licensing problems faced by institutions and family or group day care homes. Such study shall include, but not be limited to, an evaluation of the licensing requirements under this section.

(4) Of the funds appropriated for the fiscal year ending September 30, 1979, to carry out the purposes of this section, not to exceed $2,000,000 shall be available to the Secretary for the purpose of conducting the studies required under paragraphs (1), (2), and (3) of this subsection. The Secretary shall report the results of such studies to Congress, along with any recommendations the Secretary wishes to make, not later than eighteen months after November 10, 1978.

(m) Withholding of funds

In any State where the State is not permitted by law or is otherwise unable to disburse the funds payable to it under this section to any institution in the State, the Secretary shall withhold all funds to which such State would be entitled and shall use such funds for the same purposes and subject to the same conditions as are required of a State.

(n) Equipment assistance; allocation of unused funds; eligibility criteria; notification; prompt action standard; priority systems; disbursement of funds regulations; legal title

(1) Of the sums appropriated for each fiscal year to carry out the purposes of this section, $6,000,000 shall be available to the Secretary for the purposes of providing equipment assistance to enable institutions to establish, maintain, and expand the child care food program. The Secretary shall allocate among the States during each fiscal year the funds available under this subsection. Such allocation shall be based on the ratio of the number of children below the age of six in each State who are members of families that satisfy the income standards for free and reduced-price school

meals under section 1758 of this title to the number of such children in all States. In making such allocation, the Secretary shall use the most recent data available.

(2) If any State cannot use all of the funds allocated to it under this subsection, the Secretary shall make reallocations to the remaining States in the manner set forth in paragraph (1) of this subsection for allocating funds. Payments to any State of funds allocated under this subsection for any fiscal year shall be made upon condition that at least one-fourth of the cost of equipment financed under this subsection shall be financed from sources within the State, except that this condition shall not apply to equipment obtained for institutions that are especially needy, as determined by the State.

(3) Each State shall establish criteria for determining institutions that are especially needy for purposes of this subsection and shall inform all institutions within the State of those criteria. Such criteria shall be submitted to the Secretary for approval and be included in the State plan of operation for the child care food program required by subsection (i) of this section.

(4) Within thirty days of notification by the Secretary to the State of the amount of funds available under this subsection, the State shall notify institutions of the availability of funds for food service equipment. The Secretary shall establish standards to assure prompt action by States on requests by institutions for such funds and shall also prescribe a priority system to be followed by States in allocating funds under this subsection.

(5) The Secretary shall issue regulations authorizing the State to disburse funds under this subsection directly to a supplier of food service equipment if the funds are used to purchase equipment for an institution that (A) meets all the requirements for participation under this section, except for the licensing requirements, and (B) satisfies all the requirements for licensing, except for a requirement for food service equipment. The State shall retain legal title to such equipment until the State and the institution sign an agreement authorizing the institution to participate in the program under this section.

(*o*) Training and technical assistance; notification of nonparticipating institutions; availability of list of notified nonparticipating institutions

States participating in the program under this section shall provide sufficient training, technical assistance, and monitoring to facilitate expansion and effective operation of the program, and shall take affirmative action to expand the availability of benefits under this section. Such action, at a minimum, shall include annual notification to each nonparticipating institution or family or group day care home within the State that is licensed, approved, or registered, or that receives funds under title XX of the Social Security Act [42 U.S.C. 1397 et seq.], of the availability of the program, the requirements for program participation, the availability of food service equipment funds under the program, and the application procedures to be followed in the program. The list of institutions so notified each year shall be available to the public upon request. The Secretary shall assist the States in developing plans to fulfill the requirements of this subsection.

(p) Non-diminishment of state and local funds

Expenditures of funds from State and local sources for the maintenance of food programs for children shall not be diminished as a result of funds received under this section.

(q) Accounts and records

States and institutions participating in the program under this section shall keep such accounts and records as may be necessary to enable the Secretary to determine whether there has been compliance with the requirements of this section. Such accounts and records shall be available at all times for inspection and audit by representatives of the Secretary, the Comptroller General of the United States, and appropriate State representatives and shall be preserved for such period of time, not in excess of five years, as the Secretary determines necessary.

(r) Authorization of appropriations

There are hereby authorized to be appropriated for each fiscal year such funds as are necessary to carry out the purposes of this section.

§ 1769. Pilot projects

(a) Statement of purpose; project contents

The Secretary shall conduct pilot projects with respect to local school districts or other appropriate units, or groups of program participants, for the purpose of determining whether there may be more efficient, healthful, economical, and reliable methods of operating school lunch, school breakfast, and summer feeding programs under this chapter and the Child Nutrition Act of 1966 [42 U.S.C. 1771 et seq.], and methods for operating such programs that will result in improved delivery of benefits thereunder in accordance with the purposes of this chapter and such Act. Such projects shall, notwithstanding any other provision of law, include (1) not more than ten projects providing participating schools or other institutions the option of receiving all or part cash assistance in lieu of commodities under this chapter and such Act for such nutrition programs operated in such schools or institutions, (2) projects designed to streamline or reduce reporting requirements by local school districts, and (3) projects using the United States Department of Agriculture Extension Service to aid in nutrition training and education in schools and other institutions.

(b) Study

The Secretary shall conduct a study to analyze the impact and effect of cash payments in lieu of commodities. The study shall be limited to a comparison between a State that phased out its commodity distribution facilities prior to June 30, 1974, and elected to receive cash payments in lieu of donated foods, and a State not eligible for cash payments in lieu of donated foods. Such study shall include an assessment of the administrative feasibility and nutritional impact of cash payments in lieu of donated foods, the cost savings, if any, that may be effected thereby at the Federal, State, and local levels, any additional costs that may be placed on programs and participating students, the impact on Federal programs designed to provide adequate income to farmers, the impact on the quality of food served, and the impact on plate waste in school lunch and breakfast programs.

(c) Report to Congress; contents

The Secretary shall report to Congress, not later than eighteen months after November 10, 1977, on the results of the pilot projects and study conducted under this section, except for the pilot projects conducted under subsection (d) of the section. In connection with such pilot projects, such report shall include an assessment of the methods employed in such projects for operating school lunch, school breakfast, and summer feeding programs, in terms of the following factors—

(1) the administrative feasibility and nutritional impact;

(2) the cost savings that may be effected at Federal, State, and local levels;

(3) the impact on Federal programs designed to provide adequate income to farmers;

(4) the impact on the quality of food served; and

(5) the impact on plate waste.

(d) Free lunches without regard for income of family; reimbursement of school food authorities

(1) The Secretary may conduct pilot projects in not more than fourteen school districts (or other appropriate units), of which not more than two may be located in any administrative region of the Food and Nutrition Service of the Department of Agriculture, for the purpose of determining the feasibility, cost, and other consequences of providing lunches free to all children, without regard to the income of the children's families, during the school year beginning July 1, 1979.

(2) The Secretary shall reimburse school food authorities participating in a pilot project under this subsection for all lunches served to children on the same basis that the Secretary normally provides for lunches served to children meeting the eligibility requirements for free lunches under section 1758 of this title.

(3) The Secretary shall submit to the appropriate committees of the Senate and the House of Representatives a report on the pilot projects conducted under this subsection not later than six months after the conclusion of such projects.

(4) There are hereby authorized to be appropriated such sums as are necessary for the fiscal year beginning October 1, 1978, for the purpose of conducting an evaluation of pilot projects conducted under this subsection and for the purpose of making additional payments for lunches served to children (beyond what the school food authorities would otherwise receive under sections 1753 and 1759a of this title) to school food authorities participating in pilot projects.

§ 1771. Congressional declaration of purpose

SHORT TITLE OF 1978 AMENDMENT.

Pub. L. 95-627, § 1, Nov. 10, 1978, 92 Stat. 3603 provided: "That this Act [which enacted section 1769c of this title, amended sections 1755, 1757, 1758, 1759a to 1761, 1762a, 1766, 1769, 1772 to 1774, 1776, 1784 and 1786 of this title, and enacted provisions set out as notes under sections 1755, 1773 and 1786 of this title] may be cited as the 'Child Nutrition Amendments of 1978'."

§ 1772. Special program to encourage the consumption of fluid milk by children; authorization of appropriations; eligibility for special milk program; minimum rate of reimbursement

There is hereby authorized to be appropriated for the fiscal year ending June 30, 1970, and for each succeeding fiscal year, such sums as may be necessary to enable the Secretary of Agriculture, under such rules and regulations as he may deem in the public interest, to encourage consumption of fluid milk by children in the United States in (1) nonprofit schools of high school grade and under, and (2) nonprofit nursery schools, child-care centers, settlement houses, summer camps, and similar nonprofit institutions devoted to the care and training of children. For the purposes of this section "United States" means the fifty States, Guam, the Commonwealth of Puerto Rico, the Virgin Islands, American Samoa, the Trust Territory of the Pacific Islands, and the District of Columbia. The Secretary shall administer the special milk program provided for by this section to the maximum extent practicable in the same manner as he administered the special milk program provided for by this chapter during the fiscal year ending June 30, 1969. Any school or nonprofit child care institution shall receive the special milk program upon their request. Children who qualify for free lunches under guidelines set forth by the Secretary shall, at the option of the school involved (or of the local educational agency involved in the case of a public school) also be eligible for free milk. For the fiscal year ending June 30, 1975, and for subsequent school years, the minimum rate of reimbursement for a half-pint of milk served in schools and other eligible institutions shall not be less than 5 cents per half-pint served to eligible children, and such minimum rate of reimbursement shall be adjusted on an annual basis each school year to reflect changes in the Producer Price Index for Fresh Processed Milk published by the Bureau of Labor Statistics of the Department of Labor. Such adjustment shall be computed to the nearest one-fourth cent. Notwithstanding any other provision of this section, in no event shall the minimum rate of reimbursement exceed the cost to the school or institution of milk served to children.

(As amended Pub. L. 95-166, §§ 11, 20(1), (2), Nov. 10, 1977, 91 Stat. 1337, 1346; Pub. L. 95-627, § 5(a), Nov. 10, 1978, 92 Stat. 3619.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 1755, 1775, 1776, 1780 of this title.

§ 1773. School breakfast program

(a) Establishment; authorization of appropriations

There is hereby authorized to be appropriated such sums as are necessary to enable the Secretary to carry out a program to assist the States and the Department of Defense through grants-in-aid and other means to initiate, maintain, or expand nonprofit breakfast programs in all schools which make application for assistance and agree to carry out a nonprofit breakfast program in accordance with this chapter. Appropriations and expenditures for this chapter shall be considered Health, Education, and Welfare functions for budget purposes rather than functions of Agriculture.

(b) Apportionment of funds to States; national average payment for breakfasts, reduced-price breakfasts, and free breakfasts; additional payments, severe need: maximum payment for free and reduced price breakfasts

(1) Of the funds appropriated for the purposes of this section, the Secretary shall for the fiscal year ending June 30, 1973, (1) apportion $2,600,000 equally among the States other than Guam, the Virgin Islands, American Samoa, and the Trust Territory of the Pacific Islands, and $45,000 equally among Guam, the Virgin Islands, American Samoa, and the Trust Territory of the Pacific Islands, and (2) apportion the remainder among the States in accordance with the apportionment formula contained in section 1753 of this title. For each fiscal year beginning with the fiscal year ending June 30, 1974, the Secretary shall make breakfast assistance payments, at such times as he may determine, from the sums appropriated therefor, to each State educational agency, in a total amount equal to the result obtained by (1) multiplying the number of breakfasts (consisting of a combination of foods which meet the minimum nutritional requirements prescribed by the Secretary pursuant to subsection (e) of this section) served during such fiscal year to children in schools in such States which participate in the breakfast program under this section under agreements with such State educational agency by a national average breakfast payment prescribed by the Secretary for such fiscal year to carry out the purposes of this section; (2) multiplying the number of such breakfasts served free to children eligible for free breakfasts in such schools during such fiscal year by a national average free breakfast payment prescribed by the Secretary for such fiscal year to carry out the purposes of this section; and (3) multiplying the number of reduced price breakfasts served to children eligible for reduced price breakfasts in such schools during such fiscal year by a national average reduced price breakfasts payment prescribed by the Secretary for such fiscal year to carry out the provisions of this section: *Provided*, That in any fiscal year the aggregate amount of the breakfast assistance payments made by the Secretary to each State educational agency for any fiscal year shall not be less than the amount of the payments made by the State educational agency to participating schools within the State for the fiscal year ending June 30, 1972, to carry out the purposes of this section. The national average payment established by the Secretary for all breakfasts served to eligible children shall not be less than 8 cents; an amount of not less than 15 cents shall be added for each reduced-price breakfast; and an amount of not less than 20 cents shall be added for each free breakfast.

(2)(A) The Secretary shall make additional payments for breakfasts served to children qualifying for a free or reduced-price meal at schools that are in severe need.

(B) The maximum payment for each such free breakfast shall be the higher of—

(i) the national average payment established by the Secretary for free breakfasts plus 10 cents, or

(ii) 45 cents, which shall be adjusted on a semiannual basis each July 1 and January 1 to the nearest one-fourth cent in accordance with changes in the series for food away from home of the Consumer Price Index published by the Bureau of Labor Statistics of the Department of Labor for the most recent six-month period for which such data are available, except that the initial such adjustment shall be made on January 1, 1978, and shall reflect the change in the series of food away from home during the period November 1, 1976, to October 31, 1977.

(C) The maximum payment for each such reduced-price breakfast shall be five cents less than the maximum payment for each free breakfast as determined under clause (B) of this paragraph.

[*See main edition for text of* (*c*)]

(d) Severe need assistance; eligibility standards; receipt of lesser of operating costs of breakfast program or meal reimbursement rate

Each State educational agency shall establish eligibility standards for providing additional assistance to schools in severe need, which shall include those schools in which the service of breakfasts is required pursuant to State law and those schools (having a breakfast program or desiring to initiate a breakfast program) in which, during the most recent second preceding school year for which lunches were served, 40 percent or more of the lunches served to students at the school were served free or at a reduced price and in which the rate per meal established by the Secretary is insufficient to cover the costs of the breakfast program. Such eligibility standards shall be submitted to the Secretary for approval and included in the State plan of child nutrition operations required by section 1759a(e)(1) of this title. Pursuant to those State eligibility standards, a school, upon the submission of appropriate documentation about the need circumstances in that school and the school's eligibility for additional assistance, shall be entitled to receive 100 percent of the operating costs of the breakfast program, including the costs of obtaining, preparing, and serving food, or the meal reimbursement rate specified in paragraph (2) of subsection (b) of this section, whichever is less.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 1755, 1756, 1759a, 1760, 1766, 1775, 1776, 1777, 1780 of this title.

§ 1774. Food service equipment assistance program

(a) Establishment; equipment required for food service programs; authorization of appropriations

There is hereby authorized to be appropriated for the fiscal year ending June 30, 1971, not to exceed $38,000,000, for the fiscal year ending June 30, 1972, not to exceed $33,000,000, for each of the three fiscal years ending June 30, 1973, June 30, 1974, and June 30, 1975, not to exceed $40,000,000 and for each succeeding fiscal year, not to exceed $75,000,000, to enable the Secretary to formulate and carry out a program to assist the States through grants-in-aid and other means to supply schools drawing attendance from areas in which poor economic conditions exist with equipment, other than land or buildings, for the storage, preparation, transportation, and serving of food to enable such schools to establish, maintain, and expand schools food service programs. In the case of a nonprofit private school, such equipment shall be for use of such school principally in connection with child feeding programs authorized in this chapter and in the National School Lunch Act, as amended [42 U.S.C. 1751 et seq.].

(b) Apportionment of funds to States; reapportionment of funds; matching funds requirement inapplicable to especially needy schools; order of priority; availability of remaining funds

Except for the funds reserved under subsection (e) of this section, the Secretary shall apportion the funds appropriated for the purposes of this section among the States on the basis of the ratio that the number of lunches (consisting of a combination of foods which meet the minimum nutritional requirements prescribed by the Secretary pursuant to section 9 of the National School Lunch Act [42 U.S.C. 1758]) served in each State in the latest preceding school year for which the Secretary determines data are available at the time such funds are apportioned bears to the total number of such lunches served in all States in such preceding school year. If any State cannot utilize all of the funds apportioned to it under the provisions of this subsection, the Secretary shall make further apportionments to the remaining States in the manner set forth in this subsection for apportioning funds among all the States. Payments to any State of funds apportioned under the provisions of this subsection for any fiscal year shall be made upon condition that at least one-fourth of the cost of equipment financed under this subsection shall be borne by funds from sources within the State, except that such condition shall not apply with respect to funds used under this section to assist schools that are especially needy, as determined by criteria to be established by each State and approved by the Secretary. States shall apportion their share of funds under this subsection by giving priority to schools without a food service program, schools that do not serve both breakfasts and lunches but that will use food service equipment to initiate the service of breakfasts or lunches, and schools without the facilities to prepare and cook hot meals at the schools (including schools having equipment that is so antiquated or impaired as to endanger the continuation of an adequate food service program or the ability to prepare and cook hot meals) or at a kitchen that serves the schools and that is operated by the local school district or by a nonprofit private school or the authority that is responsible for the administration of one or more nonprofit private schools. After making funds available to such schools, the Secretary shall make the remaining funds available to eligible schools that do not meet the priority criteria, for the purpose of purchasing needed replacement equipment.

[*See main edition for text of* (c)]

(d) Nonprofit private schools

If, in any State, the State educational agency is prohibited by law from administering the program authorized by this section in nonprofit private schools within the State, the Secretary shall administer such program in such private schools. In such event, the Secretary shall withhold from the funds apportioned to any such State under the provisions of subsection (b) of this section an amount which bears the same ratio to such funds as the number of lunches (consisting of a combination of foods which meet the minimum nutritional requirements prescribed by the Secretary pursuant to section 9(a) of the National School Lunch Act [42 U.S.C. 1758(a)]) served in nonprofit private schools in such State in the latest preceding school year for which the Secretary determines data are available at the time such funds are withheld bears to the total number of such lunches served in all schools within such State in such preceding school year.

(e) Reservation of funds; State apportionment; funds for States administered by Secretary: withholding; reapportionment of funds; matching funds requirement inapplicable to especially needy schools

For the fiscal years ending September 30, 1978, September 30, 1979, and September 30, 1980, 40 percent of the funds appropriated for the purposes of this section shall be reserved to the Secretary to assist schools without a food service program and schools that do not serve breakfasts or lunches but that plan to use food service equipment to initiate a breakfast or lunch program. The Secretary shall apportion the funds so reserved among the States on the basis of the ratio of the number of children in each State enrolled in schools without a food service program and in schools moving toward the initiation of the service of breakfasts to the number of children in all States enrolled in schools without a food service program and in schools moving toward the initiation of the service of breakfasts. In those States in which the Secretary administers the food service equipment assistance program in nonprofit private schools, the Secretary shall withhold from the funds apportioned to any such State under this subsection an amount which bears the same ratio to such funds as the number of children enrolled in nonprofit private schools without a food service program or moving toward the initiation of the service of breakfasts in such State bears to the total number of children enrolled in all schools without a food service program or moving toward the initiation of the service of breakfasts in such State. The funds so reserved, apportioned, and withheld shall be used by the State, or the Secretary in the case of nonprofit private schools, only to assist schools without a food service program and schools moving toward the initiation of the service of breakfasts. If any State cannot use all the funds apportioned to it under the provisions of this subsection, the Secretary shall make further apportionment to the remaining States for use only in assisting schools without a food service program and schools moving toward the initiation of the service of breakfasts. If after such further apportionment, any funds received under this subsection remain unused, the Secretary shall immediately apportion such funds among the States in accordance with the provisions of subsection (b) of this section. Payment to any State of funds under the provisions of this subsection shall be made upon the condition that at least one-fourth of the cost of the equipment financed shall be borne by funds from sources within the State, except that such condition shall not apply with respect to funds used under this subsection to assist schools that are especially needy, as determined by criteria established by each State and approved by the Secretary.

(f) Funds for food service program of hot meals prepared and cooked by the school, or received by the school; necessity of alternative method of meal preparation; conditions for use of funds for food service facilities located at institution providing the school lunch or breakfast program

(1) Funds authorized for the purposes of this section shall be used only for facilities that enable schools, or local public or private nonprofit institutions under the conditions prescribed in paragraph (2) of this subsection, to prepare and cook hot meals or receive hot meals at the school or institution unless the school can demonstrate to the satisfaction of the State (or, in the case of nonprofit private schools in States where the Secretary administers the food service equipment program in such schools, to the satisfaction of the Secretary) that an alternative method of meal preparation is necessary for the introduction or continued existence of the school lunch or breakfast program in such school or to improve the consumption of food or the participation of eligible children in the program.

(2) If a school authorized to receive funds under this section cannot establish a food service program of hot meals prepared and cooked by the school, or received by the school, and the school enters into an agreement with a public or private nonprofit institution to provide the school lunch or breakfast program for children attending the school, the funds provided under this section may be used for food service facilities to be located at such institution, if (A) the school retains legal title to such facilities and, (B) in the case of funds made available under subsection (e) of this section, the institution would otherwise be without such facilities.

(As amended Pub. L. 95-166, §§ 4, 20(3), (4), Nov. 10, 1977, 91 Stat. 1332, 1346; Pub. L. 95-627, § 6(b), Nov. 10, 1978, 92 Stat. 3620.)

L. 95-166, § 4(4), struck out authorization of transfer of equipment no longer used at a nonprofit private school principally in connection with authorized child feeding programs to another nonprofit private school participating in any of such programs or to a public school participating in any of such programs, or, absent such disposition, of reversion to the United States of that part of the equipment financed with Federal funds, or the residual value thereof.

Subsec. (b). Pub. L. 95-166, §§ 4(1), 20(3), substituted "such condition shall not apply with respect to funds used under this section to assist schools that are especially needy, as determined by criteria to be established by each State and approved by the Secretary" for "such conditions shall not apply with respect to funds used under this section to assist schools if such schools are especially needy, as determined by the State" and added provisions respecting apportionment of funds on basis of priority to certain schools and availability of remaining funds to other schools with a food service program and with facilities to prepare and cook hot meals at the schools; and substituted in first sentence "school year" for "fiscal year" in two instances.

(6) Where the Secretary is responsible for the administration of programs under this chapter or the National School Lunch Act [42 U.S.C. 1751 et seq.], the amount of funds that would be allocated to the State agency under this section and under section 13(k)(1) of the National School Lunch Act [42 U.S.C. 1761(k)(1)] shall be retained by the Secretary for the Secretary's use in the administration of such programs.

(b) State staffing standards for planning and administration of covered programs

The Secretary, in cooperation with the several States, shall develop State staffing standards for the administration by each State of sections 4, 11, and 17 of the National School Lunch Act [42 U.S.C. 1753, 1759a, 1766], and sections 1772, 1773, and 1774 of this title, that will ensure sufficient staff for the planning and administration of programs covered by State administrative expenses.

(c) Funds, usage: compensation, benefits, and travel expenses of personnel; support services; office equipment; staff development

Funds paid to a State under subsection (a) of this section may be used to pay salaries, including employee benefits and travel expenses, for administrative and supervisory personnel; for support services; for office equipment; and for staff development.

(d) Fund adjustment; State administered programs

If any State agency agrees to assume responsibility for the administration of food service programs in nonprofit private schools or child care institutions that were previously administered by the Secretary, an appropriate adjustment shall be made in the administrative funds paid under this section to the State not later than the succeeding fiscal year.

(e) Unused funds; availability for obligation and expenditure, and reallocation to other States

Notwithstanding any other provision of law, funds available to each State under this section for fiscal year 1978 that are not obligated or expended in that fiscal year shall remain available for obligation and expenditure by that State in fiscal year 1979. For fiscal year 1979, and the succeeding fiscal year, the Secretary shall establish a date by which each State shall submit to the Secretary a plan for the disbursement of funds provided under this section for each such year, and the Secretary shall reallocate any unused funds, as evidenced by such plans, to other States as the Secretary deems appropriate.

(f) Commodity distribution program

The State may use a portion of the funds available under this section to assist in the administration of the commodity distribution program.

(g) State plan; use of funds

Each State shall submit to the Secretary for approval by October 1 of each year an annual plan for the use of State administrative expense funds, including a staff formula for State personnel, system level supervisory and operating personnel, and school level personnel.

(h) State funding requirement

Payments of funds under this section shall be made only to States that agree to maintain a level of funding out of State revenues, for administrative costs in connection with programs under this chapter (except section 1786 of this title) and the National School Lunch Act [42 U.S.C. 1751 et seq.] (except section 13 of that Act [42 U.S.C. 1761]), not less than the amount expended or obligated in fiscal year 1977.

(i) Authorization of appropriations

For the fiscal years beginning October 1, 1977, and ending September 30, 1980, there are hereby authorized to be appropriated such sums as may be necessary for the purposes of this section.

§ 1786. Special supplemental food program

(a) Congressional findings and declaration of purpose

Congress finds that substantial numbers of pregnant, postpartum, and breastfeeding women, infants, and young children from families with inadequate income are at special risk with respect to their physical and mental health by reason of inadequate nutrition of health care, or both. It is, therefore, the purpose of the program authorized by this section to provide, up to the authorization levels set forth in subsection (g) of this section, supplemental foods and nutrition education through any eligible local agency that applies for participation in the program. The program shall serve as an adjunct to good health care, during critical times of growth and development, to prevent the occurrence of health problems and improve the health status of these persons.

(b) Definitions

As used in this section—

(1) "Administrative costs" means costs that shall include, but not be limited to, costs for certification of eligibility of persons for participation in the program; centrifuges, measuring boards, spectrophotometers, and scales used for such certification; food delivery; monitoring; nutrition education; outreach; start-up costs; and general administration applicable to implementation of the program under this section, such as the cost of staff, warehouse facilities, transportation, insurance, developing and printing food instruments, and administration of State and local agency offices.

(2) "Breastfeeding women" means women up to one year postpartum who are breastfeeding their infants.

(3) "Children" means persons who have had their first birthday but have not yet attained their fifth birthday.

(4) "Competent professional authority" means physicians, nutritionists, registered nurses, dietitians, or State or local medically trained health officials, or persons designated by physicians or State or local medically trained health officials, in accordance with standards prescribed by the Secretary, as being competent professionally to evaluate nutritional risk.

(5) "Infants" means persons under one year of age.

(6) "Local agency" means a public health or welfare agency or a private nonprofit health or welfare agency, which, directly or through an agency or physician with which it has contracted, provides health services. The term shall include an Indian tribe, band, or group recognized by the Department of the Interior, the Indian Health Service of the Department of Health, Education, and Welfare, or an intertribal council or group that is an authorized representative of Indian tribes, bands, or groups recognized by the Department of the Interior.

(7) "Nutrition education" means individual or group sessions and the provision of materials designed to improve health status that achieve positive change in dietary habits, and emphasize relationships between nutrition and health, all in keeping with the individual's personal, cultural, and socioeconomic preferences.

(8) "Nutritional risk" means (A) detrimental or abnormal nutritional conditions detectable by biochemical or anthropometric measurements, (B) other documented nutritionally related medical conditions, (C) dietary deficiencies that impair or endanger health, or (D) conditions that predispose persons to inadequate nutritional patterns or nutritionally related medical conditions, including, but not limited to, alcoholism and drug addiction.

(9) "Plan of operation and administration" means a document that describes the manner in which the State agency intends to implement and operate the program.

(10) "Postpartum women" means women up to six months after termination of pregnancy.

(11) "Pregnant women" means women determined to have one or more fetuses in utero.

(12) "Secretary" means the Secretary of Agriculture.

(13) "State agency" means the health department or comparable agency of each State; an Indian tribe, band, or group recognized by the Department of the Interior; an intertribal council or group that is the authorized representative of Indian tribes, bands, or groups recognized by the Department of the Interior; or the Indian Health Service of the Department of Health, Education, and Welfare.

(14) "Supplemental foods" means those foods containing nutrients determined by nutritional research to be lacking in the diets of pregnant, breastfeeding, and postpartum women, infants, and children, as prescribed by the Secretary. State agencies may, with the approval of the Secretary, substitute different foods providing the nutritional equivalent of foods prescribed by the Secretary, to allow for different cultural eating patterns.

(c) Grants-in-aid; cash grants; ratable reduction of amount an agency may distribute; affirmative action; regulations relating to dual receipt of benefits under commodity supplemental food program

(1) The Secretary may carry out a special supplemental food program to assist State agencies through grants-in-aid and other means to provide, through local agencies, at no cost, supplemental foods and nutrition education to low-income pregnant, postpartum, and breastfeeding women, infants, and children who satisfy the eligibility requirements specified in subsection (d) of this section. The program shall be supplementary to the food stamp program (91 Stat. 958) [7 U.S.C. 2011 et seq.] and to any program under which foods are distributed to needy families in lieu of food stamps.

(2) Subject to the authorization levels specified in subsection (g) of this section for the fiscal years ending September 30, 1979, and September 30, 1980, and subject to amounts appropriated for this program for the fiscal years ending September 30, 1981, and September 30, 1982—

(A) the Secretary shall make cash grants to State agencies for the purpose of administering the program, and

(B) any State agency approved eligible local agency that applies to participate in or expand the program under this section shall immediately be provided with the necessary funds to carry out the program.

(3) Nothing in this subsection shall be construed to permit the Secretary to reduce ratably the amount of foods that an eligible local agency shall distribute under the program to participants. The Secretary shall take affirmative action to ensure that the program is instituted in areas most in need of supplemental foods. The existence of a commodity supplemental food program under section 1304 of the Food and Agriculture Act of 1977 shall not preclude the approval of an application from an eligible local agency to participate in the program under this section nor the operation of such program within the same geographic area as that of the commodity supplemental food program, but the Secretary shall issue such regulations as are necessary to prevent dual receipt of benefits under the commodity supplemental food program and the program under this section.

(d) Eligible participants

(1) Participation in the program under this section shall be limited to pregnant, postpartum, and breastfeeding women, infants, and children from low-income families who are determined by a competent professional authority to be at nutritional risk.

(2) The Secretary shall establish income eligibility standards to be used in conjunction with the nutritional risk criteria in determining eligibility of persons for participation in the program. Persons at nutritional risk shall be eligible for the program only if they are members of families that satisfy the income standards prescribed for free and reduced-price school meals under section 1758 of this title.

(3) Persons shall be certified for participation in accordance with general procedures prescribed by the Secretary.

(e) Nutrition education

(1) The State agency shall ensure that nutrition education is provided to all pregnant, postpartum, and breastfeeding participants in the program and to parents or caretakers of infant and child participants in the program. The State agency may also provide nutrition education to pregnant, postpartum, and breastfeeding women and to parents or caretakers of infants and children enrolled at local agencies operating the program under this section who do not participate in the program. The Secretary shall prescribe standards to ensure that adequate nutrition education services are provided. The State agency shall provide training to persons providing nutrition education under this section. Nutrition education shall be evaluated annually by each State agency, and such evaluation shall include the views of participants concerning the effectiveness of the nutrition education they have received.

(2) The Secretary shall, after submitting proposed nutrition education materials to the Secretary of Health, Education, and Welfare for comment, issue such materials for use in the program under this section.

(f) State operation and administration plan; public hearings; eligible migrants; monthly reports; recordkeeping; notification of applicant agency by state; notification of individual by agency; publication of program benefits; state fair hearing; validity of certification of eligibility following change of area; effective administration standards; withholding of administrative funds; prescribed supplemental food regulations; responsibility of professional authority; use of foreign language

(1) Each State agency shall submit annually to the Secretary, by a date specified by the Secretary, a plan of operation and administration for approval by the Secretary, as a prerequisite to receiving funds under this section. The plan shall include, among such other information as the Secretary may require—

(A) a description of how the State agency will distribute administrative funds, including start-up funds, to local agencies operating under the program;

(B) a description of the State agency's financial management system;

(C) a description of methods used to determine nutritional risk;

(D) a budget for administrative funds;

(E) the staffing pattern;

(F) nutrition education goals and action plans, including a description of the methods that will be used to meet the special nutrition education needs of migrants and Indians;

(G) plans to provide program benefits under this section to eligible migrants and Indians;

(H) a list of all areas and special populations, in priority order based on relative need, within the jurisdiction the State agency, and the State agency's plans to initiate or expand operations under the program in areas most in need of supplemental foods, including plans to inform nonparticipating local agencies of the availability and benefits of the program and the availability of technical assistance in implementing the program, and a description of how the State agency will take all reasonable actions to identify potential local agencies and encourage such agencies to implement or expand operations under the program within the following year in the neediest one-third of all areas unserved or partially served;

(I) a description of how the State agency's delivery system will enable low-income persons to receive supplemental foods under this program, in accordance with standards developed by the Secretary;

(J) the State agency's plans for informing eligible persons of the program under this section in accordance with paragraph (8) of this subsection;

(K) a description of how the State agency plans to coordinate operations under the program with special counseling services such as, but not limited to, the expanded food and nutrition education program, family planning, immunization, prenatal care, well-child care, alcohol and drug abuse counseling, child abuse counseling, and with the food stamp program; and

(L) a copy of the procedure manual developed by the State agency for the program under this section.

The Secretary shall not approve any plan that permits any person to participate simultaneously in both the program authorized under this section and the commodity supplemental food program under section 1304 of the Food and Agriculture Act of 1977.

(2) Not less than one month prior to the submission to the Governor of the plan of operation and administration required by this subsection, the State agency shall conduct hearings to enable the general public to participate in the development of the State agency plan.

(3) The Secretary shall establish procedures under which eligible migrants may, to the maximum extent feasible, continue to participate in the program under this section when they are present in States other than the State in which they were originally certified for participation in the program. Each State agency shall be responsible for administering the program for migrant populations within its jurisdiction.

(4) State agencies shall submit monthly financial reports and participation data to the Secretary.

(5) State and local agencies operating under the program shall keep such accounts and records, including medical records, as may be necessary to enable the Secretary to determine whether there has been compliance with this section and to determine and evaluate the benefits of the nutritional assistance provided under this section. Such accounts and records shall at all times be available for inspection and audit by representatives of the Secretary and shall be preserved for such period of time, not in excess of five years, as the Secretary determines necessary.

(6) The State agency, upon receipt of a completed application from a local agency for participation in the program (and the Secretary, upon receipt of a completed application from a State agency), shall notify the applicant agency in writing within thirty days of the approval or disapproval of the application, and any disapproval shall be accompanied with a statement of the reasons for such disapproval. Within fifteen days after receipt of an incomplete application, the State agency (or the Secretary) shall notify the applicant agency of the additional information needed to complete the application.

(7) Local agencies participating in the program under this section shall notify persons of their eligibility or ineligibility for the program within twenty days of the date that the household, during office hours of a local agency, personally makes an oral or written request to participate in the program. The Secretary shall establish a shorter notification period for categories of persons who, due to special nutritional risk conditions; must receive benefits more expeditiously.

(8) The State agency shall, in cooperation with participating local agencies, publicize the availability of program benefits, including the eligibility criteria for participation and the location of local agencies operating the program. Such information shall be publicly announced by the State agency and by local agencies at least annually. Such information shall also be distributed to offices and organizations that deal with significant numbers of potentially eligible persons, including health and medical organizations, hospitals and clinics, welfare and unemployment offices, social service agencies, farmworker organizations, Indian tribal organizations, and religious and community organizations in low income areas.

(9) The State agency shall grant a fair hearing, and a prompt determination thereafter, in accordance with regulations issued by the Secretary, to any applicant, participant, or local agency aggrieved by the action of a State or local agency as it affects participation.

(10) If a person certified as eligible for participation in the program under this section in one area moves to another area in which the program is operating, that person's certification of eligibility shall remain valid for the period for which the person was originally certified.

(11) The Secretary shall establish standards for the proper, efficient, and effective administration of the program, including standards that will ensure sufficient State agency staff. If the Secretary determines that a State agency has failed without good cause to administer the program in a manner consistent with this section or to implement the approved plan of operation and administration under this subsection, the Secretary may withhold such amounts of the State agency's administrative funds as the Secretary deems appropriate. Upon correction of such failure during a fiscal year by a State agency, any funds so withheld for such fiscal year shall be provided the State agency.

(12) The Secretary shall prescribe by regulation the supplemental foods to be made available in the program under this section. To the degree possible, the Secretary shall assure that the fat, sugar, and salt content of the prescribed foods is appropriate. Products specifically designed for pregnant, postpartum, and breastfeeding women, or infants shall be available at the discretion of the Secretary if the products are commercially available or are justified to and approved by the Secretary based on clinical tests performed in accordance with standards prescribed by the Secretary.

(13) A competent professional authority shall be responsible for prescribing the appropriate supplemental foods, taking into account medical and nutritional conditions and cultural eating patterns.

(14) The State agency shall (A) provide nutrition education materials and instruction in languages other than English and (B) use appropriate foreign language materials in the administration of the program, in areas in which a substantial number of low-income households speak a language other than English.

(g) Authorization of appropriations

There are hereby authorized to be appropriated $550,000,000 for the fiscal year ending September 30, 1979, $750,000,000 for the fiscal year ending September 30, 1980, $900,000,000 for the fiscal year ending September 30, 1981, and $950,000,000 for the fiscal year ending September 30, 1982, for the purpose of carrying out the program authorized by this section. Of the sums appropriated for any fiscal year for the program under this section, one-half of 1 percent, not to exceed $3,000,000, shall be available to the Secretary for the purpose of evaluating program performance, evaluating health benefits, and administration of pilot projects, including projects designed to meet the special needs of migrants, Indians, and rural populations.

(h) Administrative funds

(1) The Secretary shall make 20 percent of the funds provided under this section each fiscal year (other than funds expended for evaluation and pilot projects under subsection (g) of this section) available for State agency and local agency administrative costs. When reallocating funds, the Secretary may exceed the 20 percent limitation for administrative costs if the Secretary determines such action necessary for the proper, efficient, and effective administration of the program. Not less than one-sixth of the funds expended by each State agency for administrative costs under this subsection shall be used for nutrition education activities, unless the State agency requests that it be authorized to expend a lesser amount and such request is accompanied by documentation that other funds will be used to conduct such activities.

(2) The Secretary, for each of the fiscal years 1979 through 1982, shall allocate administrative funds to each State agency on the basis of a formula determined by the Secretary, which shall include a minimum amount, and which shall be designed to take into account the varying needs of State agencies based on factors such as the number of local agencies and the number of persons participating in the program at those agencies.

(3) Each State agency shall provide, from its allocation for administrative funds, funds to local agencies for their administrative costs. Each State agency shall distribute administrative funds to local agencies under allocation standards developed by the State agency in cooperation with the several local agencies, which satisfy allocation guidelines established by the Secretary. Such allocation standards shall take into account factors deemed appropriate to further proper, efficient, and effective administration of the program, such as local agency staffing needs, density of population, number of persons served, and availability of administrative support from other sources. These allocation standards shall be included in the plan of operation and administration required by subsection (f) of this section.

(4) The State agency shall forward in advance to local agencies those administrative funds necessary for successful commencement of program operations under this section during the three months following approval or until a program reaches its projected caseload level, whichever comes first.

(i) Division of funds formula; reallocation of unspent funds; use of state allocation to buy supplemental foods

By the beginning of each fiscal year, the Secretary shall divide, among the State agencies, the funds provided in accordance with this section on the basis of a formula determined by the Secretary. Each State agency's allocation, as so determined, shall constitute the State agency's authorized operational level for that year, except that the Secretary shall reallocate funds periodically if the Secretary determines that a State agency is unable to spend its allocation. For purposes of the formula, if Indians are served by the health department of a State, the formula shall be based on the State population inclusive of the Indians within the State boundaries. If Indians residing in the State are served by a State agency other than the health department of the State, the population of the tribes within the jurisdiction of the State being so served shall not be included in the formula for such State, and shall instead be included in the formula for the State agency serving the Indians. Notwithstanding any other provision of this section, the Secretary may use a portion of a State agency's allocation to purchase supplemental foods for donation to the State agency under this section.

(j) Report on migrant population participation

By October 1 of each year, the Secretary shall prepare a report describing plans to ensure that, to the maximum extent feasible, eligible members of migrant populations continue to participate in the program as such persons move among States. The report shall be made available to the National Advisory Council on Maternal, Infant, and Fetal Nutrition.

(k) National Advisory Council on Maternal, Infant, and Fetal Nutrition; establishment; membership; term; officers; meetings; quorum; study on program improvement; report to President and Congress; technical assistance by Secretary

(1) There is hereby established a National Advisory Council on Maternal, Infant, and Fetal Nutrition (referred to in this subsection as the "Council") composed of twenty-one members appointed by the Secretary. One member shall be a State director of a program under this section; one member shall be a State official responsible for a commodity supplemental food program under section 1304 of the Food and Agriculture Act of 1977; one member shall be a State fiscal officer of a program under this section (or the equivalent thereof); one member shall be a State health officer (or the equivalent thereof); one member shall be a local agency director of a program under this section in an urban area; one member shall be a local agency director of a program under this section in a rural area; one member shall be a project director of a commodity supplemental food program; one member shall be a State public health nutrition director (or the equivalent thereof); one member shall be a representative of an organization serving migrants; one member shall be an official from a State agency predominantly serving Indians; three members shall be parent participants of a program under this section or of a commodity supplemental food program; one member shall be a pediatrician; one member shall be an obstetrician; one member shall be a representative of a nonprofit public interest organization that has experience with and knowledge of the special supplemental food program; one member shall be a person involved at the retail sales level of food in the special supplemental food program; two members shall be officials of the Department of Health, Education, and Welfare appointed by the Secretary of Health, Education, and Welfare; and two members shall be officials of the Department of Agriculture appointed by the Secretary.

(2) Members of the Council appointed from outside the Department of Agriculture and the Department of Health, Education, and Welfare shall be appointed for terms not exceeding three years. State and local officials shall serve only during their official tenure, and the tenure of parent participants shall not exceed two years. This section is referred to in section 1776 of this title.

§ 1788. Nutrition education and training

(a) Congressional findings

Congress finds that—

(1) the proper nutrition of the Nation's children is a matter of highest priority;

(2) the lack of understanding of the principles of good nutrition and their relationship to health can contribute to a child's rejection of highly nutritious foods and consequent plate waste in school food service operations;

(3) many school food service personnel have not had adequate training in food service management skills and principles, and many teachers and school food service operators have not had adequate training in the fundamentals of nutrition or how to convey this information so as to motivate children to practice sound eating habits;

(4) parents exert a significant influence on children in the development of nutritional habits and lack of nutritional knowledge on the part of parents can have detrimental effects on children's nutritional development; and

(5) there is a need to create opportunities for children to learn about the importance of the principles of good nutrition in their daily lives and how these principles are applied in the school cafeteria.

(b) Statement of purpose

It is the purpose of this section to encourage effective dissemination of scientifically valid information to children participating or eligible to participate in the school lunch and related child nutrition programs by establishing a system of grants to State educational agencies for the development of comprehensive nutrition information and education programs. Such nutrition education programs shall fully use as a learning laboratory the school lunch and child nutrition programs.

(c) Definitions

For purposes of this section, the term "nutrition information and education program" means a multidisciplinary program by which scientifically valid information about foods and nutrients is imparted in a manner that individuals receiving such information will understand the principles of nutrition and seek to maximize their well-being through food consumption practices. Nutrition education programs shall include, but not be limited to, (A) instructing students with regard to the nutritional value of foods and the relationship between food and human health; (B) training school food service personnel in the principles and practices of food service management; (C) instructing teachers in sound principles of nutrition education; and (D) developing and using classroom materials and curricula.

(d) Nutrition information and training; grants; coordination with other nutrition activities; coordination with Department of Health, Education, and Welfare: transfer of funds; State contracts: nutrition training grants and pilot projects; private schools, program administration

(1) The Secretary is authorized to formulate and carry out a nutrition information and education program, through a system of grants to State educational agencies, to provide for (A) the nutritional training of educational and food service personnel, (B) the food service management training of school food service personnel, and (C) the conduct of nutrition education activities in schools and child care institutions.

(2) The program is to be coordinated at the State level with other nutrition activities conducted by education, health, and State Cooperative Extension Service agencies. In formulating the program, the Secretary and the State may solicit the advice and recommendations of the National Advisory Council on Child Nutrition; State educational agencies; the Department of Health, Education, and Welfare; and other interested groups and individuals concerned with improvement of child nutrition.

(3) If a State educational agency is conducting or applying to conduct a health education program which includes a school-related nutrition education component as defined by the Secretary, and that health education program is eligible for funds under programs administered by the Department of Health, Education, and Welfare, the Secretary may make funds authorized in this section available to the Department of Health, Education, and Welfare to fund the nutrition education component of the State program without requiring an additional grant application.

(4) The Secretary, in carrying out the provisions of this subsection, shall make grants to State educational agencies who, in turn, may contract with land-grant colleges eligible to receive funds under the Act of July 2, 1862 (12 Stat. 503, as amended; 7 U.S.C. 301-305, 307, and 308), or the Act of August 30, 1890 (26 Stat. 417, as amended; 7 U.S.C. 321-326 and 328), including the Tuskegee Institute, other institutions of higher education, and nonprofit organizations and agencies, for the training of educational and school food service personnel with respect to providing nutrition education programs in schools and the training of school food service personnel in school food service management. Such grants may be used to develop and conduct training programs for early childhood, elementary, and secondary educational personnel and food service personnel with respect to the relationship between food, nutrition, and health; educational methods and techniques, and issues relating to nutrition education; and principles and skills of food service management for cafeteria personnel.

(5) The State, in carrying out the provisions of this subsection, may contract with State and local educational agencies, land-grant colleges eligible to receive funds under the Act of July 2, 1862 (12 Stat. 503, as amended; 7 U.S.C. 301-305, 307, and 308), or the act of August 30, 1890 (26 Stat. 417, as amended; 7 U.S.C. 321-326 and 328), including the Tuskegee Institute, other institutions of higher education, and other public or private nonprofit educational or research agencies, institutions, or organizations to pay the cost of pilot demonstration projects in elementary and secondary schools with respect to nutrition education. Such projects may include, but are not limited to, projects for the development, demonstration, testing, and evaluation of curricula for use in early childhood, elementary, and secondary education programs.

(6) Notwithstanding any other provision of this section, if, in any State, the State educational agency is prohibited by law from administering the program authorized by this section in nonprofit private schools and institutions, the Secretary may administer the program with respect to such schools and institutions.

(e) Agreements with State agencies; regulations

The Secretary is authorized to enter into agreements with State educational agencies incorporating the provisions of this section, and issue such regulations as are necessary to implement this section.

(f) Use of funds; planning and assessment grants; administrative expenses

(1) The funds made available under this section may, under guidelines established by the Secretary, be used by State educational agencies for (A) employing a nutrition education specialist to coordinate the program, including travel and related personnel costs; (B) undertaking an assessment of the nutrition education needs of the State; (C) developing a State plan of operation and management for nutrition education; (D) applying for and carrying out planning and assessment grants; (E) pilot projects and related purposes; (F) the planning, development, and conduct of nutrition education programs and workshops for food service and educational personnel; (G) coordinating and promoting nutrition information and education activities in local school districts (incorporating, to the maximum extent practicable, as a learning laboratory, the child nutrition programs); (H) contracting with public and private nonprofit educational institutions for the conduct of nutrition education instruction and programs relating to the purposes of this section; and (I) related nutrition education purposes, including the preparation, testing, distribution, and evaluation of visual aids and other informational and educational materials.

(2) Any State desiring to receive grants authorized by this section may, from the funds

appropriated to carry out this section, receive a planning and assessment grant for the purposes of carrying out the responsibilities described in clauses (A), (B), (C), and (D) of paragraph (1) of this subsection. Any State receiving a planning and assessment grant, may, during the first year of participation, be advanced a portion of the funds necessary to carry out such responsibilities: *Provided*, That in order to receive additional funding, the State must carry out such responsibilities.

(3) An amount not to exceed 15 percent of each State's grant may be used for up to 50 percent of the expenditures for overall administrative and supervisory purposes in connection with the program authorized under this section.

(4) Nothing in this section shall prohibit State or local educational agencies from making available or distributing to adults nutrition education materials, resources, activities, or programs authorized under this section.

(g) Accounts, records, and reports; inspection, audit, and preservation

(1) State educational agencies participating in programs under this section shall keep such accounts and records as may be necessary to enable the Secretary to determine whether there has been compliance with this section and the regulations issued hereunder. Such accounts and records shall at all times be available for inspection and audit by representatives of the Secretary and shall be preserved for such period of time, not in excess of five years, as the Secretary determines to be necessary.

(2) State educational agencies shall provide reports on expenditures of Federal funds, program participation, program costs, and related matters, in such form and at such times as the Secretary may prescribe.

(h) State coordinators for nutrition; duties; budget and need assessment; State plan, contents, review, public hearings

(1) In order to be eligible for assistance under this section, a State shall appoint a nutrition education specialist to serve as a State coordinator for school nutrition education. It shall be the responsibility of the State coordinator to make an assessment of the nutrition education needs in the State as provided in paragraph (2) of this subsection, prepare a State plan as provided in paragraph (3) of this subsection, and coordinate programs under this chapter with all other nutrition education programs provided by the State with Federal or State funds.

(2) Upon receipt of funds authorized by this section, the State coordinator shall prepare an itemized budget and assess the nutrition education needs of the State. Such assessment shall include, but not be limited to, the identification and location of all students in need of nutrition education. The assessment shall also identify State and local individual, group, and institutional resources within the State for materials, facilities, staffs, and methods related to nutrition education.

(3) Within nine months after the award of the planning and assessment grant, the State coordinator shall develop, prepare, and furnish the Secretary, for approval, a comprehensive plan for nutrition education within such State. The Secretary shall act on such plan not later than sixty days after it is received. Each such plan shall describe (A) the findings of the nutrition education needs assessment within the State; (B) provisions for coordinating the nutrition education program carried out with funds made available under this section with any related publicly supported programs being carried out within the State; (C) plans for soliciting the advice and recommendations of the National Advisory Council on Child Nutrition, the State educational agency, interested teachers, food nutrition professionals and paraprofessionals, school food service personnel, administrators, representatives from consumer groups, parents, and other individuals concerned with the improvement of child nutrition; (D) plans for reaching all students in the State with instruction in the nutritional value of foods and the relationships among food, nutrition, and health, for training food service personnel in the principles and skills of food service management, and for instructing teachers in sound principles of nutrition education; and (E) plans for using, on a priority basis, the resources of the land-grant colleges eligible to receive funds under the Act of July 2, 1862 (12 Stat. 503; 7 U.S.C. 301-305, 307, and 308), or the Act of August 30, 1890 (26 Stat. 417, as amended; 7 U.S.C. 321-326 and 328), including the Tuskegee Institute. To the maximum extent practicable, the State's performance under such plan shall be reviewed and evaluated by the Secretary on a regular basis, including the use of public hearings.

(j)[1] Authorization of appropriations; enrollment data

(1) For the fiscal years beginning October 1, 1977, and October 1, 1978, grants to the States for the conduct of nutrition education and information programs shall be based on a rate of 50 cents for each child enrolled in schools or in institutions within the State, except that no State shall receive an amount less than $75,000 per year.

(2) For the fiscal year beginning October 1, 1979, there is hereby authorized to be appropriated for grants to each State for the conduct of nutrition education and information programs, an amount equal to the higher of (A) 50 cents for each child enrolled in schools or in institutions within each State, or (B) $75,000 for each State. Grants to each State from such appropriations shall be based on a rate of 50 cents for each child enrolled in schools or in institutions within such State, except that no State shall receive an amount less than $75,000 for that year. If funds appropriated for such year are insufficient to pay the amount to which each State is entitled under the preceding sentence, the amount of such grant shall be ratably reduced to the extent necessary so that the total of such amounts paid does not exceed the amount of appropriated funds. If additional funds become available for making such payments, such amounts shall be increased on the same basis as they were reduced.

EX. ORD. NO. 12113. INDEPENDENT WATER PROJECT REVIEW

Ex. Ord. No. 12113, Jan. 4, 1979, 44 F.R. 1955, as amended by Ex. Ord. No. 12141, June 5, 1979, 44 F.R. 32635, provided:

By the authority vested in me as President by the Constitution and laws of the United States of America, in furtherance of the Water Resources Planning Act (79 Stat. 244; 42 U.S.C. 1962 et seq.), and in order to ensure coordinated planning and independent review of Federal water resource programs and projects, it is hereby ordered as follows:

1-101. The Water Resources Council shall ensure that it has established a current set of principles, standards, and procedures for Federal participants in the preparation of comprehensive regional or river basin plans and for the formulation and evaluation of Federal water and related land resources projects (42 U.S.C. 1962a-2).

1-102. The Council shall ensure that an impartial technical review is performed on preauthorization reports or proposals and preconstruction plans for Federal and Federally assisted water, and related land resources, projects and programs, as they are defined in the Council's principles and standards.

1-103. The Council shall develop a planning manual for use by each agency (a) in calculating benefits and costs by using the best available techniques and (b) in applying the principles and standards in a consistent manner.

1-104. The impartial technical review shall evaluate each report, proposal, or plan for compliance with (a) the Council's principles and standards, (b) the planning manual or, pending issuance of the manual, established agency procedures, (c) other Federal laws, regulations and guidelines relevant to the planning process, and (d) the goal of wide public participation in the development of project plans, including adequate opportunity for public comment and adequate consideration of those views.

1-105. (a) Beginning April 1, 1979, all agencies shall submit, prior to their approval by the head of the agency, preauthorization reports or proposals and preconstruction plans for Federal and Federally assisted water, and related land resources, projects and programs to the Council at least 90 days prior to the scheduled time for their submission to the Office of Management and Budget in support of authorization or funding requests for those activities in fiscal year 1981 and subsequent years.

(b) After October 1, 1979, an agency shall not submit to the Council, during any calendar quarter, more than one-third of the total reports, proposals, and plans scheduled for review during any one fiscal year.

(c) The Chairman of the Council, or his designee, shall transmit the results of the impartial technical review to the appropriate agency head. The transmittal shall include identification of any specific variations from Council approved procedures and manuals and the steps necessary to bring the plan into conformance. The results of the review shall be transmitted to the agency head within 60 days of the agency's submission of the report, proposal, or plan provided that funds and other resources have been made available for the review.

1-106. (a) All agency reports, proposals and plans submitted to the Council for review shall include sufficient information to allow an adequate technical review. In particular, this information shall include:

(1) Sufficient documentation to allow a technical review of the analysis by the agency of the ratio of the benefit to the cost.

(2) Evidence that an adequate evaluation has been made of reasonable alternatives, including nonstructural ones, for addressing the water-related problems of the affected regions and communities.

(3) An explanation of the relationship of the plan to any approved regional water resource management plans.

(4) A summary of the consideration given to water conservation measures and a listing of those measures incorporated into the plan.

(5) Evidence that there has been compliance with relevant environmental and other laws and requirements.

(6) Evidence that the public and State and local officials have been involved in the plan formulation process.

(b) If the documents and information necessary for the review are not initially submitted, the Chairman may extend the review period by not more than 30 days. If the documents and information submitted do not demonstrate compliance, a finding detailing the areas of noncompliance will be transmitted to the agency head.

1-107. Before any agency submits to the Congress, or to any committee or member thereof, a report relating to, or affecting in whole or in part its advance programs, or the public works and improvement projects comprising such programs, or the results of any plan preparation for such programs or projects, such report or plan shall be submitted to the Office of Management and Budget for advice as to its relationship to the program of the President. When such report or plan is thereafter submitted to the Congress, or to any committee or member thereof, it shall include a statement of the advice received from the Office of Management and Budget.

1-108. Agency submissions to the Office of Management and Budget of the reports, proposals or plans reviewed pursuant to this Order shall be accompanied by a statement of the findings transmitted to the agency head.

1-109. Executive Order No. 9384 of October 4, 1943, as amended, is revoked.

The Commission shall publish a preliminary plan not later than January 1, 1981. The Commission shall hold public hearings on the preliminary plan in each State which would be affected by the plan, shall review all comments presented at such hearings or submitted in writing to the Commission, and, after making any revisions in the plan it decides are necessary, submit to Congress a final master plan not later than January 1, 1982. All decisions of the Commission related to the master plan shall be made by a two-thirds majority vote of the Commission.

"(b) The Commission shall provide for public participation in the development, revision, and implementation of said plan and shall encourage and assist such participation. The Commission shall, within 150 days after the date of enactment of this Act [Oct. 21, 1978], publish guidelines in the Federal Register for public participation in the development, revision, and implementation of the plan. The final master plan shall not be implemented without the express approval of the plan by an Act of Congress enacted after the date of enactment of this Act. After such approval, no change may be made in the master plan except as may be provided by an Act of Congress enacted after the date of enactment of the Act approving the master plan. No person shall engage in any activity which violates any provision of the plan or which is inconsistent (as determined under regulations promulgated by the Commission) with the plan.

"(c) The Commission, in developing the plan, shall identify the various economic, recreational, and environmental objectives of the Upper Mississippi River System, recommend guidelines to achieve such objectives, and propose methods to assure compliance with such guidelines and coordination of future management decisions affecting the Upper Mississippi River System, and include with the proposed master plan any legislative proposals which may be necessary to carry out such recommendations and achieve such objectives.

"(d) For the purposes of developing the plan, the Commission shall conduct such studies as it deems necessary to carry out its responsibilities under this section, utilizing, to the fullest extent possible, the resources and results of the Upper Mississippi River resources management (GREAT) study conducted pursuant to section 117 of the Water Resources Development Act of 1976 (Public Law 94-587) [Pub. The Commission may request appropriate Federal, State, or local agencies to prepare such studies. Any Federal agency to which such a request is submitted may conduct any such study for the purpose of this section.

"(e) Studies conducted pursuant to this section shall include, but not be limited to, the following:

"(1) The Secretary of the Interior and the Secretary of the Army, working through the Commission, shall undertake a study to determine the carrying capacity of the Upper Mississippi River System, and the long- and short-term systematic ecological impacts of (A) present and any projected expansion of navigation capacity on the fish and wildlife, water quality, wilderness, and public recreational opportunities of said rivers, (B) present operation and maintenance programs, (C) the means and measures that should be adopted to prevent or minimize loss of or damage to fish and wildlife, and (D) a specific analysis of the immediate and systematic environmental effects of any second lock at Alton, Illinois, and provide for the mitigation of any adverse impact on, and the enhancement of, such resources.

"(2) The Commission shall undertake studies to determine—

"(A) the relationship of any expansion of navigational capacity on the Upper Mississippi River System to national transportation policy,

"(B) the direct and indirect effects of any expansion of navigational capacity on the Nation's railroads and on shippers dependent upon rail service, and

"(C) transportation costs and benefits to the Nation to be derived from any expansion of navigational capacity on said River System.

The Commission is directed to immediately initiate a specific evaluation of the economic need for a second lock at Alton, Illinois, and the direct and indirect systematic effects and needs for such a second lock at Alton, Illinois.

"(3) The Commission shall undertake a program of studies, including a demonstration program to evaluate the benefits and costs of disposing of dredge spoil material in contained areas located out of the floodplain. The program shall include, but shall not be limited to, the evaluation of possible uses in the market-place for the dredge spoil studies and demonstration programs to minimize the environmental effects of channel operation and maintenance activities.

"(4) The development by the Commission of a computerized analytical inventory and system analysis for the Upper Mississippi River System to facilitate evaluation of the comparative environmental effects of alternative management proposals.

"(f) Any Secretary responsible for conducting a study under subsection (e) of this section, and other studies conducted under this section, shall produce one or more draft reports containing study conclusions and appropriate appendix materials and shall present the reports to the Commission for approval and inclusion in the master plan process.

"(g) To carry out the provisions of this section, there are authorized to be appropriated to the Commission, through the United States Water Resources Council, $12,000,000. The Commission is authorized to transfer funds to such Federal, State, or local government agencies as it deems necessary to carry out the studies and analysis authorized by this section.

"(i) No replacement, construction, or rehabilitation that expands the navigation capacity of locks, dams, and channels shall be undertaken by the Secretary of the Army to increase the navigation capacity of the Upper Mississippi River System, until the master plan prepared pursuant to this section has been approved by the Congress except as provided in section 102 [Pub. L. 95-502, title I, § 102, Oct. 21, 1978, 92 Stat. 1695, which is not classified to the Code] and except for necessary operating and maintenance activities.

(b) develop uniform standards and procedures for investigations and compliance reviews to be conducted by Federal departments and agencies under any Federal statue, Executive order, regulation or policy requiring equal employment opportunity;

If no reference is made within the 15 day period, the decision of the agency which initiated the proposed issuance will become effective.

"(c) In no case shall action be taken with respect to an applicant pursuant to clause (1) or (2) of subsection (b) without notice and opportunity for hearing.".

MESSAGE OF THE PRESIDENT

To the Congress of the United States:

I am submitting to you today Reorganization Plan No. 1 of 1978. This Plan makes the Equal Employment Opportunity Commission the principal Federal agency in fair employment enforcement. Together with actions I shall take by Executive Order, it consolidates Federal equal employment opportunity activities and lays, for the first time, the foundation of a unified, coherent Federal structure to combat job discrimination in all its forms.

In 1940 President Roosevelt issued the first Executive Order forbidding discrimination in employment by the Federal government. Since that time the Congress, the courts and the Executive Branch—spurred by the courage and sacrifice of many people and organizations—have taken historic steps to extend equal employment opportunity protection throughout the private as well as public sector. But each new prohibition against discrimination unfortunately has brought with it a further dispersal of Federal equal employment opportunity responsibility. This fragmentation of authority among a number of Federal agencies has meant confusion and ineffective enforcement for employees, regulatory duplication and needless expense for employers.

Fair employment is too vital for haphazard enforcement. My Administration will aggressively enforce our civil rights laws. Although discrimination in any area has severe consequences, limiting economic opportunity affects access to education, housing and health care. I, therefore, ask you to join with me to reorganize administration of the civil rights laws and to begin that effort by reorganizing the enforcement of those laws which ensure an equal opportunity to a job.

Eighteen government units now exercise important responsibilities under statutes, Executive Orders and regulations relating to equal employment opportunity:

The Equal Employment Opportunity Commission (EEOC) enforces Title VII of the Civil Rights Act of 1964, [section 2000e et seq. of this title] which bans employment discrimination based on race, national origin, sex or religion. The EEOC acts on individual complaints and also initiates private sector cases involving a "pattern or practice" of discrimination.

The Department of Labor and 11 other agencies enforce Executive Order 11246 [set out as a note under section 2000e of this title]. This prohibits discrimination in employment on the basis of race, national origin, sex, or religion and requires affirmative action by government contractors. While the Department now coordinates enforcement of this "contract compliance" program, it is actually administered by eleven other departments and agencies. The Department also administers those statutes requiring contractors to take affirmative action to employ handicapped people, disabled veterans and Vietnam veterans.

In addition, the Labor Department enforces the Equal Pay Act of 1963 [section 206(d) of Title 29, Labor], which prohibits employers from paying unequal wages based on sex, and the Age Discrimination in Employment Act of 1967 [section 621 et seq. of Title 29], which forbids age discrimination against persons between the ages of 40 and 65.

The Department of Justice litigates Title VII cases involving public sector employers—State and local governments. The Department also represents the Federal government in lawsuits against Federal contractors and grant recipients who are in violation of Federal nondiscrimination prohibitions.

The Civil Service Commission (CSC) enforces Title VII and all other nondiscrimination and affirmative action requirements for Federal employment. The CSC rules on complaints filed by individuals and monitors affirmative action plans submitted annually by other Federal agencies.

The Equal Employment Opportunity Coordinating Council includes representatives from EEOC, Labor, Justice, CSC and the Civil Rights Commission. It is charged with coordinating the Federal equal employment opportunity enforcement effort and with eliminating overlap and inconsistent standards.

In addition to these major government units, other agencies enforce various equal employment opportunity requirements which apply to specific grant programs. The Department of Treasury, for example, administers the anti-discrimination prohibitions applicable to recipients of revenue sharing funds.

These programs have had only limited success. Some of the past deficiencies include:

—inconsistent standards of compliance;

—duplicative, inconsistent paperwork requirements and investigative efforts;

—conflicts within agencies between their program responsibilities and their responsibility to enforce the civil rights laws;

—confusion on the part of workers about how and where to seek redress;

—lack of accountability.

I am proposing today a series of steps to bring coherence to the equal employment enforcement effort. These steps, to be accomplished by the Reorganization Plan and Executive Orders, constitute an important step toward consolidation of equal employment opportunity enforcement. They will be implemented over the next two years, so that the agencies involved may continue their internal reform.

Its experience and broad scope make the EEOC suitable for the role of principal Federal agency in fair employment enforcement. Located in the Executive Branch and responsible to the President, the EEOC has developed considerable expertise in the field of employment discrimination since Congress created it by the Civil Rights Act of 1964 [section 200e-4 of Title 42]. The Commission has played a pioneer role in defining both employment discrimination and its appropriate remedies.

While it has had management problems in past administrations, the EEOC's new leadership is making substantial progress in correcting them. In the last seven months the Commission has redesigned its internal structures and adopted proven management techniques. Early experience with these procedures indicates a high degree of success in reducing and expediting new cases. At my direction, the Office of Management and Budget is actively assisting the EEOC to ensure that these reforms continue.

The Reorganization Plan I am submitting will accomplish the following:

On July 1, 1978, abolish the Equal Employment Opportunity Coordinating Council (42 U.S.C. 2000e-14) and transfer its duties to the EEOC (no positions or funds shifted).

On October 1, 1978, shift enforcement of equal employment opportunity for Federal employees from the CSC to the EEOC (100 positions and $6.5 million shifted).

On July 1, 1979, shift responsibility for enforcing both the Equal Pay Act and the Age Discrimination in Employment Act from the Labor Department to the EEOC (198 positions and $5.3 million shifted for Equal Pay; 119 positions and $3.5 million for Age Discrimination).

Clarify the Attorney General's authority to initiate "pattern or practice" suits under Title VII in the public sector.

In addition, I will issue an Executive Order on October 1, 1978, to consolidate the contract compliance program—now the responsibility of Labor and eleven "compliance agencies"—into the Labor Department (1,517 positions and $33.1 million shifted).

These proposed transfers and consolidations reduce from fifteen to three the number of Federal agencies having important equal employment opportunity responsibilities under Title VII of the Civil Rights Act of 1964 and Federal contract compliance provisions.

Each element of my Plan is important to the success of the entire proposal.

By abolishing the Equal Employment Opportunity Coordinating Council and transferring its responsibilities to the EEOC, this plan places the Commission at the center of equal employment opportunity enforcement. With these new responsibilities, the EEOC can give coherence and direction to the government's efforts by developing strong uniform enforcement standards to apply throughout the government: standardized data collection procedures, joint training programs, programs to ensure the sharing of enforcement related data among agencies, and methods and priorities for complaint and compliance reviews. Such direction has been absent in the Equal Employment Opportunity Coordinating Council.

It should be stressed, however, that affected agencies will be consulted before EEOC takes any action. When the Plan has been approved, I intend to issue an Executive Order which will provide for consultation, as well as a procedure for reviewing major disputed issues within the Executive Office of the President. The Attorney General's responsibility to advise the Executive Branch on legal issues will also be preserved.

Transfer of the Civil Service Commission's equal employment opportunity responsibilities to EEOC is needed to ensure that: (1) Federal employees have the same rights and remedies as those in the private sector and in State and local government; (2) Federal agencies meet the same standards as are required of other employers; and (3) potential conflicts between an agency's equal employment opportunity and personnel management functions are minimized. The Federal government must not fall below the standard of performance it expects of private employers.

The Civil Service Commission has in the past been lethargic in enforcing fair employment requirements within the Federal government. While the Chairman and other Commissioners I have appointed have already demonstrated their personal commitment to expanding equal employment opportunity, responsibility for ensuring fair employment for Federal employees should rest ultimately with the EEOC.

We must ensure that the transfer in no way undermines the important objectives of the comprehensive civil service reorganization which will be submitted to Congress in the near future. When the two plans take effect; I will direct the EEOC and the CSC to coordinate their procedures to prevent any duplication and overlap.

The Equal Pay Act now administered by the Labor Department, prohibits employers from paying unequal wages based on sex. Title VII of the Civil Rights Act, which is enforced by EEOC, contains a broader ban on sex discrimination. The transfer of Equal Pay responsibility from the Labor Department to the EEOC will minimize overlap and centralize enforcement of statutory prohibitions against sex discrimination in employment.

The transfer will strengthen efforts to combat sex discrimination. Such efforts would be enhanced still further by passage of the legislation pending before you, which I support, that would prohibit employers from excluding women disabled by pregnancy from participating in disability programs.

There is now virtually complete overlap in the employers, labor organizations, and employment agencies covered by Title VII and by the Age Discrimination in Employment Act. This overlap is burdensome to employers and confusing to victims of discrimination. The proposed transfer of the age discrimination program from the Labor Department to the EEOC will eliminate the duplication.

The Plan I am proposing will not affect the Attorney General's responsibility to enforce Title VII against State or local governments or to represent the Federal government in suits against Federal contractors and grant recipients. In 1972, the Congress determined that the Attorney General should be involved in suits against State and local governments. This proposal reinforces that judgment and clarifies the Attorney General's authority to initiate litigation against State or local governments engaged in a "pattern or practice" of discrimination. This in no way diminishes the EEOC's existing authority to investigate complaints filed against State or local governments and, where appropriate, to refer them to the Attorney General. The Justice Department and the EEOC will cooperate so that the Department sues on valid referrals, as well as on its own "pattern or practice" cases.

A critical element of my proposals will be accomplished by Executive Order rather than by the Reorganization Plan. This involves consolidation in the Labor Department of the responsibility to ensure that Federal contractors comply with Executive Order 11246. Consolidation will achieve the following: promote consistent standards, procedures, and reporting requirements; remove contractors from the jurisdiction of multiple agencies; prevent an agency's equal employment objectives from being outweighed by its procurement and construction objectives; and produce more effective law enforcement through unification of planning, training and sanctions. By 1981, after I have had an opportunity to review the manner in which both the EEOC and the Labor Department are exercising their new responsibilities, I will determine whether further action is appropriate.

Finally, the responsibility for enforcing grant-related equal employment provisions will remain with the agencies administering the grant programs. With the EEOC acting as coordinator of Federal equal employment programs, we will be able to bring overlap and duplication to a minimum. We will be able, for example, to see that a university's employment practices are not subject to duplicative investigations under both Title IX of the Education Amendments of 1972 [section 1681 et seq. of Title 20, Education] and the contract compliance program. Because of the similarities between the Executive Order program and those statutes requiring Federal contractors to take affirmative action to employ handicapped individuals and disabled and Vietnam veterans, I have determined that enforcement of these statues should remain in the Labor Department.

Each of the changes set forth in the Reorganization Plan accompanying this message is necessary to accomplish one or more of the purposes set forth in Section 901(a) of Title 5 of the United States Code. I have taken care to determine that all functions abolished by the Plan are done only under the statutory authority provided by Section 903(b) of Title 5 of the United States Code.

I do not anticipate that the reorganizations contained in this Plan will result in any significant change in expenditures. They will result in a more efficient and manageable enforcement program.

The Plan I am submitting is moderate and measured. It gives the Equal Employment Opportunity Commission—an agency dedicated solely to this purpose—the primary Federal responsibility in the area of job discrimination, but it is designed to give this agency sufficient time to absorb its new responsibilities. This reorganization will produce consistent agency standards, as well as increased accountability. Combined with the intense commitment of those charged with these responsibilites, it will become possible for us to accelerate this nation's progress in ensuring equal job opportunities for all our people.

Jimmy Carter.

(c) Commission regulation of certain activities

No agreement entered into pursuant to subsection (b) of this section shall provide for discontinuance of any authority and the Commission shall retain authority and responsibility with respect to regulation of—

[*See main edition for text of* (*1*) *to* (*4*)]

The Commission shall also retain authority under any such agreement to make a determination that all applicable standards and requirements have been met prior to termination of a license for byproduct material, as defined in section 2014(e)(2) of this title. Notwithstanding any agreement between the Commission and any State pursuant to subsection (b) of this section, the Commission is authorized by rule, regulation, or order to require that the manufacturer, processor, or producer of any equipment, device, commodity, or other product containing source, byproduct, or special nuclear material shall not transfer possession or control of such product except pursuant to a license issued by the Commission.

[*See main edition for text of* (*e*) *to* (*i*)]

(j) Reserve power to terminate or suspend agreements; review

The Commission, upon its own initiative after reasonable notice and opportunity for hearing to the State with which an agreement under subsection (b) of this section has become effective, or upon request of the Governor of such State, may terminate or suspend all or part of its agreement with the State and reassert the licensing and regulatory authority vested in it under this chapter, if the Commission finds that (1) such termination or suspension is required to protect the public health and safety, or (2) the State has not complied with one or more of the requirements of this section. The Commission shall periodically review such agreements and actions taken by the States under the agreements to ensure compliance with the provisions of this section.

[*See main edition for text of* (*k*) *to* (*m*)]

(n) Definitions

As used in this section, the term State means any State, Territory, or possession of the United States, the Canal Zone, Puerto Rico, and the District of Columbia. As used in this section, the term "agreement" includes any amendment to any agreement.

(o) State compliance requirements: compliance with section 2113(b) of this title and health and environmental protection standards; procedures for licenses, rulemaking, and license impact analysis; amendment of agreements for transfer of State collected funds; proceedings duplication restriction

In the licensing and regulation of byproduct material, as defined in section 2014(e)(2) of this title, or of any activity which results in the production of byproduct material as so defined under an agreement entered into pursuant to subsection (b) of this section, a State shall require—

(1) compliance with the requirements of subsection (b) of section 2113 of this title (respecting ownership of byproduct material and land), and

(2) compliance with standards which shall be adopted by the State for the protection of the public health, safety, and the environment from hazards associated with such material which are equivalent, to the extent practicable, or more stringent than, standards adopted and enforced by the Commission for the same purpose, including requirements and standards promulgated by the Commission and the Administrator of the Environmental Protection Agency pursuant to sections 2113, 2114, and 2022 of this title, and

(i) an opportunity, after public notice, for written comments and a public hearing, with a transcript,

(ii) an opportunity for cross examination, and

(iii) a written determination which is based upon findings included in such determination and upon the evidence presented during the public comment period and which is subject to judicial review;

(C) require for each license which has a significant impact on the human environment a written analysis (which shall be available to the public before the commencement of any such proceedings) of the impact of such license, including any activities conducted pursuant thereto, on the environment, which analysis shall include—

(i) an assessment of the radiological and nonradiological impacts to the public health of the activities to be conducted pursuant to such license;

(ii) an assessment of any impact on any waterway and groundwater resulting from such activities;

(iii) consideration of alternatives, including alternative sites and engineering methods, to the activities to be conducted pursuant to such license; and

(iv) consideration of the long-term impacts, including decommissioning, decontamination, and reclamation impacts, associated with activities to be conducted pursuant to such license, including the management of any byproduct material, as defined by section 2014(e)(2) of this title; and

(D) prohibit any major construction activity with respect to such material prior to complying with the provisions of subparagraph (C).

If any State under such agreement imposes upon any licensee any requirement for the payment of funds to such State for the reclamation or long-term maintenance and monitoring of such material, and if transfer to the United States of such material is required in accordance with section 2113(b) of this title, such agreement shall be amended by the Commission to provide that such State shall transfer to the United States upon termination of the license issued to such licensee the total amount collected by such State from such licensee for such purpose. If such payments are required, they must be sufficient to ensure compliance with the standards established by the Commission pursuant to section 2201(x) of this title. No State shall be required under paragraph (3) to conduct proceedings concerning any license or regulation which would duplicate proceedings conducted by the Commission.

(2) of the Atomic Energy Act of 1954 [section 2044(e)(2) of this title], or (B) any activity which results in the production of byproduct material as so defined, in the same manner and to the same extent as permitted before the date of the enactment of this Act, except that such State authority shall be exercised in a manner which, to the extent practicable, is consistent with the requirements of section 274 *o.* of the Atomic Energy Act of 1954 (as added by section 204(e) of this Act) [subsec. (*o*) of this section]. The Commission shall have the authority to ensure that such section 274 *o.* is implemented by any such State to the extent practicable during the three-year period beginning on the date of the enactment of this Act. Nothing in this section shall be construed to preclude the Commission or the Administrator of the Environmental Protection Agency from taking such action under section 275 of the Atomic Energy Act of 1954 [section 2022 of this title] as may be necessary to implement title I of this Act [section 7911 et seq. of this title].

"(2) An agreement entered into with any State as permitted under section 274 of the Atomic Energy Act of 1954 [this section] with respect to byproduct material as defined in section 11 e. (2) of such Act. [section 2014(e)(2) of this title], may be entered into at any time after the date of the enactment of this Act [Nov. 8, 1978] but no such agreement may take effect before the date three years after the date of the enactment of this Act.

"(3) Notwithstanding any other provision of this title [See Effective Date of 1978 Amendment note set out under section 2014 of this title], where a State assumes or has assumed, pursuant to an agreement entered into under section 274b. of the Atomic Energy Act of 1954 [subsec. (b) of this section], authority over any activity which results in the production of byproduct material, as defined in section 11 e. (2) of such Act [section 2014(e)(2) of this title], the Commission shall not, until the end of the three-year period beginning on the date of the enactment of this Act [Nov. 8, 1978], have licensing authority over such byproduct material produced in any activity covered by such agreement, unless the agreement is terminated, suspended, or amended to provide for such Federal licensing. If, at the end of such three-year period, a State has not entered into such an agreement with respect to byproduct material, as defined in section 11 e. (2) of the Atomic Energy Act of 1954, the Commission shall have authority over such byproduct material."

§ 2022. Health and environmental standards for uranium mill tailings

(a) Promulgation and revision of rules for protection from hazards at inactive or depository sites

As soon as practicable, but not later than one year after November 8, 1978, the Administrator of the Environmental Protection Agency (hereinafter referred to in this section as the "Administrator") shall, by rule, promulgate standards of general application (including standards applicable to licenses under section 104(h) of the Uranium Mill Tailings Radiation Control Act of 1978 [42 U.S.C. 7914(h)]) for the protection of the public health, safety, and the environment from radiological and nonradiological hazards associated with residual radioactive materials (as defined in section 101 of the Uranium Mill Tailings Radiation Control Act of 1978 [42 U.S.C. 7911]) located at inactive uranium mill tailings sites and depository sites for such materials selected by the Secretary of Energy, pursuant to title I of the Uranium Mill Tailings Radiation Control Act of 1978. [42 U.S.C. 7911 et seq.] Standards promulgated pursuant to this subsection shall, to the maximum extent practicable, be consistent with the requirements of the Solid Waste Disposal Act, as amended [42 U.S.C. 6901 et seq.]. The Administrator may periodically revise any standard promulgated pursuant to this subsection.

(b) Promulgation and revision of rules for protection from hazards at processing or disposal sites

(1) As soon as practicable, but not later than eighteen months after November 8, 1978, the Administrator shall, by rule, promulgate standards of general application for the protection of

the public health, safety, and the environment from radiological and nonradiological hazards associated with the processing and with the possession, transfer, and disposal of byproduct material, as defined in section 2014(e)(2) of this title, at sites at which ores are processed primarily for their source material content or which are used for the disposal of such byproduct material.

(2) Such generally applicable standards promulgated pursuant to this subsection for nonradiological hazards shall provide for the protection of human health and the environment consistent with the standards required under subtitle C of the Solid Waste Disposal Act, as amended [42 U.S.C. 6921 et seq.], which are applicable to such hazards: *Provided, however,* That no permit issued by the Administrator is required under this chapter or the Solid Waste Disposal Act, as amended [42 U.S.C. 6901 et seq.], for the processing, possession, transfer, or disposal of byproduct material, as defined in section 2014(e)(2) of this title. The Administrator may periodically revise any standard promulgated pursuant to this subsection. Within three years after such revision of any such standard, the Commission and any State permitted to exercise authority under section 2021(b)(2) of this title shall apply such revised standard in the case of any license for byproduct material as defined in section 2014(e)(2) of this title or any revision thereof.

(c) Publication in Federal Register; notice and hearing; consultations; judicial review; time for petition; venue; copy to Administrator; record; administrative jurisdiction; review by Supreme Court; effective date of rule

(1) Before the promulgation of any rule pursuant to this section, the Administrator shall publish the proposed rule in the Federal Register, together with a statement of the research, analysis, and other available information in support of such proposed rule, and provide a period of public comment of at least thirty days for written comments thereon and an opportunity, after such comment period and after public notice, for any interested person to present oral data, views, and arguments at a public hearing. There shall be a transcript of any such hearing. The Administrator shall consult with the Commission and the Secretary of Energy before promulgation of any such rule.

(2) Judicial review of any rule promulgated under this section may be obtained by any interested person only upon such person filing a petition for review within sixty days after such promulgation in the United States court of appeals for the Federal judicial circuit in which such person resides or has his principal place of business. A copy of the petition shall be forthwith transmitted by the clerk of court to the Administrator. The Administrator thereupon shall file in the court the written submissions to, and transcript of, the written or oral proceedings on which such rule was based as provided in section 2112 of title 28. The court shall have jurisdiction to review the rule in accordance with chapter 7 of title 5 and to grant appropriate relief as provided in such chapter. The judgement of the court affirming, modifying, or setting aside, in whole or in part, any such rule shall be final, subject to judicial review by the Supreme Court of the United States upon certiorari or certification as provided in section 1254 of title 28.

(3) Any rule promulgated under this section shall not take effect earlier than sixty calendar days after such promulgation.

(d) Federal and State implementation and enforcement

Implementation and enforcement of the standards promulgated pursuant to subsection (b) of this section shall be the responsibility of the Commission in the conduct of its licensing activities under this chapter. States exercising authority pursuant to section 2021(b)(2) of this title shall implement and enforce such standards in accordance with subsection (*o*) of such section.

(e) Other authorities of Administrator unaffected

SUBCHAPTER VII—BYPRODUCT MATERIALS

§ 2111. Domestic distribution; license; price limitations

No person may transfer or receive in interstate commerce, manufacture, produce, transfer, acquire, own, possess, import, or export any byproduct material, except to the extent authorized by this section, section 2112 or section

2114 of this title. The Commission is authorized to issue general or specific licenses to applicants seeking to use byproduct material for research or development purposes, for medical therapy, industrial uses, agricultural uses, or such other useful applications as may be developed. The Commission may distribute, sell, loan, or lease such byproduct material as it owns to qualified applicants with or without charge: *Provided, however,* That, for byproduct material to be distributed by the Commission for a charge, the Commission shall establish prices on such equitable basis as, in the opinion of the Commission, (a) will provide reasonable compensation to the Government for such material, (b) will not discourage the use of such material or the development of sources of supply of such material independent of the Commission, and (c) will encourage research and development. In distributing such material, the Commission shall give preference to applicants proposing to use such material either in the conduct of research and development or in medical therapy. The Commission shall not permit the distribution of any byproduct material to any licensee, and shall recall or order the recall of any distributed material from any licensee, who is not equipped to observe or who fails to observe such safety standards to protect health as may be established by the Commission or who uses such material in violation of law or regulation of the Commission or in a manner other than as disclosed in the application therefor or approved by the Commission. The Commission is authorized to establish classes of byproduct material and to exempt certain classes or quantities of material or kinds of uses or users from the requirements for a license set forth in this section when it makes a finding that the exemption of such classes or quantities of such material or such kinds of uses or users will not constitute an unreasonable risk to the common defense and security and to the health and safety of the public.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 2014, 2111, 2141, 2153, 2154, 2155, 2282 of this title.

§ 2113. Ownership and custody of certain byproduct material and disposal sites

(a) Specific assurances in license for pretermination actions

Any license issued or renewed after the effective date of this section under section 2092 or section 2111 of this title for any activity which results in the production of any byproduct material, as defined in section 2014(e)(2) of this title, shall contain such terms and conditions as the Commission determines to be necessary to assure that, prior to termination of such license—

(1) the licensee will comply with decontamination, decommissioning, and reclamation standards prescribed by the Commission for sites (A) at which ores were processed primarily for their source material content and (B) at which such byproduct material is deposited, and

(2) ownership of any byproduct material, as defined in section 2014(e)(2) of this title, which resulted from such licensed activity shall be transferred to (A) the United States or (B) in the State in which such activity occurred if such State exercises the option under subsection (b)(1) of this section to acquire land used for the disposal of byproduct material.

Any license which is in effect on the effective date of this section and which is subsequently terminated without renewal shall comply with paragraphs (1) and (2) upon termination.

(b) Transfer of title; health and environmental protection through maintenance of property and materials; use of surface or subsurface estates: first refusal rights of transferor; maintenance, monitoring, and emergency measures and other authorized action; licensee-transferor liability for fraud or negligence; administrative and legal costs limitation; government retransfers under section 7914(h) of this title

(1)(A) The Commission shall require by rule, regulation, or order that prior to the termination of any license which is issued after the effective date of this section, title to the land, including any interests therein (other than land owned by the United States or by a State) which is used for the disposal of any byproduct material, as defined by section 2014(e)(2) of this title, pursuant to such license shall be transferred to—

(i) the United States, or

(ii) the State in which such land is located, at the option of such State, unless the Commission determines prior to such termination that transfer of title to such land and such byproduct material is not necessary or desirable to protect the public health, safety, or welfare or to minimize or eliminate danger to life or property. Such determination shall be made in accordance with section 2231 of this title. Notwithstanding any other provision of law or any such determination, such property and materials shall be maintained pursuant to a license issued by the Commission pursuant to section 2111 of this title in such manner as will protect the public health, safety, and the environment.

(B) If the Commission determines by order that use of the surface or subsurface estates, or both, of the land transferred to the United States or to a State under subparagraph (A) would not endanger the public health, safety, welfare, or environment, the Commission, pursuant to such regulations as it may prescribe, shall permit the use of the surface or subsurface estates, or both, of such land in a manner consistent with the provisions of this section. If the Commission permits such use of such land, it shall provide the person who transferred such land with the right of first refusal with respect to such use of such land.

(2) If transfer to the United States of title to such byproduct material and such land is required under this section, the Secretary of Energy or any Federal agency designated by the President shall, following the Commission's determination of compliance under subsection (c) of this section, assume title and custody of such byproduct material and land transferred as provided in this subsection. Such Secretary or Federal agency shall maintain such material and land in such manner as will protect the public health and safety and the environment. Such custody may be transferred to another officer or instrumentality of the United States only upon approval of the President.

(3) If transfer to a State of title to such byproduct material is required in accordance with this subsection, such State shall, following the Commission's determination of compliance under subsection (d) of this section, assume title and custody of such byproduct material and land transferred as provided in this subsection. Such State shall maintain such material and land in such manner as will protect the public health, safety, and the environment.

(4) In the case of any such license under section 2092 of this title, which was in effect on the effective date of this section, the Commission may require, before the termination of such license, such transfer of land and interests therein (as described in paragraph (1) of this subsection) to the United States or a State in which such land is located, at the option of such State, as may be necessary to protect the public health, welfare, and the environment from any effects associated with such byproduct material. In exercising the authority of this paragraph, the Commission shall take into consideration the status of the ownership of such land and interests therein and the ability of the licensee to transfer title and custody thereof to the United States or a State.

(5) The Commission may, pursuant to a license, or by rule or order, require the Secretary or other Federal agency or State having custody of such property and materials to undertake such monitoring, maintenance, and emergency measures as are necessary to protect the public health and safety and such other actions as the Commission deems necessary to comply with the standards promulgated pursuant to section 2114 of this title. The Secretary or such other Federal agency is authorized to carry out maintenance, monitoring, and emergency measures, but shall take no other action pursuant to such license, rule or order, with respect to such property and materials unless expressly authorized by Congress after November 8, 1978.

(6) The transfer of title to land or byproduct materials, as defined in section 2014(e)(2) of this title, to a State or the United States pursuant to this subsection shall not relieve any licensee of liability for any fraudulent or negligent acts done prior to such transfer.

(7) Material and land transferred to the United States or a State in accordance with this subsection shall be transferred without cost to the United States or a State (other than administrative and legal costs incurred in carrying out such transfer). Subject to the provisions of paragraph (1)(B) of this subsection, the United States or a State shall not transfer title to material or property acquired under this subsection to any person, unless such transfer is in the same manner as provided under section 7914(h) of this title.

(8) The provisions of this subsection respecting transfer of title and custody to land shall not apply in the case of lands held in trust by the United States for any Indian tribe or lands owned by such Indian tribe subject to a restriction against alienation imposed by the United States. In the case of such lands which are used for the disposal of byproduct material, as defined in section 2014(e)(2) of this title, the licensee shall be required to enter into such arrangements with the Commission as may be appropriate to assure the long-term maintenance and monitoring of such lands by the United States.

(c) Compliance with applicable standards and license requirements; determination upon termination of license

Upon termination on[1] any license to which this section applies, the Commission shall determine whether or not the licensee has complied with all applicable standards and requirements under such license.

§ 2153. Cooperation with other nations

No cooperation with any nation, group of nations or regional defense organization pursuant to sections 2073, 2074(a), 2077, 2094, 2112, 2121, 2133, 2134, or 2164 of this title shall be undertaken until—

(a) Terms, conditions, duration, nature, scope, and other requirements of proposed agreements for cooperation; Presidential exemptions; negotiations; Nuclear Proliferation Assessment Statement

the proposed agreement for cooperation has been submitted to the President, which proposed agreement shall include the terms, conditions, duration, nature, and scope of the cooperation; and shall include the following requirements:

(1) a guaranty by the cooperating party that safeguards as set forth in the agreement for cooperation will be maintained with respect to all nuclear materials and equipment transferred pursuant thereto, and with respect to all special nuclear material used in or produced through the use of such nuclear materials and equipment, so long as the material or equipment remains under the jurisdiction or control of the cooperating party, irrespective of the duration of other provisions in the agreement or whether the agreement is terminated or suspended for any reason;

(2) in the case of non-nuclear-weapon states, a requirement, as a condition of continued United States nuclear supply under the agreement for cooperation, that IAEA safeguards be maintained with respect to all nuclear materials in all peaceful nuclear activities within the territory of such state, under its jurisdiction, or carried out under its control anywhere;

(3) except in the case of those agreements for cooperation arranged pursuant to section 2121(c) of this title, a guaranty by the cooperating party that no nuclear materials and equipment or sensitive nuclear technology to be transferred pursuant to such agreement, and no special nuclear material produced through the use of any nuclear materials and equipment or sensitive nuclear technology transferred pursuant to such agreement, will be used for any nuclear explosive device, or for research on or development of any nuclear explosive device, or for any other military purpose;

(4) except in the case of those agreements for cooperation arranged pursuant to section 2121(c) of this title and agreements for cooperation with nuclear-weapon states, a stipulation that the United States shall have the right to require the return of any nuclear materials and equipment transferred pursuant thereto and any special nuclear material produced through the use thereof if the cooperating party detonates a nuclear explosive device or terminates or abrogates an agreement providing for IAEA safeguards;

The President may exempt a proposed agreement for cooperation (except an agreement arranged pursuant to section 2121(c), 2164(b), or 2164(c) of this title) from any of the requirements of the foregoing sentence if he determines that inclusion of any such requirement would be seriously prejudicial to the achievement of United States non-proliferation objectives or otherwise jeopardize the common defense and security. Except in the case of those agreements for cooperation arranged pursuant to section 2121(c), 2164(b), or 2164(c) of this title, any proposed agreement for cooperation shall be negotiated by the Secretary of State, with the technical assistance and concurrence of the Secretary of Energy and in consultation with the Director of the Arms Control and Disarmament Agency ("the Director"); and after consultation with the Commission shall be submitted to the President jointly by the Secretary of State and the Secretary of Energy accompanied by the views and recommendations of the Secretary of State, the Secretary of Energy, the Nuclear Regulatory Commission, and the Director, who shall also provide to the President an unclassified Nuclear Proliferation Assessment Statement regarding the adequacy of the safeguards and other control mechanisms and the peaceful use assurances contained in the agreement for cooperation to ensure that any assistance furnished thereunder will not be used to further any military or nuclear explosive purpose. In the case of those agreements for cooperation arranged pursuant to section 2121(c), 2164(b), or 2164(c) of this title, any proposed agreement for cooperation shall be submitted to the President by the Secretary of Energy or, in the case of those agreements for cooperation arranged pursuant to section 2121(c) or 2164(b) of this title which are to be implemented by the Department of Defense, by the Secretary of Defense;

(b) Presidential approval and authorization for execution of proposed agreements for cooperation

the President has approved and authorized the execution of the proposed agreement for cooperation and has made a determination in writing that the performance of the proposed agreement will promote, and will not constitute an unreasonable risk to, the common defense and security;

(c) Submittal of proposed agreements for cooperation to Congressional Committees

the proposed agreement for cooperation (if not an agreement subject to subsection (d) of this section), together with the approval and determination of the President, has been submitted to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate for a period of thirty days of continuous session (as defined in section 2159(g) of this title): *Provided, however,* That these committees, after having received such agreement for cooperation, may by resolution in writing waive the conditions of all or any portion of such thirty-day period; and

(d) Congressional action

the proposed agreement for cooperation (if arranged pursuant to section 2121(c), 2164(b), or 2164(c) of this title, or if entailing implementation of section 2073, 2074(a), 2133, or 2134 of this title in relation to a reactor that may be capable of producing more than five thermal megawatts or special nuclear material for use in connection therewith) has been submitted to the Congress, together with the approval and determination of the President, for a period of sixty days of continuous session (as defined in section 2159(g) of this title) and referred to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate, and in addition, in the case of a proposed agreement for cooperation arranged pursuant to section 2121(c), 2164(b), or 2164(c) of this title, the Committee on Armed Services of the House of Representatives and the Committee on Armed Services of the Senate, but such proposed agreement for cooperation shall not become effective if during such sixty-day period the Congress adopts a concurrent resolution stating in substance that the Congress does not favor the proposed agreement for cooperation: *Provided,* That the sixty-day period shall not begin until a Nuclear Proliferation Assessment Statement prepared by the Director of the Arms Control and Disarmament Agency, when required by subsection (a) of this section, has been submitted to the Congress. Any such proposed agreement for cooperation shall be considered pursuant to the procedures set forth in section 2159 of this title for the consideration of Presidential submissions.

Following submission of a proposed agreement for cooperation (except an agreement for cooperation arranged pursuant to section 2121(c), 2164(b), or 2164(c) of this title) to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate, the Nuclear Regulatory Commission, the Department of State, the Department of Energy, the Arms Control and Disarmament Agency, and the Department of Defense shall, upon the request of either of those committees, promptly furnish to those committees their views as to whether the safeguards and other controls contained therein provide an adequate framework to ensure that any exports as contemplated by such agreement will not be inimical to or constitute an unreasonable risk to the common defense and security.

If, after March 10, 1978, the Congress fails to disapprove a proposed agreement for cooperation which exempts the recipient nation from the requirement set forth in subsection (a)(2) of this section, such failure to act shall constitute a failure to adopt a resolution of disapproval pursuant to section 2157(b)(3) of this title for purposes of the Commission's consideration of applications and requests under section 2155(a)(2) of this title and there shall be no congressional review pursuant to section 2157 of this title of any subsequent license or authorization with respect to that state until the first such license or authorization which is issued after twelve months from the elapse of the sixty-day period in which the agreement for cooperation in question is reviewed by the Congress.

(As amended Mar. 10, 1978, Pub. L. 95-242, title IV, § 401, 92 Stat. 142; H. Res. 89, Feb. 5, 1979.)

Amendments

1978—Subsec. (a). Pub. L. 95-242 amended and carried forward into pars. (3), (5), and (6) the existing provisions relating to the terms and conditions required for inclusion in all new agreements for cooperation, added new terms and conditions set out in pars. (1), (2), (4), (7), (8), and (9), added provisions empowering the President to exempt proposed agreements from any of the requirements if he determines that inclusion of the requirement would be seriously prejudicial to the achievement of United States nonproliferation objectives or jeopardize the common defense and security for any other reason, provided for Congressional rejection of any such Presidential exemption, and provided that agreements be negotiated by the Department of State, with an exception for defense related agreements.

Subsec. (b). Pub. L. 95-242 re-enacted existing provisions with only minor changes in punctuation.

Subsec. (c). Pub. L. 95-242 inserted "(if not an agreement subject to subsection (d) of this section)" following "the proposed agreement for cooperation", substituted "submitted to the Committee on International Relations of the House of Representatives and the Committee on Foreign Relations for a period of thirty days of continuous session (as defined in section 2159(g) of this title)" for "submitted to the Joint Committee and a period of thirty days has elapsed while Congress is in session (in computing such thirty days, there shall be excluded the days on which either House is not in session because of the adjournment of more than three days)", and substituted reference to "these committees" for reference to "the Joint Committee" in the proviso.

Subsec. (d). Pub. L. 95-242 provided that proposed agreements be laid before the Committees on International Relations and Foreign Relations rather than the Joint Committee on Atomic Energy and that for major agreements the Nuclear Proliferation Assessment Statement, if any, prepared in conjunction with the President's review of the proposed agreement, also be submitted to the committees, and added unlettered paragraphs following subsec. (d) relating to the submission of agency views to Congressional committees and the failure of the Congress to act on agreements which exempt the recipient nation from the requirements of subsec. (a)(2).

§ 2153b. Export policies relating to peaceful nuclear activities and international nuclear trade

The President shall take immediate and vigorous steps to seek agreement from all nations and groups of nations to commit themselves to adhere to the following export policies with respect to their peaceful nuclear activities and their participation in international nuclear trade:

(a) Undertakings by transferee nations receiving nuclear material and equipment or sensitive nuclear technology

No nuclear materials and equipment and no sensitive nuclear technology within the territory of any nation or group of nations, under its jurisdiction, or under its control anywhere will be transferred to the jurisdiction of any other nation or group of nations unless the nation or group of nations receiving such transfer commits itself to strict undertakings including, but not limited to, provisions sufficient to ensure that—

(1) no nuclear materials and equipment and no nuclear technology in, under the jurisdiction of, or under the control of any non-nuclear-weapon state, shall be used for nuclear explosive devices for any purpose or for research on or development of nuclear explosive devices for any purpose, except as permitted by Article V, the Treaty;

(2) IAEA safeguards will be applied to all peaceful nuclear activities in, under the jurisdiction of, or under the control of any non-nuclear-weapon state;

(3) adequate physical security measures will be established and maintained by any nation or group of nations on all of its nuclear activities;

(4) no nuclear materials and equipment and no nuclear technology intended for peaceful purposes in, under the jurisdiction of, or under the control of any nation or group of nations shall be transferred to the jurisdiction of any other nation or group of nations which does not agree to stringent undertakings meeting the objectives of this section; and

(5) no nation or group of nations will assist, encourage, or induce any non-nuclear-weapon state to manufacture or otherwise acquire any nuclear explosive device.

(b) Enrichment of source or special nuclear material only under effective international auspices and inspection

(1) No source or special nuclear material within the territory of any nation or group of nations, under its jurisdiction, or under its control anywhere will be enriched (as described in section 2014(aa)(2) of this title) or reprocessed, no irradiated fuel elements containing such material which are to be removed from a reactor will be altered in form or content, and no fabrication or stockpiling involving plutonium, uranium 233, or uranium enriched to greater than 20 percent in the isotope 235 shall be performed except in a facility under effective international auspices and inspection, and any such irradiated fuel elements shall be transferred to such a facility as soon as practicable after removal from a reactor consistent with safety requirements. Such facilities shall be limited in number to the greatest extent feasible and shall be carefully sited and managed so as to minimize the proliferation and environmental risks associated with such facilities. In addition, there shall be conditions to limit the access of non-nuclear-weapon states other than the host country to sensitive nuclear technology associated with such facilities.

(2) Any facilities within the territory of any nation or group of nations, under its jurisdiction, or under its control anywhere for the necessary short-term storage of fuel elements containing plutonium, uranium 233, or uranium enriched to greater than 20 percent in the isotope 235 prior to placement in a reactor or of irradiated fuel elements prior to transfer as required in subparagraph (1) shall be placed under effective international auspices and inspection.

(c) Establishment of physical security measures

Adequate physical security measures will be established and maintained with respect to all nuclear activities within the territory of each nation and group of nations, under its jurisdiction, or under its control anywhere, and with respect to any international shipment of significant quantities of source or special nuclear material or irradiated source or special nuclear material, which shall also be conducted under international safeguards.

(d) United States military activities

Nothing in this section shall be interpreted to require international control or supervision of any United States military activities.

§ 2153c. Renegotiation of agreements for cooperation

(a) Application to existing agreements of undertakings required of new agreements after March 10, 1978

The President shall initiate a program immediately to renegotiate agreements for cooperation in effect on March 10, 1978, or otherwise to obtain the agreement of parties to such agreements for cooperation to the undertakings that would be required for new agreements under this chapter. To the extent that an agreement for cooperation in effect on March 10, 1978, with a cooperating party contains provisions equivalent to any or all of the criteria set forth in section 2156 of this title with respect to materials and equipment transferred pursuant thereto or with respect to any special nuclear material used in or produced through the use of any such material or equipment, any renegotiated agreement with that cooperating party shall continue to contain an equivalent provision with respect to such transferred materials and equipment and such special nuclear material. To the extent that an agreement for cooperation in effect on March 10, 1978, with a cooperating party does not contain provisions with respect to any nuclear materials and equipment which have previously been transferred under an agreement for cooperation with the United States and which are under the jurisdiction or control of the cooperating party and with respect to any special nuclear material which is used in or produced through the use thereof and which is under the jurisdiction or control of the cooperating party, which are equivalent to any or all of those required for new and amended agreements for cooperation under section 2153(a) of this title, the President shall vigorously seek to obtain the application of such provisions with respect to such nuclear materials and equipment and such special nuclear material. Nothing in this Act or in this chapter shall be deemed to relinquish any rights which the United States may have under any agreement for cooperation in force on March 10, 1978.

(b) Presidential review of export agreement conditions and policy goals

The President shall annually review each of requirements (1) through (9) set forth for inclusion in agreements for cooperation under section 2153(a) of this title and the export policy goals set forth in section 2153b of this title to determine whether it is in the interest of United States non-proliferation objectives for any such requirements or export policies which are not already being applied as export criteria to be enacted as additional export criteria.

(c) Presidential proposals for additional export criteria

If the President proposes enactment of any such requirements or export policies as additional export criteria or to take any other action with respect to such requirements or export policy goals for the purpose of encouraging adherence by nations and groups of nations to such requirements and policies, he shall submit such a proposal together with an explanation thereof to the Congress.

(d) Congressional action

If the Committee on Foreign Relations of the Senate or the Committee on Foreign Affairs of the House of Representatives, after reviewing the President's annual report or any proposed legislation, determines that it is in the interest of United States non-proliferation objectives to take any action with respect to such requirements or export policy goals, it shall report a joint resolution to implement such determination. Any joint resolution so reported shall be considered in the Senate and the House of Representatives, respectively, under applicable procedures provided for the consideration of resolutions pursuant to section 2159(b) through (g) of this title.

§ 2154. International atomic pool

Section Referred to in Other Sections

This section is referred to in sections 2074, 2155 of this title.

§ 2155. Export licensing procedures

(a) Executive branch judgment on export applications; criteria governing United States nuclear exports

No license may be issued by the Nuclear Regulatory Commission (the "Commission") for the export of any production or utilization facility, or any source material or special nuclear material, including distributions of any material by the Department of Energy under sections 2074, 2094, or 2112 of this title, for which a license is required or requested, and no exemption from any requirement for such an export license may be granted by the Commission, as the case may be, until—

(1) the Commission has been notified by the Secretary of State that it is the judgment of the executive branch that the proposed export or exemption will not be inimical to the common defense and security, or that any export in the category to which the proposed export belongs would not be inimical to the common defense and security because it lacks significance for nuclear explosive purposes. The Secretary of State shall, within ninety days after March 10, 1978, establish orderly and expeditious procedures, including provision for necessary administrative actions and inter-agency memoranda of understanding, which are mutually agreeable to the Secretaries of Energy, Defense, and Commerce, the Director of the Arms Control and Disarmament Agency, and the Nuclear Regulatory Commission for the preparation of the execu-

tive branch judgment on export applications under this section. Such procedures shall include, at a minimum, explicit direction on the handling of such applications, express deadlines for the solicitation and collection of the views of the consulted agencies (with identified officials responsible for meeting such deadlines), an inter-agency coordinating authority to monitor the processing of such applications, predetermined procedures for the expeditious handling of intra-agency and inter-agency disagreements and appeals to higher authorities, frequent meetings of inter-agency administrative coordinators to review the status of all pending applications, and similar administrative mechanisms. To the extent practicable, an applicant should be advised of all the information required of the applicant for the entire process for every agency's needs at the beginning of the process. Potentially controversial applications should be identified as quickly as possible so that any required policy decisions or diplomatic consultations con[1] be initiated in a timely manner. An immediate effort should be undertaken to establish quickly any necessary standards and criteria, including the nature of any required assurances or evidentiary showings, for the decisions required under this section. The processing of any export application proposed and filed as of March 10, 1978, shall not be delayed pending the development and establishment of procedures to implement the requirements of this section. The executive branch judgment shall be completed in not more than sixty days from receipt of the application or request, unless the Secretary of State in his discretion specifically authorizes additional time for consideration of the application or request because it is in the national interest to allow such additional time. The Secretary shall notify the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives of any such authorization. In submitting any such judgment, the Secretary of State shall specifically address the extent to which the export criteria then in effect are met and the extent to which the cooperating party has adhered to the provisions of the applicable agreement for cooperation. In the event he considers it warranted, the Secretary may also address the following additional factors, among others:

(A) whether issuing the license or granting the exemption will materially advance the non-proliferation policy of the United States by encouraging the recipient nation to adhere to the Treaty, or to participate in the undertakings contemplated by section 2153b or 2153c(a) of this title;

(B) whether failure to issue the license or grant the exemption would otherwise be seriously prejudicial to the non-proliferation objectives of the United States; and

(C) whether the recipient nation or group of nations has agreed that conditions substantially identical to the export criteria set forth in section 2156 of this title will be applied by another nuclear supplier nation or group of nations to the proposed United States export, and whether in the Secretary's judgment those conditions will be implemented in a manner acceptable to the United States.

The Secretary of State shall provide appropriate data and recommendations, subject to requests for additional data and recommendations, as required by the Commission or the Secretary of Energy, as the case may be; and

(2) the Commission finds, based on a reasonable judgment of the assurances provided and other information available to the Federal Government, including the Commission, that the criteria in section 2156 of this title or their equivalent, and any other applicable statutory requirements, are met: *Provided*, That continued cooperation under an agreement for cooperation as authorized in accordance with section 2154 of this title shall not be prevented by failure to meet the provisions of paragraph (4) or (5) of section 2156 of this title for a period of thirty days after March 10, 1978, and for a period of twenty-three months thereafter if the Secretary of State notifies the Commission that the nation or group of nations bound by the relevant agreement has agreed to negotiations as called for in section 2153c(a) of this title; however, nothing in this subsection shall be deemed to relinquish any rights which the United States may have under agreements for cooperation in force on March 10, 1978: *Provided further*, That if, upon the expiration of such twenty-four month period, the President determines that failure to continue cooperation with any group of nations which has been exempted pursuant to the above proviso from the provisions of paragraph (4) or (5) of section 2156 of this title, but which has not yet agreed to comply with those provisions would be seriously prejudicial to the achievement of United States non-proliferation objectives or otherwise jeopardize the common defense and security, he may, after notifying the Congress of his determination, extend by Executive order the duration of the above proviso for a period of twelve months, and may further extend the duration of such proviso by one year increments annually thereafter if he again makes such determination and so notifies the Congress. In the event that the Committee on Foreign Affairs of the House of Representatives or the Committee on Foreign Relations of the Senate reports a joint resolution to take any action with respect to any such extension, such joint resolution will be considered in the House or Senate, as the case may be, under procedures identical to those provided for the consideration of resolutions pursuant to section 2159 of this title: *And additionally provided*, That the Commission is authorized to (A) make a single finding under this subsection for more than a single application or request, where the applications or requests involve exports to the same country, in the same general time frame, of similar significance for nuclear explosive purposes and

under reasonably similar circumstances and (B) make a finding under this subsection that there is no material changed circumstance associated with a new application or request from those existing at the time of the last application or request for an export to the same country, where the prior application or request was approved by the Commission using all applicable procedures of this section, and such finding of no material changed circumstance shall be deemed to satisfy the requirement of this paragraph for findings of the Commission. The decision not to make any such finding in lieu of the findings which would otherwise be required to be made under this paragraph shall not be subject to judicial review: *And provided further,* That nothing contained in this section is intended to require the Commission independently to conduct or prohibit the Commission from independently conducting country or site specific visitations in the Commission's consideration of the application of IAEA safeguards.

(b) Requests to be given timely consideration; Presidential review if Commission is unable to make required statutory determinations; Commission review

(1) Timely consideration shall be given by the Commission to requests for export licenses and exemptions and such requests shall be granted upon a determination that all applicable statutory requirements have been met.

(2) If, after receiving the executive branch judgment that the issuance of a proposed export license will not be inimical to the common defense and security, the Commission does not issue the proposed license on a timely basis because it is unable to make the statutory determinations required under this chapter, the Commission shall publicly issue its decision to that effect, and shall submit the license application to the President. The Commission's decision shall include an explanation of the basis for the decision and any dissenting or separate views. If, after receiving the proposed license application and reviewing the Commission's decision, the President determines that withholding the proposed export would be seriously prejudicial to the achievement of United States non-proliferation objectives, or would otherwise jeopardize the common defense and security, the proposed export may be authorized by Executive order: *Provided,* That prior to any such export, the President shall submit the Executive order, together with his explanation of why, in light of the Commission's decision, the export should nonetheless be made, to the Congress for a period of sixty days of continuous session (as defined in section 2159(g) of this title) and shall be referred to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate, but any such proposed export shall not occur if during such sixty-day period the Congress adopts a concurrent resolution stating in substance that it does not favor the proposed export. Any such Executive order shall be considered pursuant to the procedures set forth in section 2159 of this title for the consideration of Presidential submissions: *And provided further,* That the procedures established pursuant to subsection (a) of section 2155a of this title shall provide that the Commission shall immediately initiate review of any application for a license under this section and to the maximum extent feasible shall expeditiously process the application concurrently with the executive branch review, while awaiting the final executive branch judgment. In initiating its review, the Commission may identify a set of concerns and requests for information associated with the projected issuance of such license and shall transmit such concerns and requests to the executive branch which shall address such concerns and requests in its written communications with the Commission. Such procedures shall also provide that if the Commission has not completed action on the application within sixty days after the receipt of an executive branch judgment that the proposed export or exemption is not inimical to the common defense and security or that any export in the category to which the proposed export belongs would not be inimical to the common defense and security because it lacks significance for nuclear explosive purposes, the Commission shall inform the applicant in writing of the reason for delay and provide follow-up reports as appropriate. If the Commission has not completed action by the end of an additional sixty days (a total of one hundred and twenty days from receipt of the executive branch judgment), the President may authorize the proposed export by Executive order, upon a finding that further delay would be excessive and upon making the findings required for such Presidential authorizations under this subsection, and subject to the Congressional review procedures set forth herein. However, if the Commission has commenced procedures for public participation regarding the proposed export under regulations promulgated pursuant to subsection (a) of section 2155a of this title, or—within sixty days after receipt of the executive branch judgment on the proposed export—the Commission has identified and transmitted to the executive branch a set of additional concerns or requests for information, the President may not authorize the proposed export until sixty days after public proceedings are completed or sixty days after a full executive branch response to the Commission's additional concerns or requests has been made consistent with subsection (a)(1) of this section: *Provided further,* That nothing in this section shall affect the right of the Commission to obtain data and recommendations from the Secretary of State at any time as provided in subsection (a)(1) of this section.

(c) Additional export criteria

In the event that the House of Representatives or the Senate passes a joint resolution which would adopt one or more additional export criteria, or would modify any existing export criteria under this chapter, any such joint resolution shall be referred in the other House to the Committee on Foreign Relations of the Senate or the Committee on Foreign Affairs of the House of Representatives, as the case may be, and shall be considered by the other House under applicable procedures provided for the consideration of resolutions pursuant to section 2159 of this title.

§ 2156. Criteria governing United States nuclear exports

The United States adopts the following criteria which, in addition to other requirements of law, will govern exports for peaceful nuclear uses from the United States of source material, special nuclear material, production or utilization facilities, and any sensitive nuclear technology:

(1) IAEA safeguards as required by Article III(2) of the Treaty will be applied with respect to any such material or facilities proposed to be exported, to any such material or facilities previously exported and subject to the applicable agreement for cooperation, and to any special nuclear material used in or produced through the use thereof.

(2) No such material, facilities, or sensitive nuclear technology proposed to be exported or previously exported and subject to the applicable agreement for cooperation, and no special nuclear material produced through the use of such materials, facilities, or sensitive nuclear technology, will be used for any nuclear explosive device or for research on or development of any nuclear explosive device.

(3) Adequate physical security measures will be maintained with respect to such material or facilities proposed to be exported and to any special nuclear material used in or produced through the use thereof. Following the effective date of any regulations promulgated by the Commission pursuant to section 2156a of this title, physical security measures shall be deemed adequate if such measures provide a level of protection equivalent to that required by the applicable regulations.

(4) No such materials, facilities, or sensitive nuclear technology proposed to be exported, and no special nuclear material produced through the use of such material, will be retransferred to the jurisdiction of any other nation or group of nations unless the prior approval of the United States is obtained for such retransfer. In addition to other requirements of law, the United States may approve such retransfer only if the nation or group of nations designated to receive such retransfer agrees that it shall be subject to the conditions required by this section.

(5) No such material proposed to be exported and no special nuclear material produced through the use of such material will be reprocessed, and no irradiated fuel elements containing such material removed from a reactor shall be altered in form or content, unless the prior approval of the United States is obtained for such reprocessing or alteration.

(6) No such sensitive nuclear technology shall be exported unless the foregoing conditions shall be applied to any nuclear material or equipment which is produced or constructed under the jurisdiction of the recipient nation or group of nations by or through the use of any such exported sensitive nuclear technology.

PERFORMANCE OF FUNCTIONS PENDING DEVELOPMENT OF PROCEDURES

The performance of functions under the Nuclear Non-Proliferation Act of 1978, Pub. L. 95-242, Mar. 10, 1978, 92 Stat. 120, not to be delayed pending development of procedures even though as many as 120 days [after Mar. 10, 1978] are allowed for establishing those procedures, see section 5(b) of Ex. SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 2156 of this title.

§ 2157. Additional export criterion and procedures

(a)(1) As a condition of continued United States export of source material, special nuclear material, production or utilization facilities, and any sensitive nuclear technology to non-nuclear-weapon states, no such export shall be made unless IAEA safeguards are maintained with respect to all peaceful nuclear activities in, under the jurisdiction of, or carried out under the control of such state at the time of the export.

(2) The President shall seek to achieve adherence to the foregoing criterion by recipient non-nuclear-weapon states.

(b) The criterion set forth in subsection (a) of this section shall be applied as an export criterion with respect to any application for the export of materials, facilities, or technology specified in subsection (a) of this section which is filed after eighteen months from March 10, 1978, or for any such application under which the first export would occur at least twenty-four months after March 10, 1978, except as provided in the following paragraphs:

(1) If the Commission or the Department of Energy, as the case may be, is notified that the President has determined that failure to approve an export to which this subsection applies because such criterion has not yet been met would be seriously prejudicial to the achievement of United States non-proliferation objectives or otherwise jeopardize the common defense and security, the license or authorization may be issued subject to other applicable requirements of the law: *Provided*, That no such export of any production or utilization facility or of any source or special nuclear material (intended for use as fuel in any production or utilization facility) which has been licensed or authorized pursuant to this subsection shall be made to any non-nuclear-weapon state which has failed to meet such criterion until the first such license or authorization with respect to such state is submitted to the Congress (together with a detailed assessment of the reasons underlying the President's determination, the judgment of the executive branch required under section 2155 of this title, and any Commission opinion and views) for a period of sixty days of continuous session (as defined in section 2159(g) of this title) and referred to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate, but such export shall not occur if during such sixty-day period the Congress adopts a concurrent resolution stating in substance that the Congress does not favor the proposed export. Any such license or authorization shall be considered pursuant to the procedures set forth in section 2159 of this title for the consideration of Presidential submissions.

(2) If the Congress adopts a resolution of disapproval pursuant to paragraph (1), no further export of materials, facilities, or technology specified in subsection (a) of this section shall be permitted for the remainder of that Congress, unless such state meets the criterion or the President notifies the Congress that he has determined that significant progress has been made in achieving adherence to such criterion by such state or that United States foreign policy interests dictate reconsideration and the Congress, pursuant to the procedure of paragraph (1), does not adopt a concurrent resolution stating in substance that it disagrees with the President's determination.

(3) If the Congress does not adopt a resolution of disapproval with respect to a license or authorization submitted pursuant to paragraph (1), the criterion set forth in subsection (a) of this section shall not be applied as an export criterion with respect to exports of materials, facilities and technology specified in subsection (a) of this section to that state: *Provided*, That the first license or authorization with respect to that state which is issued pursuant to this paragraph after twelve months from the elapse of the sixty-day period specified in paragraph (1), and the first such license or authorization which is issued after each twelve-month period thereafter, shall be submitted to the Congress for review pursuant to the procedures specified in paragraph (1): *Provided further*, That if the Congress adopts a resolution of disapproval during any review period provided for by this paragraph, the provisions of paragraph (2) shall apply with respect to further exports to such state.

(Aug. 1, 1946, ch. 724, § 128, as added Mar. 10, 1978, Pub. L. 95-242, title III, § 306, 92 Stat. 137, and amended H. Res. 89, Feb. 5, 1979.)

§ 2158. Conduct resulting in termination of nuclear exports

No nuclear materials and equipment or sensitive nuclear technology shall be exported to—

(1) any non-nuclear-weapon state that is found by the President to have, at any time after March 10, 1978,

(A) detonated a nuclear explosive device; or

(B) terminated or abrogated IAEA safeguards; or

(C) materially violated an IAEA safeguards agreement; or

(D) engaged in activities involving source or special nuclear material and having direct significance for the manufacture or acquisition of nuclear explosive devices, and has failed to take steps which, in the President's judgment, represent sufficient progress toward terminating such activities; or

(2) any nation or group of nations that is found by the President to have, at any time after March 10, 1978,

(A) materially violated an agreement for cooperation with the United States, or, with respect to material or equipment not supplied under an agreement for cooperation, materially violated the terms under which such material or equipment was supplied or the terms of any commitments obtained with respect thereto pursuant to section 2153a(a) of this title;

(B) assisted, encouraged, or induced any non-nuclear-weapon state to engage in activities involving source or special nuclear material and having direct significance for the manufacture or acquisition of nuclear explosive devices, and has failed to take steps which, in the President's judgment, represent sufficient progress toward terminating such assistance, encouragement, or inducement; or

(C) entered into an agreement after March 10, 1978, for the transfer of reprocessing equipment, materials, or technology to the sovereign control of a non-nuclear-weapon state except in connection with an international fuel cycle evaluation in which the United States is a participant or pursuant to a subsequent international agreement or understanding to which the United States subscribes;

unless the President determines that cessation of such exports would be seriously prejudicial to the achievement of United States non-proliferation objectives or otherwise jeopardize the common defense and security: *Provided*, That prior to the effective date of any such determination, the President's determination, together with a report containing the reasons for his determination, shall be submitted to the Congress and referred to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate for a period of sixty days of continuous session (as defined in section 2159(g) of this title), but any such determination shall not become effective if during such sixty-day period the Congress adopts a concurrent resolution stating in substance that it does not favor the determination. Any such determination shall be considered pursuant to the procedures set forth in section 2159 of this title for the consideration of Presidential submissions.

PERFORMANCE OF FUNCTIONS PENDING DEVELOPMENT OF PROCEDURES

The performance of functions under this chapter, as amended by the Nuclear Non-Proliferation Act of 1978, Pub. L. 95-242, Mar. 10, 1978, 92 Stat. 120, not to be delayed pending development of procedures even though as many as 120 days [after Mar. 10, 1978] are allowed for establishing those procedures, see section 5(b) of Ex. Ord. No. 12058, May 11, 1978, 43 F.R. 20947, set out under section 3201 of Title 22, Foreign Relations and Intercourse.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 2159 of this title.

§ 2159. Congressional review procedures

(a) Committee consideration of Presidential submissions; reports

Not later than forty-five days of continuous session of Congress after the date of transmittal to the Congress of any submission of the President required by section 2153(d), 2155(a)(2), 2155(b)(2), 2157(b), 2158, 2160(a)(3), or 2160(f)(1)(A) of this title, the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives, and in addition, in the case of a proposed agreement for cooperation arranged pursuant to section 2121(c), 2164(b), or 2164(c) of this title, the Committee on Armed Services of the House of Representatives and the Committee on Armed Services of the Senate, shall each submit a report to its respective House on its views and recommendations respecting such Presidential submission together with a resolution, as defined in subsection (f) of this section, stating in substance that the Congress approves or disapproves such submission, as the case may be: *Provided*, That if any such committee has not reported such a resolution at the end of such forty-five day period, such committee shall be deemed to be discharged from further consideration of such submission and if, in the case of a proposed agreement for cooperation arranged pursuant to section 2121(c), 2164(b), or 2164(c) of this title, the other relevant committee of that House has reported such a resolution, such committee shall be deemed discharged from further consideration of that resolution. If no such resolution has been reported at the end of such period, the first resolution, as defined in subsection (f) of this section, which is introduced within five days thereafter within such House shall be placed on the appropriate calendar of such House.

(b) Consideration of resolution by respective Houses of Congress

When the relevant committee or committees have reported such a resolution (or have been discharged from further consideration of such a resolution pursuant to subsection (a) of this section) or when a resolution has been introduced and placed on the appropriate calendar pursuant to subsection (a) of this section, as the case may be, it is at any time thereafter in order (even though a previous motion to the same effect has been disagreed to) for any Member of the respective House to move to proceed to the consideration of the resolution. The motion is highly privileged and is not debatable. The motion shall not be subject to amendment, or to a motion to postpone, or to a motion to proceed to the consideration of other business. A motion to reconsider the vote by which the motion is agreed to or disagreed to shall not be in order. If a motion to proceed to the consideration of the resolution is agreed to, the resolution shall remain the unfinished business of the respective House until disposed of.

(c) Debate

Debate on the resolution, and on all debatable motions and appeals in connection therewith, shall be limited to not more than ten hours, which shall be divided equally between individuals favoring and individuals opposing the resolution. A motion further to limit debate is in order and not debatable. An amendment to a motion to postpone, or a motion to recommit the resolution, or a motion to proceed to the consideration of other business is not in order. A motion to reconsider the vote by which the resolution is agreed to or disagreed to shall not be in order. No amendment to any concurrent resolution pursuant to the procedures of this section is in order except as provided in subsection (d) of this section.

(d) Vote on final approval

Immediately following (1) the conclusion of the debate on such concurrent resolution, (2) a single quorum call at the conclusion of debate if requested in accordance with the rules of the appropriate House, and (3) the consideration of an amendment introduced by the Majority Leader or his designee to insert the phrase, "does not" in lieu of the word "does" if the resolution under consideration is a concurrent resolution of approval, the vote on final approval of the resolution shall occur.

(e) Appeals from decisions of the Chair

Appeals from the decisions of the Chair relating to the application of the rules of the Senate or the House of Representatives, as the case may be, to the procedure relating to such a resolution shall be decided without debate.

(f) Resolution

For the purposes of subsections (a) through (e) of this section, the term "resolution" means a concurrent resolution of the Congress, the matter after the resolving clause of which is as follows: "That the Congress (does or does not) favor the   transmitted to the Congress by the President on   ,   ", the blank spaces therein to be appropriately filled, and the affirmative or negative phrase within the parenthetical to be appropriately selected.

(g) Continuity of Congressional sessions; computation of time

For the purposes of this section—

(1) continuity of session is broken only by an adjournment of Congress sine die; and

(2) the days on which either House is not in session because of an adjournment of more than three days to a day certain are excluded in the computation of any period of time in which Congress is in continuous session.

(h) Supersedure or change in rules

This section is enacted by Congress—

(1) as an exercise of the rulemaking power of the Senate and the House of Representatives, respectively, and as such they are deemed a part of the rules of each House, respectively, but applicable only with respect to the procedure to be followed in that House in the case of resolutions described by subsection (f) of this section; and they supersede other rules only to the extent that they are inconsistent therewith; and

(2) with full recognition of the constitutional right of either House to change the rules (so far as relating to the procedure of that House) at any time, in the same manner and to the same extent as in the case of any other rule of that House.

(Aug. 1, 1946, ch. 724, § 130, as added Mar. 10, 1978, Pub. L. 95-242, title III, § 308, 92 Stat. 139, and amended H. Res. 89, Feb. 5, 1979.)

CHANGE OF NAME

The name of the Committee on International Relations of the House of Representatives was changed to Committee on Foreign Affairs on Feb. 5, 1979, by House Resolution 89, 96th Congress.

EFFECTIVE DATE

Section effective Mar. 10, 1978, except as otherwise provided and regardless of any requirements for the promulgation of implementing regulations, see section 603(c) of Pub. L. 95-242, set out as an Effective Date note under section 3201 of Title 22, Foreign Relations and Intercourse.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 2153, 2153c, 2155, 2157, 2158, 2160 of this title.

§ 2160. Subsequent arrangements

(a) Consultation and concurrence; negotiations of a policy nature; notice of proposed subsequent arrangements; Nuclear Proliferation Assessment Statement; reprocessing of material

(1) Prior to entering into any proposed subsequent arrangement under an agreement for cooperation (other than an agreement for cooperation arranged pursuant to section 2121(c), 2164(b), or 2164(c) of this title), the Secretary of Energy shall obtain the concurrence of the Secretary of State and shall consult with the Director, the Commission, and the Secretary of Defense: *Provided*, That the Secretary of State shall have the leading role in any negotiations of a policy nature pertaining to any proposed subsequent arrangement regarding arrangements for the storage or disposition of irradiated fuel elements or approvals for the transfer, for which prior approval is required under an agreement for cooperation, by a recipient of source or special nuclear material, production or utilization facilities, or nuclear technology. Notice of any proposed subsequent arrangement shall be published in the Federal Register, together with the written determination of the Secretary of Energy that such arrangement will not be inimical to the common defense and security, and such proposed subsequent arrangement shall not take effect before fifteen days after publication. Whenever the Director declares that he intends to prepare a Nuclear Proliferation Assessment Statement pursuant to paragraph (2) of this subsection, notice of the proposed subsequent arrangement which is the subject of the Director's declaration shall not be published until after the receipt by the Secretary of Energy of such Statement or the expiration of the time authorized by subsection (c) of this section for the preparation of such Statement, whichever occurs first.

(2) If in the Director's view a proposed subsequent arrangement might significantly contribute to proliferation, he may prepare an unclassified Nuclear Proliferation Assessment Statement with regard to such proposed subsequent arrangement regarding the adequacy of the safeguards and other control mechanisms and the application of the peaceful use assurances of the relevant agreement to ensure that assistance to be furnished pursuant to the subsequent arrangement will not be used to further any military or nuclear explosive purpose. For the purposes of this section, the term "subsequent arrangements" means arrangements entered into by any agency or department of the United States Government with respect to cooperation with any nation or group of nations (but not purely private or domestic arrangements) involving—

(A) contracts for the furnishing of nuclear materials and equipment;

(B) approvals for the transfer, for which prior approval is required under an agreement for cooperation, by a recipient of any source or special nuclear material, production or utilization facility, or nuclear technology;

(C) authorization for the distribution of nuclear materials and equipment pursuant to this chapter which is not subject to the procedures set forth in section 2141(b), section 2155, or section 2139(b) of this title;

(D) arrangements for physical security;

(E) arrangements for the storage or disposition of irradiated fuel elements;

(F) arrangements for the application of safeguards with respect to nuclear materials and equipment; or

(G) any other arrangement which the President finds to be important from the standpoint of preventing proliferation.

(3) The United States will give timely consideration to all requests for prior approval, when required by this chapter, for the reprocessing of material proposed to be exported, previously exported and subject to the applicable agreement for cooperation, or special nuclear material produced through the use of such material or a production or utilization facility transferred pursuant to such agreement for cooperation, or to the altering of irradiated fuel elements containing such material, and additionally, to the maximum extent feasible, will attempt to expedite such consideration when the terms and conditions for such actions are set forth in such agreement for cooperation or in some other international agreement executed by the United States and subject to congressional review procedures comparable to those set forth in section 2153 of this title.

(4) All other statutory requirements under other sections of this chapter for the approval or conduct of any arrangement subject to this subsection shall continue to apply and any other such requirements for prior approval or conditions for entering such arrangements shall also be satisfied before the arrangement takes effect pursuant to paragraph (1).

(b) Reports to Congressional committees; increase in risk of proliferation

With regard to any special nuclear material exported by the United States or produced through the use of any nuclear materials and equipment or sensitive nuclear technology exported by the United States—

(1) The Secretary of Energy may not enter into any subsequent arrangement for the retransfer of any such material to a third country for reprocessing, for the reprocessing of any such material, or for the subsequent retransfer of any plutonium in quantities greater than 500 grams resulting from the reprocessing of any such material, until he has provided the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate with a report containing his reasons for entering into such arrangement and a period of 15 days of continuous session (as defined in section 2159(g) of this title) has elapsed: *Provided, however,* That if in the view of the President an emergency exists due to unforeseen circumstances requiring immediate entry into a subsequent arrangement, such period shall consist of fifteen calendar days;

(2) the Secretary of Energy may not enter into any subsequent arrangement for the reprocessing of any such material in a facility which has not processed power reactor fuel assemblies or been the subject of a subse-

quent arrangement therefor prior to March 10, 1978, or for subsequent retransfer to a non-nuclear-weapon state of any plutonium in quantities greater than 500 grams resulting from such reprocessing, unless in his judgment, and that of the Secretary of State, such reprocessing or retransfer will not result in a significant increase of the risk of proliferation beyond that which exists at the time that approval is requested. Among all the factors in making this judgment, foremost consideration will be given to whether or not the reprocessing or retransfer will take place under conditions that will ensure timely warning to the United States of any diversion well in advance of the time at which the non-nuclear-weapon state could transform the diverted material into a nuclear explosive device; and

(3) the Secretary of Energy shall attempt to ensure, in entering into any subsequent arrangement for the reprocessing of any such material in any facility that has processed power reactor fuel assemblies or been the subject of a subsequent arrangement therefor prior to March 10, 1978, or for the subsequent retransfer to any non-nuclear-weapon state of any plutonium in quantities greater than 500 grams resulting from such reprocessing, that such reprocessing or retransfer shall take place under conditions comparable to those which in his view, and that of the Secretary of State, satisfy the standards set forth in paragraph (2).

(c) Procedures for consideration of requests for subsequent arrangements

The Secretary of Energy shall, within ninety days after March 10, 1978, establish orderly and expeditious procedures, including provision for necessary administrative actions and inter-agency memoranda of understanding, which are mutually agreeable to the Secretaries of State, Defense, and Commerce, the Director of the Arms Control and Disarmament Agency, and the Nuclear Regulatory Commission for the consideration of requests for subsequent arrangements under this section. Such procedures shall include, at a minimum, explicit direction on the handling of such requests, express deadlines for the solicitation and collection of the views of the consulted agencies (with identified officials responsible for meeting such deadlines), an inter-agency coordinating authority to monitor the processing of such requests, predetermined procedures for the expeditious handling of intra-agency and inter-agency disagreements and appeals to higher authorities, frequent meetings of inter-agency administrative coordinators to review the status of all pending requests, and similar administrative mechanisms. To the extent practicable, an applicant should be advised of all the information required of the applicant for the entire process for every agency's needs at the beginning of the process. Potentially controversial requests should be identified as quickly as possible so that any required policy decisions or diplomatic consultations can be initiated in a timely manner. An immediate effort should be undertaken to establish quickly any necessary standards and criteria, including the nature of any required assurance or evidentiary showings, for the decisions required under this section. Further, such procedures shall specify that if he intends to prepare a Nuclear Proliferation Assessment Statement, the Director shall so declare in his response to the Department of Energy. If the Director declares that he intends to prepare such a Statement, he shall do so within sixty days of his receipt of a copy of the proposed subsequent arrangement (during which time the Secretary of Energy may not enter into the subsequent arrangement), unless pursuant to the Director's request, the President waives the sixty-day requirement and notifies the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate of such waiver and the justification therefor. The processing of any subsequent arrangement proposed and filed as of March 10, 1978, shall not be delayed pending the development and establishment of procedures to implement the requirements of this section.

(d) Activities not prohibited, precluded, or limited

Nothing in this section is intended to prohibit, permanently or unconditionally, the reprocessing of spent fuel owned by a foreign nation which fuel has been supplied by the United States, to preclude the United States from full participation in the International Nuclear Fuel Cycle Evaluation provided for in section 3224 of title 22; to in any way limit the presentation or consideration in that evaluation of any nuclear fuel cycle by the United States or any other participation; nor to prejudice open and objective consideration of the results of the evaluation.

(e) Jurisdiction of Secretary of Energy

Notwithstanding section 7172(d) of this title, the Secretary of Energy, and not the Federal Energy Regulatory Commission, shall have sole jurisdiction within the Department of Energy over any matter arising from any function of the Secretary of Energy in this section.

(f) Subsequent arrangements involving direct or indirect commitment of United States for storage or other disposition of foreign spent nuclear fuel in United States

(1) With regard to any subsequent arrangement under subsection (a)(2)(E) of this section (for the storage or disposition of irradiated fuel elements), where such arrangement involves a direct or indirect commitment of the United States for the storage or other disposition, interim or permanent, of any foreign spent nuclear fuel in the United States, the Secretary of Energy may not enter into any such subsequent arrangement, unless:

(A)(i) Such commitment of the United States has been submitted to the Congress for a period of sixty days of continuous session (as defined in section 2159(g) of this title) and has been referred to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate, but any such commitment shall not become effective if during such sixty-day period the Congress adopts a concurrent resolution stating in substance that it does not favor the commitment, any such commitment to be considered pursuant to the procedures set forth in section 2159 of this title for the consideration of Presidential submissions; or (ii) if the President has submitted a detailed generic plan for such disposition or storage in the United States to the Congress for a period of sixty days of continuous session (as defined in section 2159(g) of this title), which plan has been referred to the Committee on Foreign Affairs of the House of Representatives and the Committee on Foreign Relations of the Senate and has not been disapproved during such sixty-day period by the adoption of a concurrent resolution stating in substance that Congress does not favor the plan; and the commitment is subject to the terms of an effective plan. Any such plan shall be considered pursuant to the procedures set forth in section 2159 of this title for the consideration of Presidential submissions;

(B) The Secretary of Energy has complied with subsection (a) of this section; and

(C) The Secretary of Energy has complied, or in the arrangement will comply with all other statutory requirements of this chapter, under sections 2074 and 2075 of this title and any other applicable sections, and any other requirements of law.

§ 2701. Congressional findings and declaration of purpose

Although the economic well-being and prosperity, of the United States have progressed to a level surpassing any achieved in world history, and although these benefits are widely shared throughout the Nation, poverty continues to be the lot of a substantial number of our people. The United States can achieve its full economic and social potential as a nation only if every individual has the opportunity to contribute to the full extent of the capabilities of such individual and to participate in the workings of our society. It is, therefore, the policy of the United States to eliminate the paradox of poverty in the midst of plenty in this Nation by opening to everyone the opportunity for education and training, the opportunity to work, and the opportunity to live in decency and dignity. It is the purpose of this chapter to strengthen, supplement, and coordinate efforts in furtherance of that policy.

It is the sense of the Congress that it is highly desirable to employ the resources of the private sector of the economy of the United States in all such efforts to further the policy of this chapter.

SUBCHAPTER I—RESEARCH AND DEMONSTRATIONS

EX. ORD. NO. 11330. COORDINATION OF YOUTH OPPORTUNITY PROGRAMS

Ex. Ord. No. 11330, Mar. 5, 1967, 32 F.R. 3871 as amended by Ex. Ord. No. 11547, July 10, 1970, 35 F.R. 11221, Ex. Ord. No. 12107, Dec. 28, 1978, 44 F.R. 1055, provided:

The promise and the future strength of the United States is in our youth.

We must meet the needs of youth so that the formative years will equip them for a productive role in society and prepare them for the responsibilities of citizenship.

Many youths, particularly those who live in impoverished areas, need special help in improving their lives and finding a place in the mainstream of our society.

Existing public services for youth need to be strengthened and improved and joined with private resources.

Programs and resources of Federal departments and agencies require coordination in order to provide continuity in planning and carrying out services to meet the needs of youth.

The summer months provide an exceptional opportunity to enhance the sound growth and guidance of youth through education, employment, recreation, and health services.

Now, Therefore, by virtue of the authority vested in me as President of the United States, it is ordered as follows:

Part I—President's Council on Youth Opportunity

Section 101. *"Membership and chairmanship,"* (a) There is hereby established the President's Council on Youth Opportunity (hereinafter referred to as the "Council"). The Council shall be composed of the Vice President, who shall serve as Chairman, the Secretary of State, the Secretary of Defense, the Attorney General, the Postmaster General, the Secretary of the Interior, the Secretary of Agriculture, the Secretary of Commerce, the Secretary of Labor, the Secretary of Health, Education, and Welfare, the Secretary of Housing and Urban Development, the Secretary of Transportation, the Director of the Office of Economic Opportunity; the Director of the Office of Personnel Management, and such other Federal officials as the President may designate. Each of the foregoing may appoint a delegate to represent him in Council affairs.

(b) When matters which affect the interests of Federal agencies not represented on the Council are to be considered by the Council the Chairman shall invite the heads of such agencies to participate in the business of the Council.

Sec. 102. *Functions of the Council.* (a) The Council shall be responsible for (1) assuring effective program planning for summer and other youth programs of the Federal Government, (2) strengthening the coordination of youth programs and activities of Federal departments and agencies, (3) evaluating the over-all effectiveness of Federal youth opportunity programs, (4) encouraging State, local, nonprofit and other private organizations to participate fully in efforts to enhance opportunities for youth, and (5) reporting progress to the President.

(b) The scope of subsection (a) of this section extends to, but is not limited to, (1) programs to maximize meaningful employment for youth in cooperation with employers and agencies of Federal, State, and local governments, and with emphasis on types of employment leading to the acquisition of skills which will increase the employability of participants as members of the labor force; (2) programs to strengthen the educational achievements of youth through such means as preparatory courses conducted through school systems which will encourage youth to continue or resume their education, remedial and tutorial programs conducted in the communities by schools and colleges, and the use of summer and part-time employment as incentives; (3) programs to encourage and stimulate youth to become involved in improving their home neighborhoods; (4) programs designed to identify, diagnose, and treat the illnesses and handicapping conditions of youth who participate in these summer programs; (5) programs arranged through communities and private organizations to stimulate opportunities for youth to participate in cultural, recreational, and athletic activities or competitions; (6) programs utilizing the existing camping and recreational resources in Federal, State, and local parks, forests, and recreation areas, with a view to securing the support and participation of public authorities and private organizations concerned with youth in developing constructive outdoor or work-related opportunities which will benefit disadvantaged urban and rural youth by utilizing such facilities during the summer months; and (7) programs designed to increase opportunities for children of urban slums to spend part of their summers in the wholesome environment of families in other areas through the hospitality of such families and with the support and cooperation of private, nonprofit organizations.

Sec. 103. *Assistance and cooperation.* (a) Upon request of the Chairman, each Federal agency shall, to the extent permitted by law and within available funds, furnish information, data, and reports needed by the Council to accomplish the purposes of this order.

(b) All Federal officials, in carrying out their statutory responsibilities and programs, shall be mindful of the objectives of this order, and shall take into account any advice given by the Council pursuant to this order, and shall take such measures, consistent with their authorities and available funds, as will assist in accomplishing the purposes of this order.

(c) The staff of the Council shall include an Executive Director, who shall be appointed by the Chairman of the Council, and such other employees as may be necessary, who shall be assigned by the various members of the Council.

Part II—Citizens Advisory Board on Youth Opportunity

Sec. 201. *Establishment of Board.* (a) There is hereby established the Citizens Advisory Board on Youth Opportunity (hereinafter referred to as the "Board").

(b) The Board shall be composed of a Chairman and not more than fourteen other members, all of whom shall be appointed by the President. The Chairman shall serve as such until his successor is appointed by the President. Appointments of the other members of the Board shall be governed by the following: (1) The terms of those first appointed hereunder shall expire on July 1, 1969. (2) The immediate successors of the members so appointed shall be appointed, in as nearly equal numbers as may be, for terms of one year, two years, and three years. (3) Thereafter appointments shall be made for terms of three years.

PART A—COMMUNITY ACTION AGENCIES AND PROGRAMS

§ 2790. Designation of community action agencies

[*See main edition for text of* (*a*) *and* (*b*)]

(c) Organizational base, commonality of interests, and population income

For the purpose of this subchapter, a community may be a city, county, multicity, or multicounty unit, an Indian reservation, or a neighborhood or other area (irrespective of boundaries or political subdivisions) which provides a suitable organizational base and possesses the commonality of interest needed for a community action program. The Director, in determining whether a county or multicounty unit is eligible to be served by a community action agency under this subchapter, shall not apply, as the sole criterion for eligibility, any requirement or restriction relating to the number of individuals residing in the county or multicounty unit if at least 20 per centum of the families and unrelated individuals residing in such unit have incomes below the poverty line as determined by the Bureau of Census from the most recent census or survey. No new community action agency may be designated under subsection (a) of this section within a county or multicounty unit if—

(1) such county or multicounty unit has a population of less than 50,000;

(2) such county or multicounty unit was served by an existing community action agency on June 1, 1978; and

(3) the new community action agency would serve a smaller geographical area than that served by an existing community action agency on June 1, 1978.

The Director shall consult with the heads of other Federal agencies responsible for programs relating to work and training programs, physical and economic development, housing, education, health, and other community services to encourage the establishment of coterminous or complementary boundaries for planning purposes among those programs and community action programs assisted under this subchapter.

(d) Designation of substitute community action agency

The Director may designate and provide financial assistance to a public or private nonprofit agency as a community action agency in lieu of a community action agency designated under subsection (a) of this section for activities of the kind described in this subchapter where the Director determines, in accordance with regulations promulgated by the Director (1) that the community action agency serving the community has failed, after having a reasonable opportunity to do so, to submit a satisfactory plan for a community action program which meets the criteria for approval set forth in this subchapter, or to carry out such plan in a satisfactory manner, or (2) that neither the State nor any qualified political subdivision or combination of such subdivisions is willing to be designated as the community action agency for such community or to designate a public or private nonprofit agency or organization to be so designated by the Director.

[*See main edition for text of* (*e*)]

(f) Delegation of functions

The Director, in carrying out the responsibilities of the Director under this part, may delegate such functions (other than policymaking functions and the final approval of grants and contracts) to a State, in accordance with criteria and guidelines established by the Director, as the Director deems appropriate, except that no such delegation shall take place unless all the community action agencies within such State formally indicate their approval of such proposed delegation, except that whenever such delegated functions include the authority to approve programs within such State the Director shall make available to the State, in addition to an amount not less than the amount made available to such State for State agency assistance under section 2824 of this title in the previous fiscal year, an amount in each fiscal year equal to such State's share (as determined by the formula set forth in the third sentence of section 2828(a) of this title) of the aggregate amount made available during the fiscal year ending June 30, 1974, for the operation of regional offices of the Community Services Administration.

(As amended Pub. L. 95-568, §§ 4(a), (b), 17(a)(3), Nov. 2, 1978, 92 Stat. 2425, 2439.)

AMENDMENTS

1978—Subsec. (c). Pub. L. 95-568, § 4(a), provided for population income as a criterion of eligibility for a community action agency to serve a county or multicounty unit and prescribed conditions for designation of a new community action agency.

Subsec. (d). Pub. L. 95-568, §§ 4(b), 17(a)(3)(A), inserted "in accordance with regulations promulgated by the Director" following "determines" and substituted "the Director" for "he" preceding "determines".

Subsec. (f). Pub. L. 95-568, § 17(a)(3)(B), substituted in first sentence "The Director, in carrying out the responsibilities of the Director under this part," for "In carrying out his responsibilities under this part the Director" and "established by the Director, as the Director" for "established by him, as he".

§ 2791. Community action agencies and boards

[*See main edition for text of* (*a*)]

(b) Composition of boards; membership; term of service

Each board to which this subsection applies shall consist of not more than fifty-one, and not less than fifteen, members and shall be so constituted that (1) one-third of the members of the board are elected public officials currently holding office, or their representatives, except that if the number of elected officials reasonably available and willing to serve is less than one-third of the membership of the board, membership on the board of appointive public officials may be counted in meeting such one-third requirement, (2) at least one-third of the members are persons chosen in accordance with democratic selection procedures adequate to assure that they are representative of the poor in the area served, and (3) the remainder of the members are officials or members of business, industry, labor, religious, welfare, education, or other major groups and interests in the community. Each member of the board selected to represent a specific geographic area within a community must reside in the area he represents. No person selected under clause (2) or (3) of this subsection as a member of a board shall serve on such board for more than five consecutive years, or more than a total of ten years.

[*See main edition for text of* (*c*)]

(d) Administrative standards and rules; quorum

(1) The Director shall promulgate such standards or rules relating to the scheduling and notice of meetings, quorums (which shall be not less than 50 per centum of the total membership), procedures, establishment of committees, and similar matters as the Director may deem necessary to assure that boards which are subject to subsection (b) of this section provide a continuing and effective mechanism for securing broad, community involvement in programs assisted under this subchapter and that all groups or elements represented on those boards have a full and fair opportunity to participate in decisions affecting those programs. Such standards or rules shall not preclude any such board from appointing an executive committee or similar group, which fairly reflects the composition of the board, to transact the board's business between its meetings. The quorum requirements for any such committee or group, which shall not be less than 50 percent of the membership, shall be established by the board.

[*See main edition for text of* (*2*); (*e*) *to* (*g*)]

(As amended Pub. L. 95-568, §§ 4(c), 17(a)(4), Nov. 2, 1978, 92 Stat. 2425, 2439.)

AMENDMENTS

1978—Subsec. (b). Pub. L. 95-568, § 4(c), required a community action board to have a minimum of fifteen members and that the one-third board membership of elected public officials be officials "currently holding office".

Subsec. (d)(1). Pub. L. 95-568, § 17(a)(4), substituted "the Director may deem" for "he may deem".

§ 2796. Administrative standards; rules and regulations; review and consultative requirements

[*See main edition for text of* (*a*)]

(b) The Director shall prescribe rules or regulations to supplement subsection (a) of this section, which shall be binding on all agencies carrying on community action program activities with financial assistance under this subchapter. The Director may, where appropriate, establish special or simplified requirements for smaller agencies or agencies operating in rural areas. These special requirements shall not, however, affect the applicability of rules governing conflicts of interest, use of position or authority for partisan or nonpartisan political purposes or participation in direct action, regardless of customary practices or rules among agencies in the community. The Director shall consult with the heads of other Federal agencies responsible for programs providing assistance to activities which may be included in community action programs for the purpose of securing maximum consistency between rules or regulations prescribed or followed by those agencies and those prescribed under this section.

(c) The Director shall annually review, and consult with State economic opportunity offices authorized under section 2824(a) of this title, for the purposes of updating and simplifying, all relevant regulations and guidelines applicable to programs funded under this chapter, except with respect to programs funded under subchapter V and or subchapter X of this chapter.

(As amended Pub. L. 95-568, §§ 4(d), 17(a)(5), Nov. 2, 1978, 92 Stat. 2426, 2439.)

AMENDMENTS

1978—Subsec. (b). Pub. L. 95-568, § 17(a)(5), substituted "The Director" for "He".

Subsec. (c). Pub. L. 95-568, § 4(d), added subsec. (c).

PART B—FINANCIAL ASSISTANCE TO COMMUNITY ACTIONS PROGRAMS AND RELATED ACTIVITIES

§ 2808. General provisions for financial assistance

(a) Component activities

The Director may provide financial assistance to community action agencies for the planning, conduct, administration and evaluation of community action programs and components. Those components may involve, without limitation, other activities and supporting facilities designed to assist participants including the elderly poor—

[*See main edition for text of* (*1*) *to* (*10*)]

The Director may also provide financial assistance to other public or private nonprofit agencies to aid them in planning for the establishment of a community action agency.

(b) Use of agencies outside designated community action agencies

If the Director determines that a limited purpose project or program involving activities otherwise eligible under this section is needed to serve needs of low-income families and individuals in a community and no community action agency has been designated for that community pursuant to section 2790 of this title, or where a community action agency gives its approval for such a program to be funded directly through a public or private nonprofit agency or organization, the Director may extend financial assistance for that project or program to a public or private non-profit agency which the Director finds is capable of carrying out the project in an efficient and effective manner consistent with the purpose of this subchapter.

[*See main edition for text of* (c)]

(d) Systematic planning and implementation processes

After July 1, 1968, the Director shall require, as a condition of assistance, that each community action agency has adopted a systematic approach to the achievement of the purposes of this subchapter and to the utilization of funds provided under this part. Such systematic approach shall encompass a planning and implementation process which seeks to identify the problems and causes of poverty in the community, seeks to mobilize and coordinate relevant public and private resources, establishes program priorities, links program components with one another and with other relevant programs, and provides for evaluation. The Director may, however, extend the time for such requirement to take into account the length of time a program has been in operation. The Director shall also take necessary steps to assure the participation of other Federal agencies in support of the development and implementation of plans under this subsection.

(e) Establishment of binding national priorities prohibited

In order to promote local responsibility and initiative, the Director shall not establish binding national priorities on funds authorized by this section, but the Director shall review each application for financial assistance on its merits. Before extending financial assistance to a new community action agency under this section, and in determining the amount of and conditions on which such assistance shall be extended, the Director shall consider the extent and nature of poverty in the community and the probable capacity of the agency to carry out an effective program. In reviewing or supplementing financial assistance to a previously existing community action agency, the Director shall consider the progress made in carrying on programs by such agency.

(As amended Pub. L. 95-568, § 17(a)(6), Nov. 2, 1978, 92 Stat. 2439.)

AMENDMENTS

1978—Pub. L. 95-568 substituted "The Director" for "He" in last sentence of subsecs. (a) and (d); "the Director" for "he" in subsec. (b) where set out the second and third time; and "the Director" for "he" in subsec. (e) where set out the second time in first sentence and in last sentence.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 2707, 2712, 2809, 2812, 2824, 2905 of this title.

§ 2809. Special programs and assistance

(a) Authority of Director; conditions and criteria

In order to stimulate actions to meet or deal with particularly critical needs or problems of the poor which are common to a number of communities, the Director may develop and carry on special programs under this section. This authority shall be used only where the Director determines that the objectives sought could not be effectively achieved through the use of authorities under section 2808 of this title, including assistance to components or projects based on models developed and promulgated by the Director. It shall also be used only with respect to programs which (A) involve activities which can be incorporated into or be closely coordinated with community action programs, (B) involve significant new combinations of resources of new and innovative approaches, or (C) are structured in a way that will, within the limits of the type of assistance or activities contemplated, most fully and effectively promote the purposes of this subchapter. Subject to such conditions as may be appropriate to assure effective and efficient administration, the Director may provide financial assistance to public or private nonprofit agencies to carry on local projects initiated under such special programs; but the Director shall do so in a manner that will encourage, wherever feasible, the inclusion of the assisted projects in community action programs, with a view to minimizing possible duplication and promoting efficiencies in the use of common facilities and services, better assisting persons or families having a variety of needs, and otherwise securing from the funds committed the greatest possible impact in promoting family and individual self-sufficiency. In no event shall the Director provide financial assistance under this subchapter to a public or private nonprofit agency other than a community action agency in an area in which a community action agency exists without prior notification of such financial assistance to the board of such community action agency and to any State economic opportunity office in the State in which financial assistance is provided. Programs under this section shall include those described in the following paragraphs:

(1) Community Food and Nutrition

A program to be known as "Community Food and Nutrition" designed to provide on an emergency basis, directly or by delegation of authority pursuant to the provisions of subchapter VI of this chapter, financial assistance for the provisions of such supplies and services, nutritional foodstuffs, and related services, as may be necessary to counteract conditions of starvation or malnutrition among the poor. Such assistance may be provided by way of supplement to such other assistance as may be extended under the provisions of other Federal programs, and may be used to extend and broaden such programs to serve economically disadvantaged individuals and families where such services are not now provided and without regard to the requirements of such laws for local or State administration or financial participation. In extending such assistance, the Director may make grants to community action agencies or local public or private nonprofit organizations or agencies to carry out the purposes of this paragraph. The director is authorized to carry out the functions under this paragraph through the Secretary of Agriculture and the Secretary of Health, Education, and Welfare in a manner that will insure the availability of such supplies and services, nutritional foodstuffs, and related services through a community action agency where feasible, or other agencies or organizations if no such agency exists or is able to administer programs to provide such foodstuffs, services, and supplies to needy individuals and families, or through a local public or private nonprofit organization or agency providing services to migrant or seasonal farmworkers or Native Americans.

(2) Senior Opportunities and Services

A program to be known as "Senior Opportunities and Services" designed to identify and meet the needs of older, poor persons above the age of 60 in one or more of the following areas: development and provision of new employment and volunteer services; effective referral to existing health, welfare, employment, housing, legal, consumer, transportation, education, and recreational and other services; stimulation and creation of additional services and programs to remedy gaps and deficiencies in presently existing services and programs; modification of existing procedures, eligibility requirements and program structures to facilitate the greater use of, and participation in, public services by the older poor; development of all-season recreation and service centers controlled by older persons themselves; and such other activities and services as the Director may determine are necessary or specially appropriate to meet the needs of the older poor and to assure them greater self-sufficiency. In administering this program the Director shall utilize to the maximum extent feasible the services of the Administration of Aging in accordance with agreements with the Secretary of Health, Education, and Welfare, and other Federal agencies providing services to the elderly poor. The Director shall seek, to the maximum extent feasible, the utilization of agencies funded under section 2808 of this title for the provision of such services available under titles III [42 U.S.C. 3021 et seq.], V [42 U.S.C. 3056 et seq.], and VII of the Older Americans Act of 1965, or such other Federal programs serving the elderly poor.

(3) Environmental Action

An "Environmental Action" program through which low-income persons will be paid for work (which would not otherwise be performed) on projects designed to combat pollution or to improve the environment. Projects may include, without limitation: cleanup and sanitation activities, including solid waste removal; reclamation and rehabilitation of eroded or ecologically damaged areas, including areas affected by strip mining; conservation and beautification activities, including tree planting and recreation area development; the restoration and maintenance of the environment; and the improvement of the quality of life in urban and rural areas.

(4) Rural Housing Development and Rehabilitation

A program to be known as "Rural Housing Development and Rehabilitation" designed to assist low-income families in rural areas to construct and acquire ownership of adequate housing, to rehabilitate or repair existing substandard units in such areas, and to otherwise assist families in obtaining standard housing. Financial assistance under this paragraph shall be provided to non-profit rural housing development corporations and cooperative or to local public or private nonprofit organizations or agencies providing services to migrant or seasonal farmworkers or Native Americans which serve areas which are defined by the Farmers Home Administration as rural areas, and shall be used for, but not limited to, such purposes as administrative expenses; revolving development funds; nonrevolving land, land development and construction writedowns; rehabilitation or repair of substandard housing; and loans to low-income families. In the construction, rehabilitation, and repair of housing for low-income families under this paragraph, the services of persons enrolled in Mainstream programs and programs under the Comprehensive Employment and Training Act of 1973 [29 U.S.C. 801 et seq.] may be utilized. Loans under this paragraph may be used for, but not limited to, such purposes as the purchase of new housing units, the repair, rehabilitation and purchase of existing units, and to supplement existing Federal loan programs in order that low-income families may benefit from them. The repayment period of such loans shall not exceed thirty-three years. No loans under this paragraph shall bear an interest rate of less than 1 per centum per annum, but if the Director, after having examined the family income of the applicant, the projected housing costs of the applicant, and such other factors as the Director deems appropriate, determines that the applicant would otherwise be unable to participate in this program, the Director may waive the interest in whole or in part and for such periods of time as the Director may establish except that (1) no such waiver may be granted to an applicant whose adjusted family income (as defined by the Farmers Home Administration) is in excess of $3,700 per annum and (2) any applicant for whom such a waiver is provided shall be required to commit at least 20 per centum of the adjusted family income of such applicant toward the mortgage debt service and other housing costs. Family incomes shall be recertified annually, and monthly payments for all loans under this paragraph adjusted accordingly.

(5) Emergency Energy Conservation Services

A program to be known as "Emergency Energy Conservation Services" designed to enable low-income individuals and families, including the elderly and the near poor, to participate in energy conservation programs designed to lessen the impact of the high cost of energy on such individuals and families and to reduce individual and family energy consumption. The Director is authorized to provide financial and other assistance for programs and activities, including, but not limited to, an energy conservation and education program; winterization of old or substandard dwellings, improved space conditioning, and insulation; emergency loans, grants, and revolving funds to install energy conservation technologies and to deal with increased housing expenses relating to the energy crisis; alternative fuel supplies, special fuel voucher or stamp programs; alternative transportation activities designed to save fuel and assure continued access to training, education, and employment; appropriate outreach efforts; furnishing personnel to act as coordinators, providing legal or technical assistance, or otherwise representing the interests of the poor in efforts relating to the energy crisis; nutrition, health, and other supportive services in emergency cases; and evaluation of programs and activities under this paragraph. Such assistance may be provided as a supplement to any other assistance extended under the provisions of this chapter or under other provisions of Federal law. The Director, after consultation with the Administrator of the Federal Energy Office and appropriate Federal departments and agencies, shall establish procedures and take other appropriate action necessary to insure that the effects of the energy crisis on low-income persons, the elderly, and the near poor are taken into account in the formulation and administration of programs relating to the energy crisis. In carrying out programs to lessen the impact of the high cost of energy to migrants, other seasonally employed farmworkers, and Native Americans, the Director shall utilize local public or private nonprofit organizations or agencies where feasible. Eligibility for any of the programs authorized under this section shall not be based solely on delinquency in payment of fuel bills.

(6) Summer Youth Recreation

A program to be known as "Summer Youth Recreation" designed to provide recreational opportunities for low-income children during the summer months. Funds made available for this paragraph shall be allocated by the Director among community action agencies where feasible, or other public or private nonprofit agencies where no such community action agency exists or is able to administer a program, to provide recreational opportunities for low-income children during the summer months.

(7) Demonstration Employment and Training Opportunities

A program to be known as "Demonstration Employment and Training Opportunities" designed to establish experimental employment and training programs and projects for low-income persons who are unemployed or underemployed, with special emphasis on youth, the structurally unemployed (especially those dependent on public assistance), single heads of households with dependent children, older workers, and veterans. The Director may make grants to community action agencies, community economic development corporations (as designated under subchapter VII of this chapter), and public or private nonprofit organizations and agencies for experimental programs and activities including, but not limited to, providing innovative approaches to employment and training programs, which shall, if necessary, make available to participants comprehensive supportive services; developing programs and linkages for low-income persons to achieve satisfactory transition from either unemployment or federally subsidized jobs to employment that is not federally subsidized; and developing training programs, with special consideration for community development corporations, designed to place disadvantaged youth in the private sector. The Director and the Secretary of Labor shall assure a full exchange of information concerning the employment and training programs subject to their respective jurisdictions in order to assure the most effective and responsive demonstration programs and activities. Any employment and training activities assisted in whole or part with funds made available under this paragraph shall be subject to the applicable conditions, labor standards, and benefits set forth in the Comprehensive Employment and Training Act of 1973 [29 U.S.C. 801 et seq.] and other related laws.

§ 2812. Allotment of funds

(a) Limitation on assistance for development and implementation of community action programs

Of the sums which are appropriated or allocated for assistance in the development and implementation of community action programs pursuant to section 2808 of this title, and for special program projects referred to in section 2809(a) of this title, and which are not subject to any other provision governing allotment or distribution, the Director shall allot not more than 2 per centum among Guam, American Samoa, the Trust Territory of the Pacific Islands, and the Virgin Islands, according to their respective needs. The Director shall also reserve not more than 20 per centum of those sums for allotment in accordance with such criteria and procedures as the Director may prescribe. The remainder shall be allotted among the States, in accordance with the latest available data, so that equal proportions are distributed on the basis of (1) the relative number of public assistance recipients in each State as compared to all States, (2) the relative number of unemployed persons in each State as compared to all States, and (3) the relative number of related children living with families with incomes below the poverty line in each State as compared to all States. For purposes of this subsection, the Director shall utilize the criteria of poverty used by the Bureau of the Census in compiling the 1970 decennial census. The Director shall insure that for the fiscal year ending June 30, 1975, and for each succeeding fiscal year, no State shall be allotted for programs under section 2808 and section 2809(a) of this title an amount which is less than the amount received for use within such State for programs described in such sections during the fiscal year ending June 30, 1974. That part of any State's allotment which the Director determines will not be needed may be reallotted, at such dates during the fiscal year as the Director may fix, in proportion to the original allotments, but with appropriate adjustments to assure that any amount so made available to any State in excess of its needs is similarly reallotted among the other States.

(b) Separate allotment of funds; criteria

This allotment may be made in accordance with the criteria prescribed in subsection (a) of this section, or it may be made in accordance with other criteria which the Director determines will assure an equitable distribution of funds reflecting the relative incidence in each State of the needs or problems at which the program is directed, execpt that in no event may more than 12½ per centum of the funds for any one program be used in any one State.

(c) Limitation on assistance to community action agencies or section 2808 or 2809 agencies

Unless otherwise provided in this part, financial assistance extended to a community action agency or other agency pursuant to section 2808 of this title and section 2809(a) of this title shall not exceed 80 per centum of the approved cost of the assisted programs or activities. The Director may, however, approve assistance in excess of such percentages if the Director determines, in accordance with regulations establishing objective criteria, that such action is required in furtherance of the purposes of this subchapter. Non-Federal contributions may be in cash or in kind, fairly evaluated, including but not limited to plant equipment, or services. The Director shall not require non-Federal contributions in excess of the amount required to meet the approved cost of assisted programs or activities after calculating the per centum of Federal assistance for which such program is eligible under the first sentence of this subsection. In addition, the Director may approve assistance in excess of such per centum upon evidence that the aggregate of all non-Federal contributions by agencies within a State for financial assistance provided pursuant to sections 2808 and 2809(a) of this title as a per centum of the aggregate of all financial assistance provided to such agencies in such State pursuant to such sections meets the per centum requirements of this subsection.

(d) Conditions for approval; rules and regulations

No program shall be approved for assistance under sections 2808 and 2809(a) of this title unless the Director is satisfied (1) that the services to be provided under such program will be in addition to, and not in substitution for, services previously provided without Federal assistance, and (2) that funds or other resources devoted to programs designed to meet the needs of the poor within the community will not be diminished in order to provide any contributions required under subsection (c) of this section. The requirement imposed by the preceding sentence shall be subject to such regulations as the Director may adopt and promulgate establishing objective criteria for determinations covering situations where a strict application of that requirement would result in unnecessary hardship or otherwise be inconsistent with the purposes sought to be achieved.

Funds to cover the costs of the proposed contract, agreement, grant, loan, or other assistance shall be obligated from the appropriation which is current at the time the plan is submitted to the Governor. This section shall not, however, apply to contracts, agreements, grants, loans, or other assistance to any institution of higher education in existence on August 20, 1964.

At least once annually the Director shall make or cause to be made an audit of each grant or contract of assistance under this subchapter. Promptly after the completion of such audit, the Director shall determine on the basis of resulting findings and conclusions whether any of the costs of expenditures incurred shall be disallowed. In the event of disallowance, the Director may seek recovery of the sums involved by appropriate means, including court action or a commensurate increase in the required non-Federal share of the costs of any grant or contract with the same agency or organization which is then in effect or which is entered into within twelve months after the date of disallowance.

(d) Other requirements and actions by Director

The Director shall establish such other requirements and take such actions as the Director may deem necessary and appropriate to carry out the provisions of this section and to insure fiscal responsibility and accountability, and the effective and efficient handling of funds in connection with programs assisted under this subchapter. These requirements and actions shall include (1) necessary action to assure that the rate of expenditure of any agency receiving financial assistance does not exceed the rate contemplated under its approved program; and (2) appropriate requirements to promote the continuity and coordination of all projects or components of programs receiving financial assistance under this subchapter, including provision for the periodic reprograming and supplementation of assistance previously provided.

§ 2836. Special limitations

The following special limitations shall apply, as indicated, to programs under this subchapter.

(2) The Director shall issue necessary rules or regulations to assure that no employee engaged in carrying out community action program activities receiving financial assistance under this subchapter is compensated from funds so provided at a rate in excess of $18,000 per annum, and that any amount paid to such an employee at a rate in excess of $18,000 per annum shall not be considered in determining whether the non-Federal contributions requirements of section 2812(c) of this title have been complied with; the Director may, however, provide in those rules or regulations for exceptions covering cases where, because of the need for specialized or professional skills or prevailing local salary levels, application of the foregoing restriction would greatly impair program effectiveness or otherwise be inconsistent with the purposes sought to be achieved.

[*See main edition for text of (3)*]

(4) In granting financial assistance for projects or activities in the field of family planning, the Director shall assure that family planning services, including the dissemination of family planning information and medical assistance and supplies, are made available to all low-income individuals who meet the criteria for eligibility for assistance under this subchapter which have been established by the assisted agency and who desire such information, assistance, or supplies. The Director shall require, in connection with any such financial assistance, that—

(A) no individual will be provided with any information, medical supervision, or supplies which that individual indicates are inconsistent with the moral, philosophical, or religious beliefs of such individual; and

(B) no individual will be provided with any medical supervision or supplies unless such individual has voluntarily requested such medical supervision or supplies.

The use of family planning services assisted under this subchapter shall not be a prerequisite to the receipt of services from or participation in any other programs under this chapter.

[*See main edition for text of (5) and (6)*]

(7) No financial assistance shall be extended under this subchapter in any case in which the Director determines that the costs of developing and administering all of the programs assisted under this subchapter carried on by or under the supervision of any community action agency exceed 15 per centum of the total costs, including non-Federal contributions to such costs, of such programs. The Director, after consultation with the Director of the Office of Management and Budget, shall establish by regulation, criteria for determining (i) the costs of developing and administering such programs, and (ii) the total costs of such programs. In any case in which the Director determines that the cost of administering such programs does not exceed 15 per centum of such total costs but is, in the judgment of the Director, excessive, the Director shall forthwith require such community action agency to take such steps prescribed by the Director as will eliminate such excessive administrative cost, including the sharing by one or more such community action agencies of a common director and other administrative personnel. The Director may waive the limitation prescribed by this paragraph for specific periods of time not to exceed six months whenever the Director determines that such a waiver is necessary in order to carry out the purposes of this subchapter.

(B) the relative number of related children from birth through 5 years of age living with families with incomes below the poverty line in each State as compared to all States.

(3)(A) Subject to the provisions of subsection (b) of this section, the Secretary shall reserve 20 percent of the sums so appropriated for each fiscal year for use in accordance with the following order of priorities:

(i) funding shall be given with equal consideration to Indian and migrant Headstart programs and to services for handicapped children, except that—

(I) there shall be made available, for use by Indian and migrant Headstart programs, nationally, no less funds for fiscal year 1979 and thereafter than were obligated for use by Indian and migrant Headstart programs in fiscal year 1978, and

(II) cost-of-living adjustments (which shall, at the minimum reflect changes in the Consumer Price Index published by the Bureau of Labor Statistics of the United States Department of Labor) shall be made with respect to such Indian and migrant Headstart programs in fiscal year 1979 and thereafter;

(ii) payments shall be made available to each State or territory, if necessary, to maintain such State or territory at a level of funding equal to its level of funding for fiscal year 1978;

(iii) training and technical assistance activities which, at a minimum, are sufficient to meet the needs associated with program expansion and to foster program and management improvement activities; and

(iv) subject to the provisions of subparagraph (B), the remainder in accordance with such criteria and procedures as the Secretary shall prescribe by regulation.

(B) Additional financial assistance for a fiscal year may be provided to a State if funds are available after meeting the requirements of clauses (i) through (iii) of subparagraph (A), for purposes other than assistance to Indian and migrant programs, services for handicapped children, payments under subparagraph (A)(ii), and training and technical assistance activities, only if such State's allotment for such fiscal year under paragraph (2) and subparagraph (A)(ii) is not greater than 175 percent of the amount such State is eligible to receive in such fiscal year under paragraph (2).

(4)(A) Subject to the provisions of subparagraph (E), the Secretary shall reserve 2 percent of the sums appropriated for—

(i) allotment among Guam, American Samoa, the Trust Territory of the Pacific Islands, the Northern Mariana Islands, and the Virgin Islands, according to their respective needs, and

(ii) the provision of assistance to States in accordance with the provisions of subparagraph (C).

(B) A State shall receive the total amount of assistance calculated under subparagraph (C) for any fiscal year if—

(i) such State receives an allotment under paragraph (2) and paragraph (3)(A)(ii) which is greater than 100 percent and less than 140 percent of the amount such State is eligible to receive under paragraph (2); or

(ii) such State receives an allotment under paragraph (2) only and such allotment, as compared to the total amount of assistance received by such State in the previous fiscal year, represents an increase which is less than 50 percent of the percentage increase in the appropriation for such fiscal year for which the determination is made as compared to the appropriation for the fiscal year preceding the fiscal year for which the determination is made.

(C) Except as provided in subparagraph (D), each State specified in subparagraph (B) shall receive a total amount of assistance for any fiscal year which is equal to the sum of—

(i) the amount of the allotment received by such State under paragraph (2);

(ii) the amount of any payments received by such State under paragraph (3)(A)(ii); and

(iii) an amount equal to the difference between—

(I) an amount equal to the sum of the total amount of assistance received by such State for the fiscal year preceding the fiscal year for which the determination is made; and the amount derived by multiplying the total amount of assistance received by such State for the most recent fiscal year by a percentage equal to one-half of the percentage increase in the appropriation for that fiscal year for which the determination is made as compared to the appropriation for the fiscal year preceding the fiscal year for which the determination is made; and

(II) the total of the payments received by such State under paragraph (2) and paragraph (3)(A)(ii) for the fiscal year for which the determination is made.

In the case of any fiscal year for which there is no increase in the appropriation as compared to the appropriation for the preceding fiscal year, each State specified in subparagraph (B) shall receive a total amount of assistance for such fiscal year which is equal to the total amount of assistance such State received for such preceding fiscal year. In the case of any fiscal year for which there is a reduction in the appropriation as compared to the appropriation for the preceding fiscal year, the Secretary shall make such adjustments in the total amount of assistance which each State otherwise would receive under this subparagraph as may be necessary to assure an equitable distribution of such assistance under this subparagraph.

(D) For fiscal year 1979, each State described in subparagraph (B) shall receive payments in an amount equal to 69 percent of the percentage increase, up to 9 percent, in the appropriation for fiscal year 1979 over the appropriation for fiscal year 1978, or 50 percent of the percentage increase in the appropriation for fiscal year 1979 over the appropriation for fiscal year 1978, whichever is greater.

(E)(i) Any funds not allotted according to the provisions of this paragraph for any fiscal year shall be allotted according to the provisions of paragraph (2) to those States which, for such fiscal year, receive an allotment under paragraph (2) only.

(ii) If sums reserved under subparagraph (A) of this paragraph are insufficient in any fiscal year to carry out the provisions of subparagraphs (A), (B), (C), and (D) of this paragraph, the Secretary shall transfer from sums reserved under paragraph (3) an amount necessary to carry out such provisions.

(b) Reservation priorities

Whenever funds appropriated pursuant to section 2928a of this title for any fiscal year beginning after September 30, 1978, are equivalent to, or exceed $800,000,000, the Secretary, pursuant to the provision of subsection (a)(3) of this section, shall reserve not more than 20 percent of $800,000,000 or 15 percent of the funds so appropriated, whichever is greater.

(c) Limitations on assistance

Financial assistance extended under this part for a Headstart program shall not exceed 80 per centum of the approved costs of the assisted program or activities, except that the Secretary may approve assistance in excess of such percentage if the Secretary determines, in accordance with regulations establishing objective criteria, that such action is required in furtherance of the purposes of this part. Non-Federal contributions may be in cash or in kind, fairly evaluated, including but not limited to plant, equipment, or services. The Secretary shall not require non-Federal contributions in excess of 20 per centum of the approved costs of programs or activities assisted under this part.

(d) Comparable service previously provided without Federal assistance

No programs shall be approved for assistance under this part unless the Secretary is satisfied that the services to be provided under such program will be in addition to, and not in substitution for, comparable services previously provided without Federal assistance. The requirement imposed by the preceding sentence shall be subject to such regulations as the Secretary may prescribe.

(e) Handicapped children

The Secretary shall establish policies and procedures designed to assure that for fiscal year 1975 not less than 10 per centum of the total number of enrollment opportunities in Headstart programs in the Nation shall be available for handicapped children and that for fiscal year 1976 and thereafter no less than 10 per centum of the total number of enrollment opportunities in Headstart programs in each State shall be available for handicapped children (as defined in paragraph (1) of section 1401 of title 20) and that services shall be provided to meet their special needs. The Secretary shall report to the Congress at least annually on the status of handicapped children in Headstart programs, including the number of children being served, their handicapping conditions, and the services being provided such children.

(f) Equitable distribution of benefits between rural and urban areas

The Secretary shall adopt appropriate administrative measures to assure that the benefits of this part will be distributed equitably between residents of rural and urban areas.

§ 3025. Designation of state agencies

(a) Duties of designated agency

In order for a State to be eligible to participate in programs of grants to States from allotments under this subchapter—

(1) the State shall, in accordance with regulations of the Commissioner, designate a State agency as the sole State agency to—

(A) develop a State plan to be submitted to the Commissioner for approval under section 3027 of this title;

(B) administer the State plan within such State;

(C) be primarily responsible for the coordination of all State activities related to the purposes of this chapter;

(D) serve as an effective and visible advocate for the elderly by reviewing and commenting upon all State plans, budgets, and policies which affect the elderly and providing technical assistance to any agency, organization, association, or individual representing the needs of the elderly; and

(E) divide the State into distinct areas, in accordance with guidelines issued by the Commissioner, after considering the geographical distribution of individuals aged 60 and older in the State, the incidence of the need for social services, nutrition services, multipurpose senior centers, and legal services, the distribution of older individuals who have low incomes residing in such areas, the distribution of resources available to provide such services or centers, the boundaries of existing areas within the State which were drawn for the planning or administration of social services programs, the location of units of general purpose local government within the State, and any other relevant factors; and

(2) the State agency designated under clause (1) shall—

(A) determine for which planning and service area an area plan will be developed, in accordance with section 3026 of this title, and for each such area designate, after consideration of the views offered by the unit or units of general purpose local government in such area, a public or private nonprofit agency or organization as the area agency on aging for such area;

(B) provide assurances, satisfactory to the Commissioner, that the State agency will take into account, in connection with matters of general policy arising in the development and administration of the State plan for any fiscal year, the views of recipients of social services or nutrition services, or individuals using multipurpose senior centers provided under such plan;

(C) develop a formula, in accordance with guidelines issued by the Commissioner, for the distribution within the State of funds received under this subchapter, taking into account, to the maximum extent feasible, the best available statistics on the geographical distribution of individuals aged 60 and older in the State, and publish such formula for review and comment;

(D) submit its formula developed under subclause (C) to the Commissioner for review and comment; and

(E) provide assurances that preference will be given to providing services to older individuals with the greatest economic or social needs and include proposed methods of carrying out the preference in the State plan.

(b) Planning and service area designated; Indian reservations; redesignation; adjustment of state allotment; review by Commissioner

(1) In carrying out the requirement of clause (1) of subsection (a) of this section, the State may designate as a planning and service area any unit of general purpose local government which has a population of 100,000 or more. In any case in which a unit of general purpose local government makes application to the State agency under the preceding sentence to be designated as a planning and service area, the State agency shall, upon request, provide an opportunity for a hearing to such unit of general purpose local government. A State may designate as a planning and service area under clause (1) of subsection (a) of this section, any region within the State recognized for purposes of areawide planning which includes one or more such units of general purpose local government when the State determines that the designation of such a regional planning and service area is necessary for, and will enhance, the effective administration of the programs authorized by this subchapter. The State may include in any planning and service area designated under clause (1) of subsection (a) of this section such additional areas adjacent to the unit of general purpose local government or regions so designated as the State determines to be necessary for, and will enhance the effective administration of the programs authorized by this subchapter.

(2) The State is encouraged in carrying out the requirement of clause (1) of subsection (a) of this section to include the area covered by the appropriate economic development district involved in any planning and service area designated under such clause, and to include all portions of an Indian reservation within a single planning and service area, if feasible.

(3) The chief executive officer of each State in which a planning and service area crosses State boundaries, or in which an interstate Indian reservation is located, may apply to the Commissioner to request redesignation as an interstate planning and service area comprising the entire metropolitan area or Indian reservation. If the Commissioner approves such an application, he shall adjust the State allotments of the areas within the planning and service area in which the interstate planning and service area is established to reflect the number of older individuals within the area who will be served by an interstate planning and service area not within the State.

(4) Whenever a unit of general purpose local government, a region, a metropolitan area or an Indian reservation is denied designation under the provisions of clause (1) of subsection (a) of this section, such unit of general purpose local government, region, metropolitan area, or Indian reservation may appeal the decision of the State agency to the Commissioner. The Commissioner shall afford such unit, region, metropolitan area, or Indian reservation an opportunity for a hearing. In carrying out the provisions of this paragraph, the Commissioner may approve the decision of the State agency, disapprove the decision of the State agency and require the State agency to designate the unit, region, area, or Indian reservation appealing the decision as a planning and service area, or take such other action as the Commissioner deems appropriate.

(c) Eligible State area agencies; development of area; preferred area agency designees

An area agency on aging designated under subsection (a) of this section shall be—

(1) an established office of aging which is operating within a planning and service area designated under subsection (a) of this section;

(2) any office or agency of a unit of general purpose local government, which is designated for the purpose of serving as an area agency by the chief elected official of such unit;

(3) any office or agency designated by the appropriate chief elected officials of any combination of units of general purpose local government to act on behalf of such combination for such purpose; or

(4) any public or nonprofit private agency in a planning and service area which is under the supervision or direction for this purpose of the designated State agency and which can engage in the planning or provision of a broad range of social services, or nutrition services within such planning and service area;

and shall provide assurance, determined adequate by the State agency, that the area agency will have the ability to develop an area plan and to carry out, directly or through contractual or other arrangements, a program in accordance with the plan within the planning and service area. In designating an area agency on aging within the planning and service area or within any unit of general purpose local government designated as a planning and service area the State shall give preference to an established office on aging, unless the State agency finds that no such office within the planning and service area will have the capacity to carry out the area plan.

§ 3026. Area plans

(a) Preparation and development by area agency; requirements

Each area agency on aging designated under section 3025(a)(2)(A) of this title shall, in order to be approved by the State agency, prepare and develop an area plan for a planning and service area for a 3-year period with such annual adjustments as may be necessary. Each such plan shall be based upon a uniform format for area plans within the State prepared in accordance with section 3027(a)(1) of this title. Each such plan shall—

(1) provide, through a comprehensive and coordinated system, for social services, nutrition services, and, where appropriate, for the establishment, maintenance, or construction of multipurpose senior centers, within the planning and service area covered by the plan, including determining the extent of need for social services, nutrition services, and multipurpose senior centers in such area (taking into consideration, among other things, the number of older individuals with low incomes residing in such area), evaluating the effectiveness of the use of resources in meeting such need, and entering into agreements with providers of social services, nutrition services, or multipurpose senior centers in such area, for the provision of such services or centers to meet such need;

(2) provide assurances that at least 50 percent of the amount allotted for part B to the planning and service area will be expended for the delivery of—

(A) services associated with access to services (transportation, outreach, and information and referral);

(B) in-home services (homemaker and home health aide, visiting and telephone reassurance, and chore maintenance); and

(C) legal services;

and that some funds will be expended for each such category of services;

(3) designate, where feasible, a focal point for comprehensive service delivery in each community to encourage the maximum collocation and coordination of services for older individuals, and give special consideration to designating multipurpose senior centers as such focal point;

(4) provide for the establishment and maintenance of information and referral services in sufficient numbers to assure that all older individuals within the planning and service area covered by the plan will have reasonably convenient access to such services;

(5)(A) provide assurances that preference will be given to providing services to older individuals with the greatest economic or social needs and include proposed methods of carrying out the preference in the area plan; and

(B) assure the use of outreach efforts that will identify individuals eligible for assistance under this chapter, with special emphasis on rural elderly, and inform such individuals of the availability of such assistance;

(6) provide that the area agency on aging will—

(A) conduct periodic evaluations of activities carried out under the area plan;

(B) furnish appropriate technical assistance to providers of social services, nutrition services, or multipurpose senior centers in the planning and service area covered by the area plan;

(C) take into account in connection with matters of general policy arising in the development and administration of the area plan, the views of recipients of services under such plan;

(D) serve as the advocate and focal point for the elderly within the community by monitoring, evaluating, and commenting upon all policies, programs, hearings, levies, and community actions which will affect the elderly;

(E) where possible, enter into arrangements with organizations providing day care services for children so as to provide opportunities for older individuals to aid or assist on a voluntary basis in the delivery of such services to children;

(F) where possible, enter into arrangements with local educational agencies, institutions of higher education, and nonprofit private organizations, to use services provided for older individuals under the community schools program under the Elementary and Secondary Education Act of 1965 [20 U.S.C. 2701 et seq.];

(G) establish an advisory council consisting of older individuals who are participants or who are eligible to participate in programs assisted under this chapter, representatives of older individuals, local elected officials, and the general public, to advise continuously the area agency on all matters relating to the development of the area plan, the administration of the plan and operations conducted under the plan;

(H) develop and publish methods by which priority of services is determined, particularly with respect to the delivery of services under clause (2); and

(I) establish effective and efficient procedures for coordination between the programs assisted under this subchapter and programs described in section 3013(b) of this title.

(b) Waiver of requirements

(1) Each State, in approving area agency plans under this section, may, for fiscal years 1979 and 1980, waive any particular requirement relating to the delivery of services or the establishment or operation of multipurpose senior centers which such agency cannot meet because of the consolidation authorized by the Comprehensive Older Americans Act Amendments of 1978, except that the State agency may grant such a waiver only if the area agency demonstrates to the State agency that it is taking steps to meet the requirements of this subchapter, but in any event the State agency may not grant a waiver for any requirement of this chapter in effect on September 30, 1978.

(2) Each State, in approving area agency plans under this section, may waive the requirement described in clause (2) of subsection (a) of this section for any category of services described in such clause if the area agency on aging demonstrates to the State agency that services being furnished for such category in the area are sufficient to meet the need for such services in such area. If the State agency grants a waiver under the preceding sentence with respect to any category, then the area agency shall expend under clause (2) of subsection (a) of this section a percentage of the amount allotted for part B to the planning and service area, for the categories with respect to which such waiver does not apply, that is agreed upon by the State agency and the area agency.

(c) Transportation services; funds

(1) Subject to regulations prescribed by the Commissioner, an area agency on aging designated under section 3025(a)(2)(A) of this title or, in areas of a State where no such agency has been designated, the State agency, may enter into agreements with agencies administering programs under the Rehabilitation Act of 1973 [29 U.S.C. 701 et seq.], and titles XIX and XX of the Social Security Act [42 U.S.C. 1396 et seq., 1397 et seq.] for the purpose of developing and implementing plans for meeting the common need for transportation services of individuals receiving benefits under such Acts and older individuals participating in programs authorized by this subchapter.

(2) In accordance with an agreement entered into under paragraph (1), funds appropriated under this subchapter may be used to purchase transportation services for older individuals and may be pooled with funds made available for the provision of transportation services under the Rehabilitation Act of 1973 [29 U.S.C. 701 et seq.], and titles XIX and XX of the Social Security Act [42 U.S.C. 1396 et seq., 1397 et seq.].

§ 3027. State plans

(a) Criteria for eligibility; contents

Except as provided in section 3029(a) of this title, each State, in order to be eligible for grants from its allotment under this subchapter for any fiscal year, shall submit to the Commissioner a State plan for a 3-year period, with such annual revisions as are necessary, which meets such criteria as the Commissioner may by regulation prescribe. Each such plan shall—

(1) contain assurances that the State plan will be based upon area plans developed by area agencies on aging within the State designated under section 3025(a)(2)(A) of this title and that the State will prepare and distribute a uniform format for use by area agencies in developing area plans under section 3026 of this title;

(2) provide that each area agency on aging designated under section 3025(a)(2)(A) of this title will develop and submit to the State agency for approval an area plan which complies with the provisions of section 3026 of this title;

(3)(A) provide that the State agency will evaluate the need for social services (including legal services), nutrition services, and multipurpose senior centers within the State and determine the extent to which existing public or private programs meet such need; and

(B) provide assurances that the State agency will spend in each fiscal year, for services to older individuals residing in rural areas in the State assisted under this subchapter, an amount equal to not less than 105 percent of the amount expended for such services (including amounts expended under subchapter V and subchapter VII of this chapter) in fiscal year 1978;

(4) provide for the use of such methods of administration (including methods relating to the establishment and maintenance of personnel standards on a merit basis, except that the Commissioner shall exercise no authority with respect to the selection, tenure of office, or compensation of any individual employed in accordance with such methods) as are necessary for the proper and efficient administration of the plan, and, where necessary, provide for the reorganization and reassignment of functions to assure such efficient administration;

(5) provide that the State agency will afford an opportunity for a hearing upon request to any area agency on aging submitting a plan under this subchapter, to any provider of a service under such a plan, or to any applicant to provide a service under such a plan;

(6) provide that the State agency will make such reports, in such form, and containing such information, as the Commissioner may require, and comply with such requirements as the Commissioner may impose to insure the correctness of such reports;

(7) provide satisfactory assurance that such fiscal control and fund accounting procedures will be adopted as may be necessary to assure proper disbursement of, and accounting for, Federal funds paid under this subchapter to the State, including any such funds paid to the recipients of a grant or contract;

(8) provide that the State agency will conduct periodic evaluations of activities and projects carried out under the State plan;

(9) provide for establishing and maintaining information and referral services in sufficient numbers to assure that all older individuals in the State who are not furnished adequate information and referral services under section 3026(a)(4) of this title will have reasonably convenient access to such services;

(10) provide that no social services, including nutrition services, will be directly provided by the State agency or an area agency on aging, except where, in the judgment of the State agency, provision of such services by the State agency or an area agency on aging is necessary to assure an adequate supply of such services;

(11) provide that subject to the requirements of merit employment systems of State and local governments, preference shall be given to individuals aged 60 or older for any staff positions (full time or part time) in State and area agencies for which such individuals qualify;

(12) provide assurances that the State agency will—

(A) establish and operate, either directly or by contract or other arrangement with any public agency or other appropriate private nonprofit organization which is not responsible for licensing or certifying long-term care services in the State or which is not an association (or an affiliate of such an association) of long-term care facilities (including any other residential facility for older individuals), a long-term care ombudsman program which will—

(i) investigate and resolve complaints made by or on behalf of older individuals who are residents of long-term care facilities relating to administrative action which may adversely affect the health, safety, welfare, and rights of such residents;

(ii) monitor the development and implementation of Federal, State, and local laws, regulations, and policies with respect to long-term care facilities in that State;

(iii) provide information as appropriate to public agencies regarding the problems of older individuals residing in long-term care facilities;

(iv) provide for training volunteers and promote the development of citizen organizations to participate in the ombudsman program; and

(v) carry out such other activities as the Commissioner deems appropriate;

(B) establish procedures for appropriate access by the ombudsman to long-term care facilities and patients' records, including procedures to protect the confidentiality of such records and ensure that the identity of any complainant or resident will not be disclosed without the written consent of such complainant or resident, or upon court order;

(C) establish a statewide uniform reporting system to collect and analyze data relating to complaints and conditions in long-term care facilities for the purpose of identifying and resolving significant problems, with provision for submission of such data to the agency of the State responsible for licensing or certifying long-term care facilities in the State and to the Commissioner on a regular basis; and

(D) establish procedures to assure that any files maintained by the ombudsman program shall be disclosed only at the discretion of the ombudsman having authority over the disposition of such files, except that the identity of any complainant or resident of a long-term care facility shall not be disclosed by such ombudsman unless—

(i) such complainant or resident, or his legal representative, consents in writing to such disclosure; or

(ii) such disclosure is required by court order;

(13) provide with respect to nutrition services that—

(A) each project providing nutrition services will be available to individuals aged 60 or older, and to their spouses;

(B) each project will provide meals in a congregate setting, except that each such project may provide home delivered meals based upon a determination of need made by the recipient of a grant or contract entered into under this subchapter;

(C)(i) each project will permit recipients of grants or contracts to charge participating individuals for meals furnished in accordance with guidelines established by the Commissioner, taking into consideration the income ranges of eligible individuals in local communities and other sources of income of the recipients of a grant or contract; and

(ii) such charges will be used to increase the number of meals served by the project involved;

(D) a site for such services and for comprehensive social services is furnished in as close proximity to the majority of eligible individuals' residences as feasible, with particular attention upon a multipurpose senior center, a school, a church, or other appropriate community facility, preferably within walking distance where possible, and where appropriate, transportation to such site is furnished or home delivered meals are furnished to eligible individuals who are homebound;

(E) each project will establish outreach activities which assure that the maximum number of eligible individuals may have an opportunity to participate;

(F) each project may establish and administer the nutrition project with the advice of persons competent in the field of service in which the nutrition project is being provided, older individuals who will participate in the program, and of persons who are knowledgeable with regard to the needs of older individuals;

(G) each project will provide special menus, where feasible and appropriate, to meet the particular dietary needs arising from the health requirements, religious requirements, or ethnic backgrounds of eligible individuals;

(H) each area agency will give consideration, where feasible, in the furnishing of home delivered meals to the use of organizations which (i) have demonstrated an ability to provide home delivered meals efficiently and reasonably; and (ii) furnish assurances to the area agency that such an organization will maintain efforts to solicit voluntary support and that funds made available under this subchapter to the organization will not be used to supplant funds from non-Federal sources; and

(I) each State agency may, only for fiscal years 1979 and 1980, use not to exceed 20 percent of the amounts allotted under part C to the State for supportive services, including recreational activities, informational services, health and welfare counseling, and referral services, directly related to the delivery of congregate or home delivered meals, except that the Commissioner may approve an application from a State to use not to exceed 50 percent of its amount allotted under part C in areas with unusually high supportive services costs;

(14) provide, with respect to the acquisition (in fee simple or by lease for 10 years or more), alteration, or renovation of existing facilities (or the construction of new facilities in any area in which there are no suitable structures available, as determined by the State agency, after full consideration of the recommendations made by area agencies, to be a focal point for the delivery of services assisted under this subchapter) to serve as multipurpose senior centers, that—

(A) the plan contains or is supported by reasonable assurances that (i) for not less than 10 years after acquisition, or not less than 20 years after the completion of construction, the facility will be used for the purpose for which it is to be acquired or constructed, unless for unusual circumstances the Commissioner waives the requirement of this division; (ii) sufficient funds will be available to meet the non-Federal share of the cost of acquisition or construction of the facility; (iii) sufficient funds will be available when acquisition or construction is completed, for effective use of the facility for the purpose for which it is being acquired or constructed; and (iv) the facility will not be used and is not intended to be used for sectarian instruction or as a place for religious worship;

(B) the plan contains or is supported by reasonable assurances that, in the case of purchase or construction, there are no existing facilities in the community suitable for leasing as a multipurpose senior center;

(C) the plans and specifications for the facility are in accordance with regulations relating to minimum standards of construction, promulgated with particular emphasis on securing compliance with the requirements of the Act of August 12, 1968, commonly known as the Architectural Barriers Act of 1968 [42 U.S.C. 4151 et seq.];

(D) the plan contains or is supported by adequate assurance that any laborer or mechanic employed by any contractor or subcontractor in the performance of work on the facility will be paid wages at rates not less than those prevailing for similar work in the locality as determined by the Secretary of Labor in accordance with the Act of March 3, 1931 (40 U.S.C. 276a—276a-5; commonly known as the Davis-Bacon Act), and the Secretary of Labor shall have, with respect to the labor standards specified in this clause, the authority and functions set forth in reorganization plan numbered 14 of

1950 (15 F.R. 3176; 64 Stat. 1267), and section 276c of title 40; and

(E) the plan contains assurances that the State agency will consult with the Secretary of Housing and Urban Development with respect to the technical adequacy of any proposed alteration or renovation;

(15) provide that with respect to legal services—

(A) the plan contains assurances that area agencies on aging will (i) enter into contracts with providers of legal services which can demonstrate the experience or capacity to deliver legal services; (ii) include in any such contract provisions to assure that any recipient of funds under division (i) will be subject to specific restrictions and regulations promulgated under the Legal Services Corporation Act [42 U.S.C. 2996 et seq.] (other than restrictions and regulations governing eligibility for legal assistance under such Act and governing membership of local governing boards) as determined appropriate by the Commissioner; and (iii) attempt to involve the private bar in legal services activities authorized under this subchapter, including groups within the private bar furnishing services to older individuals on a pro bono and reduced fee basis;

(B) the plan contains assurances that no legal services will be furnished unless the grantee—

(i) is a recipient of funds under the Legal Services Corporation Act; or

(ii) administers a program designed to provide legal services to all older individuals with social or economic need and has agreed to coordinate its services with existing Legal Services Corporation projects in the area in order to concentrate the use of funds provided under this subchapter on individuals with the greatest such need but who are not eligible for legal assistance under the Legal Services Corporation Act;

and the area agency makes a finding after assessment, pursuant to standards for service promulgated by the Commissioner, that any grantee selected is the entity best able to provide the particular services;

(C) the State agency will provide for the coordination of the furnishing of legal services to older individuals within the State, and provide advice and technical assistance in the provision of legal services to older individuals within the State and support the furnishing of training and technical assistance for legal services for older individuals; and

(D) the plan contains assurances, to the extent practicable, that legal services furnished under the plan will be in addition to any legal services for older individuals being furnished with funds from sources other than this chapter and that reasonable efforts will be made to maintain existing levels of legal services for older individuals; and

(16) provide that the State agency, from funds allotted under section 3024(a) of this title for part B will use an amount equal to an amount not less than 1 percent of such allotment or $20,000, whichever is greater, for the purpose of carrying out the provisions of clause (12), except that (A) the requirement of this clause shall not apply in any fiscal year in which a State spends from State or local sources an amount equal to the amount required to be spent by this clause; and (B) the provisions of this clause shall not apply to American Samoa, Guam, the Virgin Islands, the Trust Territory of the Pacific Islands, and the Northern Mariana Islands.

(b) Approval by Commissioner; waiver of requirements

(1) The Commissioner shall approve any State plan which he finds fulfills the requirements of subsection (a) of this section.

(2) The Commissioner, in approving any State plan under this section may, for the fiscal years 1979 and 1980, waive any particular requirement relating to the delivery of services or the establishment or operation of multipurpose senior centers which the State agency cannot meet because of the consolidation authorized by the Comprehensive Older Americans Act Amendments of 1978 or because meeting such requirement would reduce or jeopardize the quality of services under this chapter, except that the Commissioner may grant such a waiver only if the State agency demonstrates that it is taking steps to meet the requirements of this subchapter, but in any event the Commissioner may not grant a waiver for any requirement of this chapter in effect on September 30, 1978. The Commissioner may not disapprove any State plan under paragraph (1) solely on the ground that a State requested a waiver under the preceding sentence.

(3) The Commissioner, in approving any State plan under this section, may waive the requirement described in clause (3)(B) of subsection (a) of this section if the State agency demonstrates to the Commissioner that the service needs of older individuals residing in rural areas in the State are being met, or that the number of older individuals residing in such rural areas is not sufficient to require the State agency to comply with the requirement described in clause (3)(B) of subsection (a) of this section.

(c) Notice and hearing prior to disapproval

The Commissioner shall not make a final determination disapproving any State plan, or any modification thereof, or make a final determination that a State is ineligible under section 3025 of this title, without first affording the State reasonable notice and opportunity for a hearing.

(d) Discontinuance of payments; disbursement of withheld funds to agencies with approved plans; matching funds

Whenever the Commissioner, after reasonable notice and opportunity for a hearing to the State agency, finds that—

(1) the State is not eligible under section 3025 of this title,

(2) the State plan has been so changed that it no longer complies substantially with the provisions of subsection (a) of this section, or

(3) in the administration of the plan there is a failure to comply substantially with any such provision of subsection (a) of this section,

the Commissioner shall notify such State agency that no further payments from its allotments under section 3024 of this title and section 3028 of this title will be made to the State (or, in his discretion, that further payments to the State will be limited to projects under or portions of the State plan not affected by such failure), until he is satisfied that there will no longer be any failure to comply. Until he is so satisfied, no further payments shall be made to such State from its allotments under section 3024 of this title and section 3028 of this title (or payments shall be limited to projects under or portions of the State plan not affected by such failure). The Commissioner shall, in accordance with regulations he shall prescribe, disburse the funds so withheld directly to any public or nonprofit private organization or agency or political subdivision of such State submitting an approved plan in accordance with the provisions of this section. Any such payment shall be matched in the proportions specified in section 3024 of this title.

(e) Appeal

(1) A State which is dissatisfied with a final action of the Commissioner under subsection (b), (c), or (d) of this section may appeal to the United States court of appeals for the circuit in which the State is located, by filing a petition with such court within 30 days after such final action. A copy of the petition shall be forthwith transmitted by the clerk of the court to the Commissioner, or any officer designated by him for such purpose. The Commissioner thereupon shall file in the court the record of the proceedings on which he based his action, as provided in section 2112 of title 28.

(2) Upon the filing of such petition, the court shall have jurisdiction to affirm the action of the Commissioner or to set it aside, in whole or in part, temporarily or permanently, but until the filing of the record, the Commissioner may modify or set aside his order. The findings of the Commissioner as to the facts, if supported by substantial evidence, shall be conclusive, but the court, for good cause shown, may remand the case to the Commissioner to take further evidence, and the Commissioner shall, within 30 days, file in the court the record of those further proceedings. Such new or modified findings of fact shall likewise be conclusive if supported by substantial evidence. The judgment of the court affirming or setting aside, in whole or in part, any action of the Commissioner shall be final, subject to review by the Supreme Court of the United States upon certiorari or certification as provided in section 1254 of title 28.

(3) The commencement of proceedings under this subsection shall not, unless so specifically ordered by the court, operate as a stay of the Commissioner's action.

The amount specified in this paragraph shall be adjusted on an annual basis for each fiscal year after June 30, 1975, to reflect changes in the series for food away from home of the Consumer Price Index published by the Bureau of Labor Statistics of the Department of Labor. Such adjustment shall be computed to the nearest one-fourth cent. Such disbursements shall only be used by such recipients of grants or contracts to purchase United States agricultural commodities and other foods for their nutrition projects.

§ 3056d. National grants or contracts and State allotments for projects

(a) National activities based on level of activities in fiscal year 1978: preference in awards, equitable distribution of aggregate activities; transitional employment funds; State allotments: allotment formula, allotment percentage; number of persons aged fifty-five or over; per capita income

(1)(A) Subject to the provisions of paragraph (2), from sums appropriated under this subchapter for each fiscal year, the Secretary shall first reserve such sums as may be necessary for national grants or contracts with public agencies and public or private nonprofit organizations to maintain the level of activities carried on under such grants or contracts at least at the level of such activities supported under this subchapter and under any other provision of Federal law relating to community service employment programs for older Americans in fiscal year 1978. Preference in awarding such grants or contracts shall be given to national organizations of proven ability in providing employment services to older persons under this program and similar programs. The Secretary, in awarding grants and contracts under this section, shall, to the extent feasible, assure an equitable distribution of activities under such grants and contracts, in the aggregate, among the States, taking into account the needs of underserved States.

(B) From sums appropriated under this subchapter for each fiscal year after September 30, 1978, the Secretary may reserve an amount not to exceed one per centum of the amount appropriated in excess of the amount appropriated for fiscal year 1978 for the purpose of entering into agreements under section 3056(e) of this title, relating to improved transition to private employment.

For the purpose of the exception contained in this paragraph

the term "State" does not include Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands.

(4) For the purpose of this subsection—

(A) the allotment percentage of each State shall be 100 per centum less that percentage which bears the same ratio to 50 per centum as the per capita income of such State bears to the per capita income of the United States, except that (i) the allotment percentage shall in no case be more than 75 per centum or less than 33⅓ per centum, and (ii) the allotment percentage for the District of Columbia, Puerto Rico, Guam, the Virgin Islands, American Samoa, and the Trust Territory of the Pacific Islands shall be 75 per centum;

(B) the number of persons aged fifty-five or over in any State and in all States, and the per capita income in any State and in all States, shall be determined by the Secretary on the basis of the most satisfactory data available to him; and

(C) for the purpose of determining the allotment percentage, the term "United States" means the fifty States and the District of Columbia.

If within such 20-day period, either Committee has reported out or been discharged from further consideration of a joint resolution of disapproval or other legislation which is intended to modify or invalidate the rule or regulation or any portion thereof, the rule or regulation or portion thereof so addressed shall not become effective for a period of 90 calendar days from the date of Committee action or discharge unless the House to which such Committee reports has rejected such resolution or legislation, in which case the rule or regulation may go into effect only after the expiration of the 20 calendar days described in the first sentence of this paragraph if the other House does not have such a resolution or legislation pending or adopted, and if the requirements of section 553 of title 5 are met.

(4) The provisions of paragraphs (2) and (3) may be waived upon the written request of the Secretary, if agreed to by the Chairmen and Ranking Minority Members of both Committees.

(5) Congressional inaction on any rule or regulation shall not be deemed an expression of approval of the rule or regulation involved.

(6) For purposes of this subsection—

(A) continuity of session is broken only by an adjournment of Congress sine die;

(B) the days on which either House is not in session because of an adjournment of more than 3 days to a day certain are excluded in the computation of calendar days of continuous session of Congress; and

§ 3541. Paperwork reduction

(a) Declaration of policy

The Congress finds and declares—

(1) that various departments, agencies, and instrumentalities of the Federal Government with responsibilities involving housing and housing finance programs, require, approve, use or otherwise employ a variety of different forms as residential mortgages (or deeds of trust or similar security instruments) as notes secured by those mortgages, and for applications, appraisals and other purposes, and that such duplication of forms constitutes a paperwork burden that adds to the costs imposed on the Nation's homeowners and home buyers;

(2) that unnecessary paperwork impairs the effectiveness of Federal housing and housing finance programs;

(3) that both single-family and multi-family programs are affected; and

(4) that simplification of paperwork imposed by Federal housing and housing finance programs would contribute to achieving the Nation's housing goals by reducing housing costs.

(b) Uniform legal and other forms for use by agencies in housing programs

(1) Not later than October 1, 1980, the Secretary of Housing and Urban Development, the Secretary of Agriculture, and the Administrator of Veterans' Affairs shall, consistent with provisions of law governing the conduct of housing programs, employ in their respective programs—

(A) uniform single-family and multi-family note and mortgage forms;

(B) a uniform application form for mortgage approval and commitment for mortgage insurance;

(C) a uniform form for computation of the monthly net effective income of applicants;

(D) a uniform property appraisal form;

(E) a uniform settlement statement which shall satisfy the requirements of the Real Estate Settlement Procedures Act [12 U.S.C. 2601 et seq.]; and

(F) such other consolidated or simplified forms, particularly those which solicit identical or nearly identical information from the same persons in the conduct of two or more such programs, the consolidation or simplification of which the Secretaries of Housing and Urban Development and Agriculture and the Administrator of Veterans' Affairs mutually agree would contribute to a reduction in the paperwork and regulatory burden of such programs.

(2) The Secretary of Housing and Urban Development, the Secretary of Agriculture, and the Administrator of Veterans' Affairs shall, consistent with provisions of law governing their respective programs, provide by regulation for the elimination of forms which solicit information which is already available from other available sources through indexing or other means of identifying such forms.

(3) Each agency referred to in subsection (b) of this section may employ riders, addenda, or similar forms of modification agreements to adapt such uniform forms to its respective programs and policies, consistent with the goals of minimizing the use and extent of such modification agreements and maximizing the suitability of such forms for the use of all participants, public and private.

(c) Coordination and reports by Director of the Office of Management and Budget

The Director of the Office of Management and Budget shall coordinate and monitor the development and implementation by Federal departments and agencies of the efforts required by subsection (b) of this section and shall report to the Congress on such development and implementation and with respect to any provisions of law which unnecessarily prevent such departments and agencies from carrying out the provisions of this section as part of each report required under Public Law 93-556. Such report shall include an estimate of the reduction of the level of paperwork burden hours of the affected agencies as allocated by the Office of Management and Budget.

(1)(F), added par. (2), redesignated former par. (2) as (3), and struck out former par. § 3701. Congressional findings, declaration of policy, and statement of purpose

The Congress finds and declares that the high incidence of crime in the United States is detrimental to the general welfare of the Nation and its citizens, and that criminal justice efforts must be better coordinated, intensified, and made more effective and equitable at all levels of government.

Congress further finds that juvenile delinquency constitutes a growing threat to the national welfare requiring immediate and comprehensive action by the Federal Government to reduce and prevent delinquency by developing and implementing effective programs to improve the quality of juvenile justice in the United States.

Congress further finds that there is an urgent need to encourage basic and applied research, to gather and disseminate accurate and comprehensive justice statistics, and to evaluate methods of preventing and reducing crime.

Congress further finds that although crime is essentially a local problem that must be dealt with by State and local governments, the financial and technical resources of the Federal Government should be made available to support such State and local efforts.

Congress further finds that the future welfare of the Nation and the well-being of its citizens depend on the establishment and maintenance of viable and effective justice systems which require: (1) systematic and sustained action by Federal, State, and local governments; (2) greater continuity in the scope and level of Federal assistance; and (3) continuing efforts at all levels of government to streamline programs and upgrade the functioning of agencies responsible for planning, implementing and evaluating efforts to improve justice systems.

It is therefore the declared policy of the Congress to aid State and local governments in strengthening and improving their systems of criminal justice by providing financial and technical assistance with maximum certainty and minimum delay. It is the purpose of this chapter to (1) authorize funds for the benefit of

States and units of local government to be used to strengthen their criminal justice system; (2) develop and fund new methods and programs to enhance the effectiveness of criminal justice agencies; (3) support the development of city, county, and statewide priorities and programs to meet the problems confronting the justice system; (4) reduce court congestion and trial delay; (5) support community anticrime efforts; (6) improve and modernize the correctional system; (7) encourage the undertaking of innovative projects of recognized importance and effectiveness; (8) encourage the development of basic and applied research directed toward the improvement of civil and criminal justice systems and new methods for the prevention and reduction of crime and the detection, apprehension, and rehabilitation of criminals; (9) encourage the collection and analysis of statistical information concerning crime, juvenile delinquency, civil disputes, and the operation of justice systems; and (10) support manpower development and training efforts. It is further the policy of the Congress that the Federal assistance made available under this chapter not be utilized to reduce the amount of State and local financial support for criminal justice activities below the level of such support prior to the availability of such assistance.

(ii) providing financial assistance to these agencies and units according to the criteria of this chapter and on the terms and conditions established by such council at its discretion;

(D) receiving, coordinating, reviewing, and monitoring all applications or amendments submitted by State agencies, the judicial coordinating committee, units of local government, and combinations of such units pursuant to section 3743 of this title, recommending ways to improve the effectiveness of the programs or projects referred to in said applications, assuring compliance of said applications with Federal requirements and State law and integrating said applications into the comprehensive State application;

(E) preparing an annual report for the chief executive of the State and the State legislature containing an assessment of the criminal justice problems and priorities within the State; the adequacy of existing State and local agencies, programs, and resources to meet these problems and priorities; the distribution and use of funds allocated pursuant to this subchapter and the relationship of these funds to State and local resources allocated to crime and justice system problems; and the major policy and legislative initiatives that are recommended to be undertaken on a statewide basis;

(F) assisting the chief executive of the State, the State legislature, and units of local government upon request in developing new or improved approaches, policies, or legislation designed to improve criminal justice in the State;

(G) developing and publishing information concerning criminal justice in the State;

(H) providing technical assistance upon request to State agencies, community-based crime prevention programs, the judicial coordinating committee, and units of local government in matters relating to improving criminal justice in the State; and

(I) assuring fund accounting, auditing, and evaluation of programs and projects funded under this subchapter to assure compliance with Federal requirements and State law.

(2) The council shall be created or designated by State law and shall be subject to the jurisdiction of the chief executive of the State who shall appoint the members of the council, designate the chairman, and provide professional, technical, and clerical staff to serve the council. The council shall be broadly representative and include among its membership—

(A) representatives of eligible jurisdictions as defined in subsection (a)(2), (3), and (4) of this section who shall comprise at least one-third of the membership of the council where there are such eligible jurisdictions in the State and where they submit applications pursuant to this subchapter;

(B) representatives of the smaller units of local government defined in subsection (a)(5) of this section;

(C) representatives of the various components of the criminal justice system, including representatives of agencies directly related to the prevention and control of juvenile delinquency and representatives of police, courts, corrections, prosecutors, and defense attorneys;

(D) representatives of the general public including representatives of neighborhood and community-based, business, and professional organizations of the communities to be served under this subchapter; and

(E) representatives of the judiciary including, at a minimum, the chief judicial officer or other officer of the court of last resort, the chief judicial administrative officer or other appropriate judicial administrative officer of the State, and a local trial court judicial officer; if the chief judicial officer or chief judicial administrative officer cannot or does not choose to serve, the other judicial members and the local trial court judicial officer shall be selected by the chief executive of the State from a list of no less than three nominees for each position submitted by the chief judicial officer of the court of last resort within thirty days after the occurrence of any vacancy in the judicial membership; additional judicial members of the council as may be required by the Administration shall be appointed by the chief executive of the State from the membership of the judicial coordinating committee or, in the absence of a judicial coordinating committee, from a list of no less than three nominees for each position submitted by the chief judicial officer of the court of last resort.

Individual representatives may fulfill the requirements of more than one functional area or geographical area where appropriate to the background and expertise of the individual.

(3)(A) Applications from eligible jurisdictions as defined in subsection (a)(2), (3), and (4) of this section may, at the discretion of such eligible jurisdiction, be in the form of a single application to the State for inclusion in the comprehensive State application. Applications or amendments should conform to the overall priorities, unless the eligible jurisdiction's analysis of its criminal justice system demonstrates that such recommended priorities are inconsistent with their needs. Applications or amendments should conform to uniform administrative requirements for submission of applications. Such requirements shall be consistent with guidelines issued by the Administration. Such application or amendments shall be deemed approved unless the council, within ninety days of the receipt of such application or amendment, finds that the application or amendment—

(i) does not comply with Federal requirements or with State law or regulations;

(ii) is inconsistent with priorities and fails to establish, under guidelines issued by the Administration, good cause for such inconsistency;

(iii) conflicts with or duplicates programs or projects of another applicant under this chapter, or other Federal, State, or local supported programs or applications; or

(iv) proposes a program or project that is substantially identical to or is a continuation of a program or project which has been evaluated and found to be ineffective under section 3744(c)(4) of this title.

Where the council finds such noncompliance, inconsistency, conflict, or duplication, it shall notify the applicant in writing and set forth its reasons for the finding.

(B) The applicant may, within thirty days of receipt of written findings of the council pursuant to subparagraph (A) submit to the council a revised application or state in writing the applicant's reasons for disagreeing with the council's findings.

(C) A revised application submitted under subparagraph (B) shall be treated as an original application except that the council shall act on such application within thirty days.

(D) If an applicant states in writing a disagreement with the council's written findings as specified in subparagraph (A), the findings shall be considered appealed. The appeal shall be in accordance with a procedure developed by the council and reviewed and agreed to by the eligible jurisdiction. If any eligible jurisdiction in a State fails to agree with the council appeal process prior to application submission to the council, the appeal shall be in accordance with procedures developed by the Administration. The Administration appeal procedures shall provide that if the council's action is not supported by clear and convincing evidence or if the council acted arbitrarily or capriciously, the council shall be directed to reconsider or approve the application or amendment.

(E) Approval of the application of such eligible local jurisdiction shall result in the award of funds to such eligible jurisdiction without requirement for further application or review by the council.

(4) Applications from State agencies and eligible jurisdictions as defined in subsection (a)(5) of this section must be in the manner and form proscribed by the council. Where the council determines under paragraph (1)(C) and (D) that an application or amendment from a State agency or an eligible jurisdiction as defined in subsection (a)(5) of this section—

(A) does not comply with Federal requirements or with State law or regulation;

(B) is inconsistent with priorities, policy, organizational, or procedural arrangements, or the crime analysis;

(C) conflicts with or duplicates programs or projects of another applicant under this chapter, or other Federal, State, or local supported programs or applications; or

(D) proposes a program or project that is substantially identical to or is a continuation of a program or project which has been evaluated and found to be ineffective;

the council shall notify the applicant in writing of the finding and the reasons for the finding and may deny funding or recommend appropriate changes. Appeal of the council's action shall be in accordance with procedures established by the council for such matters.

(c) Local criminal justice advisory boards

The chief executive(s) of an eligible jurisdiction as defined in subsection (a)(2), (3), and (4) of this section shall create or designate an office for the purpose of preparing and developing the jurisdiction's application and assuring that such application complies with Federal requirements, State law, fund accounting, auditing and the evaluation of programs and projects to be funded under the application to be submitted to the council pursuant to section 3743 of this title. Each eligible jurisdiction shall establish or designate a local criminal justice advisory board (hereinafter referred to in this section as the "board") for the purpose of—

(1) analyzing the criminal justice problems within the eligible jurisdiction and advising the council of the eligible jurisdiction on priorities;

(2) advising the chief executive of the eligible jurisdiction pursuant to this chapter;

(3) advising on applications or amendments by the eligible jurisdiction;

(4) assuring that there is an adequate allocation of funds for court programs based upon that proportion of the eligible jurisdiction's expenditures for court programs which contributes to the jurisdiction's eligibility for funds and which take into account the court priorities recommended by the judicial coordinating committee; and

(5) assuring that there is an adequate allocation of funds for correction programs based on that portion of the eligible jurisdiction's expenditures for correction programs which contributes to the jurisdiction's eligibility for funds.

Such board shall be established or designated by the chief executive of the eligible jurisdiction and shall be subject to the jurisdiction of the chief executive who shall appoint the members and designate the chairman. Such board shall be broadly representative of the various components of the criminal justice system and shall include among its membership representatives of neighborhood, community-based and professional organizations. In the case of an eligible jurisdiction as defined in subsection (a)(4) of this section, the membership of the board shall be jointly appointed in such manner as the chief executive of each unit of local government shall determine by mutual agreement. Decisions made by the board pursuant to this subsection may be reviewed and either be accepted or rejected by the chief executive of the eligible subgrant jurisdiction, or in the case of an eligible jurisdiction as defined in subsection (a)(4) of this section in such manner as the chief executive of each unit of local government shall determine by mutual agreement. Where an eligible jurisdiction as defined in subsection (a)(2) or (3) of this section chooses not to combine pursuant to subsection (a)(4) of this section and chooses not to exercise the powers of this subsection, it shall be treated as an eligible jurisdiction under subsection (a)(5) of this section.

(d) Judicial coordinating committees

The court of last resort of each State may establish or designate a judicial coordinating committee (hereinafter referred to in this chapter as the "committee") for the preparation, development, and revision of a three-year application or amendments thereto reflecting the needs and priorities of the courts of the State. For those States where there is a judicial agency which is authorized by State law on December 27, 1979, to perform this function and which has a statutory membership of a majority of court officials (including judges and court administrators), the judicial agency may establish or designate the judicial coordinating committee. The committee shall—

(1) establish priorities for the improvement of the various courts of the State;

(2) define, develop, and coordinate programs and projects for the improvement of the courts of the State; and

(3) develop, in accordance with this subchapter, an application for the funding of programs and projects designed to improve the functioning of the courts and judicial agencies of the State.

The committee shall submit its three-year application or amendments to the council. The committee shall review for consistency with the court priorities, applications, or amendments from any jurisdiction which has incurred expenditures for the court services from its own sources or from any other jurisdiction which is applying for funds for court services. The committee shall report to the council and the applicant its findings of consistency and inconsistency. The council shall approve and incorporate into its application in whole or in part the application or amendments of the committee unless the council determines that such committee application or amendments are not in accordance with this chapter, are not in conformance with, or consistent with, their own application made pursuant to section 3743 of this title, or do not conform with the fiscal accountability standards of this chapter.

(e) Processing of applications

(1) The council will provide for procedures that will insure that all applications or amendments by units of local government or combinations thereof or judicial coordinating committees shall be acted upon no later than ninety days after being first received by the council. Final action by the council which results in the return of any application or amendments to an application must contain specific reasons for such action within ninety days of receipt of the application. Any part of such application or amendments which is not acted upon shall be deemed approved for submission to the Administration. Action by the council on any application or part thereof shall not preclude the resubmission of such application or part thereof to the council at a later date.

(2) The council, the judicial coordinating committee, and local boards, established pursuant to subsection (c) of this section, shall meet at such times and in such places as they deem necessary and shall hold each meeting open to the public, giving public notice of the time and place of such meeting, and the nature of the business to be transacted if final action is to be taken at the meeting on the State application or any application for funds or any amendment thereto. The council, the judicial coordinating committee, and local boards, pursuant to subsection (c) of this section, shall provide for public access to all records relating to their functions under this chapter, except such records as are required to be kept confidential by any other provision of local, State, or Federal law.

(3) The council shall, at a time designated in regulations promulgated by the Administration, submit its application made pursuant to this subchapter to the Administration for approval. Its application shall include funding allocations or applications which were submitted by State agencies, the judicial coordinating committee, and units of local government, or combinations thereof, and which were first reviewed and approved by the council pursuant to subsection (b)(3), (b)(4), or (d) of this section, as appropriate.

(f) Participation of citizens and neighborhood and community organizations

To be eligible for funds under this subchapter all eligible jurisdictions shall assure the participation of citizens, and neighborhood and community organizations, in the application process. No grant may be made pursuant to this subchapter unless the eligible jurisdiction has provided satisfactory assurances to the Administration that the applicant has—

(1) provided citizens and neighborhood and community organizations with adequate information concerning the amounts of funds available for proposed programs or projects under this chapter, the range of activities that may be undertaken, and other important program requirements;

(2) provided citizens and neighborhood and community organizations an opportunity to consider and comment on priorities set forth in the application or amendments;

(3) provided for full and adequate participation of units of local government in the performance of the analysis and the establishment of priorities required by subsection (b)(1)(A) of this section; and

(4) provided an opportunity for all affected criminal justice agencies to consider and comment on the proposed programs to be set forth in the application or amendments.

The Administrator, in cooperation with the Office of Community Anti-Crime Programs, may establish such rules, regulations, and procedures as are necessary to assure that citizens and neighborhood and community organizations will be assured an opportunity to participate in the application process.

(2) an indication of how the programs relate to other similar State or local programs directed at the same or similar problems;

(3) an assurance that following the first fiscal year covered by an application and each fiscal year thereafter, the applicant shall submit to the Administration, where the applicant is a State, and to the council where the applicant is a State agency, the judicial coordinating committees, a nongovernmental grantee, or a unit or combination of units of local government—

(5) an assurance where the applicant is a State, or unit or combination of units of local government that there is an adequate share of funds for courts and for corrections, police, prosecution, and defense programs;

Such certification shall be made in a form acceptable to the Administration and shall be executed by the chief executive officer or other officer of the applicant qualified under regulations promulgated by the Administration; and

(9) satisfactory assurances that equipment, whose purchase was previously made in connection with a program or project in such State assisted under this chapter and whose cost in the aggregate was $100,000 or more, has been put into use not later than one year after the date set at the time of purchase for the commencement of such use and has continued in use during its useful life.

(b) Crime analysis requirement

Applications from judicial coordinating committees, State agencies, and other nongovernmental grantees do not have to include the crime analysis required by subsection (a)(1) of this section but may rely on the crime analysis prepared by the council.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 3713, 3742, 3744, 3745, 3782 of this title.

§ 3744. Review of applications

(a) Administration determinations which are prerequisite to providing of assistance

The Administration shall provide financial assistance to each State applicant under this subchapter to carry out the programs or projects submitted by such applicant upon determining that—

(1) the application or amendment thereof is consistent with the requirements of this chapter;

(2) the application or amendment thereof was made public prior to submission to the

Administration and an opportunity to comment thereon was provided to citizens and neighborhood and community groups; and

(3) prior to the approval of the application or amendment thereof the Administration has made an affirmative finding in writing that the program or project is likely to contribute effectively to the achievement of the objectives of section 3741 of this title.

Each application or amendment made and submitted for approval to the Administration pursuant to section 3743 of this title shall be deemed approved, in whole or in part, by the Administration within ninety days after first received unless the Administration informs the applicant of specific reasons for disapproval.

(b) Failure to conform to requirements or statutory objectives; suspension of funding

The Administration shall suspend funding for an approved application in whole or in part if such application contains a program or project which has failed to conform to the requirements or statutory objectives of this Act as evidenced by—

(1) the annual performance reports submitted to the Administration by the applicant pursuant to section 3782(b) of this title;

(2) the failure of the applicant to submit annual performance reports pursuant to section 3743 of this title;

(3) evaluations conducted pursuant to section 3782(b) of this title;

(4) evaluations and other information provided by the National Institute of Justice.

The Administration may make appropriate adjustments in the amounts of grants in accordance with its findings pursuant to this subsection.

(c) Prohibited uses of grant funds

Grant funds awarded under this subchapter shall not be used for—

(1) the purchase of equipment or hardware except as provided in section 3712(7) of this title, or the payment of personnel costs, unless the cost of such purchases or payments is incurred as an incidental and necessary part of a program of proven effectiveness, a program having a record of proven success, or a program offering high probability of improving the functioning of the criminal justice system (including bulletproof vests). In determining whether to apply this limitation, consideration must be given to the extent of prior funding from any sources in that jurisdiction for substantially similar activities;

(2) programs which have as their primary purpose general salary payments for employees or classes of employees within an eligible jurisdiction, except for the compensation of personnel for time engaged in conducting or undergoing training programs or the compensation of personnel engaged in research, development, demonstration, or short-term programs;

(3) construction projects; or

(4) programs or projects which, based upon evaluations by the National Institute of Justice, Law Enforcement Assistance Administration, Bureau of Justice Statistics, State or local agencies, and other public or private organizations, have been demonstrated to offer a low probability of improving the functioning of the criminal justice system. Such programs must be formally identified by a notice in the Federal Register after opportunity for comment.

(d) Notice and opportunity for hearing

The Administration shall not finally disapprove any application submitted to the Administrator under this subchapter, or any amendments thereof, without first affording the applicant reasonable notice and opportunity for a hearing and appeal pursuant to section 3783 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 3742, 3782, 3797 of this title.

§ 3745. Allocation and distribution of funds

(a) Allocation schedule

Of the total amount appropriated for subchapters IV, V, and VI of this chapter in any fiscal year, 80 per centum shall be set aside for this subchapter and allocated to States, units of local government, and combinations of such units as follows:

(1) The sum of $300,000 to each of the participating States as defined in section 3742(a)(1) of this title and the balance according to one of the following two formulas, whichever formula results in the larger amount:

(A) Of the remaining amount to be allocated pursuant to this subchapter:

(i) 25 per centum shall be allocated in proportion to the relative population within the State as compared to the population in all States;

(ii) 25 per centum shall be allocated in proportion to the relative number of index crimes (as documented by the Department of Justice) reported within the State as compared to such numbers in all States;

(iii) 25 per centum shall be allocated in proportion to the relative amount of total State and local criminal justice expenditures within the State as compared to such amounts in all States; and

(iv) 25 per centum shall be allocated in proportion to the relative population within the State, weighted by the share of State personal income paid in State and local taxes, as compared to such weighted populations in all States; or

(B) The remaining amount to be allocated pursuant to this subchapter shall be allocated in proportion to the relative population within the State as compared to the population, in all States;

except that no State which receives financial assistance pursuant to subparagraph (A) shall receive an amount in excess of 110 per centum of that amount available to a State pursuant to subparagraph (B). Formula allocations under this section shall utilize relative population data only for the Virgin Islands, Guam, American Samoa, the Trust Territory of the Pacific Islands, and the Commonwealth of the Northern Mariana Islands.

(2) If the fund allocation to each of the States pursuant to paragraph (1) results in a total amount in excess of the amount appropriated for the purposes of this subchapter, additional funds shall be allocated by the Administration from subchapters V or VI of this chapter to the States for purposes consistent with those subchapters so that the total amount equals the total amount allocated under paragraph (1). No State shall receive an allocation pursuant to paragraph (1) which is less than the block grant allocation received by such State for fiscal year 1979 pursuant to subchapters III and V of this chapter, except that if the total amount appropriated for this subchapter for any fiscal year subsequent to fiscal year 1979 is less than the total block grant appropriation for subchapters III and V of this chapter during fiscal year 1979, the States shall receive an allocation in accordance with paragraph (1)(B).

(3) From the amount made available to each State pursuant to paragraphs (1) and (2), the Administration shall determine basic allocations to be made available to the State, to eligible jurisdictions as defined in section 3742(a)(2), (3), or (4) of this title and to eligible jurisdictions as defined in section 3742(a)(5) of this title. Such allocations shall be determined—

(A) by distributing 70 per centum of available funds allocated under paragraphs (1) and (2) to the State and those eligible units of local government within the State as defined in section 3742(a) of this title in a proportion equal to their own respective share of total State and local criminal justice expenditures; and

(B) by dividing the remaining 30 per centum of available funds allocated under paragraphs (1) and (2) and distributing to the State and to those eligible units of local government within the State as defined in section 3742(a) of this title, in four equal shares in amounts determined as follows:

(i) for combating crime as specified in section 3741(a) of this title, a proportion of the available funds equal to their own respective share of total State and local expenditures for police services from all sources;

(ii) for improving court administration as specified in section 3741(a) of this title, a proportion of the available funds equal to their own respective share of total State and local expenditures for judicial, legal, and prosecutive, and public defense services from all sources;

(iii) for improving correctional services as specified in section 3741(a) of this title, a proportion of the available funds equal to their own respective share of total State and local expenditures for correctional services from all sources; and

(iv) for devising effective alternatives to the criminal justice system as specified in section 3741(a) of this title[1] a proportion of the available funds equal to their own respective share of total State and local expenditures from all sources.

(4) All allocations under paragraph (3) shall be based upon the most accurate and complete data available for such fiscal year or for the most recent fiscal year for which accurate data are available. Eligible jurisdictions as defined in section 3742(a)(4) of this title may not receive an allocation based upon the population of eligible cities and counties as defined in section 3742(a)(2), (3), and (5) of this title unless such cities and counties participate in activities under this chapter as part of a combination of units of local government as defined in section 3742(a)(4) of this title. In determining allocations for the eligible units as defined in section 3742(a) of this title, an aggregate allocation may be utilized where eligible jurisdictions as defined in section 3742(a) of this title combine to meet the population requirements of section 3742(a)(4) of this title.

(5) The amount made available pursuant to paragraph (3) to eligible units of local government within each State, as defined in section 3742(a)(5) of this title, and to eligible jurisdictions, as defined in section 3742(a)(2), (3), or (5) of this title which choose not to combine pursuant to section 3742(a)(4) of this title and choose not to exercise the powers of section 3742(c) of this title, shall be reserved and set aside in a special discretionary fund for use by the council pursuant to section 3742 of this title, in making grants (in addition to any other grants which may be made under this chapter to the same entities or for the same purposes) to such units of local government or combinations thereof. The council shall allocate such funds among such local units of government or combinations thereof which make application pursuant to section 3743 of this title, according to the criteria of this chapter and on the terms and conditions established by such council at its discretion. If in a particular State, there are no eligible units of local government, as defined in section 3742(a)(2), (3), or (4) of this title, the amount otherwise reserved and set aside in the special discretionary fund shall consist of the entire amount made available to local units of government, pursuant to this section.

---

[1] So in original. Probably should be followed by a comma.

(b) Advisory review of general goals, priorities, and policies by State legislatures

At the request of the State legislature while in session or a body designated to act while the legislature is not in session, general goals, priorities, and policies of the council shall be submitted to the legislature for an advisory review prior to its implementation by the council. In this review the general criminal justice goals, priorities, and policies that have been developed pursuant to this subchapter shall be considered. If the legislature or the interim body has not reviewed such matters forty-five days after receipt, such matters shall then be deemed reviewed.

(c) Other programs

No award of funds that are allocated to the States, units of local government, or combinations thereof under this subchapter shall be made with respect to a program other than a program contained in an approved application.

(d) Reallocation of funds

If the Administration determines, on the basis of information available to it during any fiscal year, that a portion of the funds allocated to a State, unit of local government, or combination thereof for that fiscal year will not be required, or that the State, unit of local government, or combination thereof will be unable to qualify or receive funds under the requirements of this subchapter, such funds shall be available for reallocation to the States, or other units of local government and combinations thereof within such State, as the Administration may determine in its discretion, but all States shall be considered equally for reallocated funds.

(e) Private nonprofit organizations

A State may award funds from the State allocation to private nonprofit organizations. Eligible jurisdictions as defined in section 3742(a)(2) through (5) of this title may utilize the services of private nonprofit organizations for purposes consistent with this chapter.

(f) Formula grants under Juvenile Justice and Delinquency Prevention Act of 1974

In order to receive formula grants under the Juvenile Justice and Delinquency Prevention Act of 1974, as amended [42 U.S.C. 5601 et seq.], a State shall submit a plan for carrying out the purposes of that Act in accordance with the provisions of this chapter and section 223 of that Act [42 U.S.C. 5633]. Such plan may at the direction of the Administrator be incorporated into the State application to be submitted under this subchapter.

(g) Regional planning bodies

Eligible jurisdictions which choose to utilize regional planning units may utilize the boundaries and organization of existing general purpose regional planning bodies within the State.

§ 3755. Criteria for award

(a) Establishment of reasonable requirements

The Administration shall, after appropriate consultation with representatives of State and local governments and representatives of the various components of the justice system at all levels of government, establish reasonable requirements consistent with this subchapter for the award of national priority grants. Procedures for awards of national priority grants shall be published in the Federal Register and no national priority grant shall be made in a manner inconsistent with these procedures. The Administration in determining whether to award a priority grant to an eligible jurisdiction shall give consideration to the criminal justice needs and efforts of eligible jurisdictions, to the need for continuing programs which would not otherwise be continued because of the lack of adequate subchapter IV of this chapter funds, and to the degree to which an eligible jurisdiction has expended or proposes to expend funds from subchapter IV of this chapter or other sources of funds, including other Federal grants, for priority programs and projects. No jurisdiction shall be denied a priority grant solely on the basis of its population.

(b) Maximum per centum of grant funds

Grants under this subchapter may be made in an amount equal to 50 per centum of the cost of the priority program or project for which such grant is made except allocations made pursuant to section 3745(a)(2) of this title, which may be made in an amount equal to 100 per centum of the cost of the funded program. The remaining costs may be provided from subchapter IV of this chapter funds or from any other source of funds, including other Federal grants, available to the eligible jurisdiction. The Administration may provide technical assistance to any priority program or project funded under this subchapter. Technical assistance so provided may be funded in an amount equal to 100 per centum of its cost from funds set aside pursuant to this subchapter.

(c) Funds reserved or set aside but not used in the fiscal year

Amounts reserved and set aside pursuant to this subchapter in any fiscal year, but not used in such year, may be used by the Administration to provide additional financial assistance to priority programs or projects of demonstrated effectiveness in improving the functioning of the criminal justice system, notwithstanding the provisions of subsection (b) of this section.

(d) Three-year period for financial aid and assistance; extension or renewal

The Administration may provide financial aid and assistance to programs or projects under this subchapter for a period not to exceed three years. Grants made pursuant to this subchapter may be extended or renewed by the Administration for an additional period of up to two years if an evaluation of the program or project indicates that it has been effective in achieving the stated goals or offers the potential for improving the functioning of the criminal justice system. A recipient shall assume the cost of any program assisted under this subchapter after the period of Federal assistance unless the Administrator determines that the recipient is unable to assume such cost because of State or local budgetary restraints. The Administration shall assure that the problems and needs of all of the States are taken into account in distributing funds under this subchapter among the States.

If any applicant or recipient is dissatisfied with a final action with respect to section 3783, 3784, or 3789d(c)(2)(G) of this title, such applicant or recipient may, within sixty days after notice of such action, file with the United States court of appeals for the circuit in which such applicant or recipient is located, or in the United States Court of Appeals for the District of Columbia, a petition for review of the action. A copy of the petition shall forthwith be transmitted by the petitioner to the Office of Justice Assistance, Research, and Statistics, the Law Enforcement Assistance Administration, the Bureau of Justice Statistics, or the National Institute of Justice, as appropriate, and the Attorney General of the United States, who shall represent the Federal Government in the litigation. The Office of Justice Assistance, Research, and Statistics, the Law Enforcement Assistance Administration, the Bureau of Justice Statistics, or the National Institute of Justice, as appropriate, shall thereupon file in the court the record of the proceeding on which the action was based, as provided in section 2112 of title 28. No objection to the action shall be considered by the court unless such objection has been urged before the Office of Justice Assistance, Research, and Statistics, the Law Enforcement Assistance Administration, the Bureau of Justice Statistics, or the National Institute of Justice, as appropriate.

(b) Determination by court of appeals: conclusiveness of findings; remand; conclusiveness of new or modified findings

The court shall have jurisdiction to affirm or modify a final action or to set it aside in whole or in part. The findings of fact by the Office of Justice Assistance, Research, and Statistics, the Law Enforcement Assistance Administration, the Bureau of Justice Statistics, or the National Institute of Justice, if supported by substantial evidence on the record considered as a whole, shall be conclusive, but the court, for good cause shown, may remand the case to the Office of Justice Assistance, Research, and Statistics, the Law Enforcement Assistance Administration, the National Institute of Justice, or the Bureau of Justice Statistics, to take additional evidence to be made part of the record. The Office of Justice Assistance, Research, and Statistics, the Law Enforcement Assistance Administration, the Bureau of Justice Statistics, or the National Institute of Justice, may thereupon make new or modified findings of fact by reason of the new evidence so taken and filed with the court and shall file such modified or new findings along with any recommendations such entity may have for the modification or setting aside of such entity's original action. All new or modified findings shall be conclusive with respect to questions of fact if supported by substantial evidence when the record as a whole is considered.

(c) Determination by court of appeals; Supreme Court review

Upon the filing of such petition, the court shall have jurisdiction to affirm the action of the Office of Justice Assistance, Research, and Statistics, the Law Enforcement Assistance Administration, the Bureau of Justice Statistics, or the National Institute of Justice, or to set it aside, in whole or in part. The judgment of the court shall be subject to review by the Supreme Court of the United States upon writ of certiorari or certifications as provided in section 1254 of title 28.

§ 3789d. Prohibition of Federal control over State and local criminal justice agencies

(a) General rule

Nothing contained in this chapter or any other Act shall be construed to authorize any department, agency, officer, or employee of the United States to exercise any direction, supervision, or control over any police force or any other criminal justice agency of any State or any political subdivision thereof.

(b) Racial imbalance requirement restriction

Notwithstanding any other provision of law, nothing contained in this chapter shall be construed to authorize the National Institute of Justice, the Bureau of Justice Statistics, or the Law Enforcement Assistance Administration—

(1) to require, or condition the availability or amount of a grant upon the adoption by an applicant or grantee under this chapter of a percentage ratio, quota system, or other program to achieve racial balance in any criminal justice agency; or

(2) to deny or discontinue a grant because of the refusal of an applicant or grantee under this chapter to adopt such a ratio, system, or other program.

(c) Discrimination prohibited; determination of discrimination; notice of violation to chief executive of State; compliance, writing, semiannual report; noncompliance, suspension of payments, effective period; resumption of payments; preliminary hearing before administrative law judge, deferral of suspension; hearing; finding of compliance or noncompliance; appeal of findings; civil action by Attorney General, injunction; private action, exhaustion of administrative remedies, attorney fees, intervention by Attorney General

(1) No person in any State shall on the ground of race, color, religion, national origin, or sex be excluded from participation in, be denied the benefits of, or be subjected to discrimination under or denied employment in connection with any programs or activity funded in whole or in part with funds made available under this chapter.

(2)(A) Whenever there has been—

(i) receipt of notice of a finding, after notice and opportunity for a hearing, by a Federal court (other than in an action brought by the Attorney General) or State court, or by a Federal or State administrative agency, to the effect that there has been a pattern or practice of discrimination in violation of paragraph (1); or

(ii) a determination after an investigation by the Office of Justice Assistance, Research, and Statistics (prior to a hearing under subparagraph (F) but including an opportunity for the State government or unit of local government to make a documentary submission regarding the allegation of discrimination with respect to such program or activity, with funds made available under this chapter) that a State government or unit of local government is not in compliance with paragraph (1);

the Office of Justice Assistance, Research, and Statistics shall, within ten days after such occurrence, notify the chief executive of the affected State, or the State in which the affected unit of local government is located, and the chief executive of such unit of local government, that such program or activity has been so found or determined not to be in compliance with paragraph (1), and shall request each chief executive, notified under this subparagraph with respect to such violation, to secure compliance. For purposes of clause (i) a finding by a Federal or State administrative agency shall be deemed rendered after notice and opportunity for a hearing if it is rendered pursuant to procedures consistent with the provisions of subchapter II of chapter 5 of title 5.

(B) In the event the chief executive secures compliance after notice pursuant to subparagraph (A), the terms and conditions with which the affected State government or unit of local government agrees to comply shall be set forth in writing and signed by the chief executive of the State, by the chief executive of such unit (in the event of a violation by a unit of local government), and by the Office of Justice Assistance, Research, and Statistics. On or prior to the effective date of the agreement, the Office of Justice Assistance, Research, and Statistics shall send a copy of the agreement to each complainant, if any, with respect to such violation. The chief executive of the State, or the chief executive of the unit (in the event of a violation by a unit of local government) shall file semiannual reports with the Office of Justice Assistance, Research, and Statistics detailing the steps taken to comply with the agreement. These reports shall cease to be filed upon the determination of the Office of Justice Assistance, Research, and Statistics that compliance has been secured, or upon the determination by a Federal or State court that such State government or local governmental unit is in compliance with this section. Within fifteen days of receipt of such reports, the Office of Justice Assistance, Research, and Statistics shall send a copy thereof to each such complainant.

(C) If, at the conclusion of ninety days after notification under subparagraph (A)—

(i) compliance has not been secured by the chief executive of that State or the chief executive of that unit of local government; and

(ii) an administrative law judge has not made a determination under subparagraph (F) that it is likely the State government or unit of local government will prevail on the merits; the Office of Justice Assistance, Research, and Statistics shall notify the Attorney General that compliance has not been secured and caused to have suspended further payment of any funds under this chapter to that program or activity. Such suspension shall be limited to the specific program or activity cited by the Office of Justice Assistance, Research, and Statistics in the notice under subparagraph (A). Such suspension shall be effective for a period of not more than one hundred and twenty days, or, if there is a hearing under subparagraph (G), not more than thirty days after the conclusion of such hearing, unless there has been an express finding by the Office of Justice Assistance, Research, and Statistics, after notice and opportunity for such a hearing, that the recipient is not in compliance with paragraph (1).

(D) Payment of the suspended funds shall resume only if—

(i) such State government or unit of local government enters into a compliance agreement approved by the Office of Justice Assistance, Research, and Statistics and the Attorney General in accordance with subparagraph (B);

(ii) such State government or unit of local government complies fully with the final order or judgment of a Federal or State court, or by a Federal or State administrative agency if that order or judgment covers all the matters raised by the Office of Justice Assistance, Research, and Statistics in the notice pursuant to subparagraph (A), or is found to be in compliance with paragraph (1) by such court; or

(iii) after a hearing the Office of Justice Assistance, Research, and Statistics pursuant to subparagraph (F) finds that noncompliance has not been demonstrated.

(E) Whenever the Attorney General files a civil action alleging a pattern or practice of discriminatory conduct on the basis of race, color, religion, national origin, or sex in any program or activity of a State government or unit of local government which State government or unit of local government receives funds made available under this chapter, and the conduct allegedly violates the provisions of this section and neither party within forty-five days after such filing has been granted such preliminary relief with regard to the suspension or payment of funds as may be otherwise available by law, the Office of Justice Assistance, Research, and Statistics shall cause to have suspended further payment of any funds under this chapter to that specific program or activity alleged by the Attorney General to be in violation of the provisions of this subsection until such time as the court orders resumption of payment.

(F) Prior to the suspension of funds under subparagraph (C), but within the ninety-day period after notification under subparagraph (C), the State government or unit of local government may request an expedited preliminary hearing on the record in accordance with section 554 of title 5, in order to determine whether it is likely that the State government or unit of local government would, at a full hearing under subparagraph (G), prevail on the merits on the issue of the alleged noncompliance. A finding under this subparagraph by the administrative law judge in favor of the State government or unit of local government shall defer the suspension of funds under subparagraph (C) pending a finding of noncompliance at the conclusion of the hearing on the merits under subparagraph (G).

(G)(i) At any time after notification under subparagraph (A), but before the conclusion of the one-hundred-and-twenty-day period referred to in subparagraph (C), a State government or unit of local government may request a hearing on the record in accordance with section 554 of title 5, which the Office of Justice Assistance, Research, and Statistics shall initiate within sixty days of such request.

(ii) Within thirty days after the conclusion of the hearing, or, in the absence of a hearing, at the conclusion of the one-hundred-and-twenty-day period referred to in subparagraph (C), the Office of Justice Assistance, Research, and Statistics shall make a finding of compliance or noncompliance. If the Office of Justice Assistance, Research, and Statistics makes a finding of noncompliance, the Office of Justice Assistance, Research, and Statistics shall notify the Attorney General in order that the Attorney General may institute a civil action under paragraph (3), cause to have terminated the payment of funds under this chapter, and, if appropriate, seek repayment of such funds.

(iii) If the Office of Justice Assistance, Research, and Statistics makes a finding of compliance, payment of the suspended funds shall resume as provided in subparagraph (D).

(H) Any State government or unit of local government aggrieved by a final determination of the Office of Justice Assistance, Research, and Statistics under subparagraph (G) may appeal such determination as provided in section 3785 of this title.

(3) Whenever the Attorney General has reason to believe that a State government or unit of local government has engaged in or is engaging in a pattern or practice in violation of the provisions of this section, the Attorney General may bring a civil action in an appropriate United States district court. Such court may grant as relief any temporary restraining order, preliminary or permanent injunction, or other order, as necessary or appropriate to insure the full enjoyment of the rights described in this section, including the suspension, termination, or repayment of such funds made available under this chapter as the court may deem appropriate, or placing any further such funds in escrow pending the outcome of the litigation.

(4)(A) Whenever a State government or unit of local government, or any officer or employee thereof acting in an official capacity, has engaged or is engaging in any act or practice prohibited by this subsection, a civil action may be instituted after exhaustion of administrative remedies by the person aggrieved in an appropriate United States district court or in a State court of general jurisdiction. Administrative remedies shall be deemed to be exhausted upon the expiration of sixty days after the date the administrative complaint was filed with the Office of Justice Assistance, Research, and Statistics or any other administrative enforcement agency, unless within such period there has been a determination by the Office of Justice Assistance, Research, and Statistics or the agency on the merits of the complaint, in which case such remedies shall be deemed exhausted at the time the determination becomes final.

(B) In any civil action brought by a private person to enforce compliance with any provision of this subsection, the court may grant to a prevailing plaintiff reasonable attorney fees, unless the court determines that the lawsuit is frivolous, vexatious, brought for harassment purposes, or brought principally for the purpose of gaining attorney fees.

(C) In any action instituted under this section to enforce compliance with paragraph (1), the Attorney General, or a specially designated assistant for or in the name of the United States, may intervene upon timely application if he certifies that the action is of general public importance. In such action the United States shall be entitled to the same relief as if it had instituted the action.

§ 4103. Purchase of insured properties damaged substantially beyond repair by flood

(a) Transfers to State or local agencies for use for prescribed period consistent with sound land management and use

The Secretary may, when he determines that the public interest would be served thereby, enter into negotiations with any owner of real property or interest therein which—

(1) was located in any flood-risk area, as determined by the Secretary,

(2) was covered by flood insurance under the flood insurance program authorized under this chapter, and

(3) incurred significant flood damage on not less than three previous occasions over a five-year period of time and on each occasion the cost of repair, on the average, equaled or exceeded 25 per centum of the value of the structure at the time of each flood event or was damaged substantially beyond repair by flood while so covered,

and may purchase such property or interests therein, for subsequent transfer, by sale, lease, donation, or otherwise, to any State or local agency which enters into an agreement with the Secretary that such property shall, for a period not less than forty years following transfer, be used for only such purposes as the Secretary may, by regulation, determine to be consistent with sound land management and use in such area.

(b) Real property purchases; single casualty damages

When any real property referred to in paragraphs (1) and (2) of subsection (a) of this section has sustained damage as a result of a single casualty of any nature under such circumstances that a statute, ordinance or regulation precludes its repair or restoration or permits repair or restoration only at a significantly increased construction cost, the Secretary may enter into negotiations with the owner of the property or interest therein for the purchase of such property for the uses and purposes of this section.

(c) Low-interest loans for single-family dwellings; authorization of appropriations

Whenever, as a result of damage from any casualty, the repair, reconstruction, or substantial improvement of any single-family dwelling structure located within a regulatory floodway and insured under the flood insurance program is deemed by the Secretary to be made more effective from the standpoint of prudent flood plain management by elevation of the structure so it will not interfere with the flow of water from the base flood within such regulatory floodway, the Secretary is authorized to make a low-interest loan at a rate of interest of 2 per centum per annum, repayable in ten years, to the owner of any such structure for the purpose of so elevating the structure. There is authorized to be appropriated for purposes of implementing this subsection not to exceed $4,500,000.

(d) Regulations

The Secretary is authorized to issue such regulations as may be necessary to carry out the purposes of this section.

There is authorized to be appropriated for purposes of implementing this subsection, not to exceed $250,000.

Ex. Ord. No. 11988, May 24, 1977, 42 F.R. 26951, as amended by Ex. Ord. No. 12148, July 20, 1979, 44 F.R. 43239, provided:

By virtue of the authority vested in me by the Constitution and statutes of the United States of America, and as President of the United States of America, in furtherance of the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 et seq.), the National Flood Insurance Act of 1968, as amended (42 U.S.C. 4001 et seq.), and the Flood Disaster Protection Act of 1973 (Public Law 93-234, 87 Stat. 975) [see Short Title of 1973 Amendment note set out under section 4001 of this title], in order to avoid to the extent possible the long and short term adverse impacts associated with the occupancy and modification of floodplains and to avoid direct or indirect support of floodplain development wherever there is a practicable alternative, it is hereby ordered as follows:

Section 1. Each agency shall provide leadership and shall take action to reduce the risk of flood loss, to minimize the impact of floods on human safety, health and welfare, and to restore and preserve the natural and beneficial values served by floodplains in carrying out its responsibilities for (1) acquiring, managing, and disposing of Federal lands and facilities; (2) providing Federally undertaken, financed, or assisted construction and improvements; and (3) conducting Federal activities and programs affecting land use, including but not limited to water and related land resources planning, regulating, and licensing activities.

Sec. 2. In carrying out the activities described in Section 1 of this Order, each agency has a responsibility to evaluate the potential effects of any actions it may take in a floodplain; to ensure that its planning programs and budget requests reflect consideration of flood hazards and floodplain management; and to prescribe procedures to implement the policies and requirements of this Order, as follows:

(a)(1) Before taking an action, each agency shall determine whether the proposed action will occur in a floodplain—for major Federal actions significantly affecting the quality of the human environment, the evaluation required below will be included in any statement prepared under Section 102(2)(C) of the National Environmental Policy Act [section 4332(2)(C) of this title]. This determination shall be made according to a Department of Housing and Urban Development (HUD) floodplain map or a more detailed map of an area, if available. If such maps are not available, the agency shall make a determination of the location of the floodplain based on the best available information. The Water Resources Council shall issue guidance on this information not later than October 1, 1977.

(2) If an agency has determined to, or proposes to, conduct, support, or allow an action to be located in a floodplain, the agency shall consider alternatives to avoid adverse effects and incompatible development in the floodplains. If the head of the agency finds that the only practicable alternative consistent with the law and with the policy set forth in this Order requires siting in a floodplain, the agency shall, prior to taking action, (i) design or modify its action in order to minimize potential harm to or within the floodplain, consistent with regulations issued in accord with Section 2(d) of this Order, and (ii) prepare and circulate a notice containing an explanation of why the action is proposed to be located in the floodplain.

(3) For programs subject to the Office of Management and Budget Circular A-95, the agency shall send the notice, not to exceed three pages in length including a location map, to the state and areawide A-95 clearinghouses for the geographic areas affected. The notice shall include: (i) the reasons why the action is proposed to be located in a floodplain; (ii) a statement indicating whether the action conforms to applicable state or local floodplain protection standards and (iii) a list of the alternatives considered. Agencies shall endeavor to allow a brief comment period prior to taking any action.

(4) Each agency shall also provide opportunity for early public review of any plans or proposals for actions in floodplains, in accordance with Section 2(b) of Executive Order No. 11514, as amended [set out as a note above], including the development of procedures to accomplish this objective for Federal actions whose impact is not significant enough to require the preparation of an environmental impact statement under Section 102(2)(C) of the National Environmental Policy Act of 1969, as amended [section 4332(2)(C) of this title].

(b) Any requests for new authorizations or appropriations transmitted to the Office of Management and Budget shall indicate, if an action to be proposed will be located in a floodplain, whether the proposed action is in accord with this Order.

(c) Each agency shall take floodplain management into account when formulating or evaluating any water and land use plans and shall require land and water resources use appropriate to the degree of hazard involved. Agencies shall include adequate provision for the evaluation and consideration of flood hazards in the regulations and operating procedures for the licenses, permits, loan or grants-in-aid programs that they administer. Agencies shall also encourage and provide appropriate guidance to applicants to evaluate the effects of their proposals in floodplains prior to submitting applications for Federal licenses, permits, loans or grants.

(d) As allowed by law, each agency shall issue or amend existing regulations and procedures within one year to comply with this Order. These procedures shall incorporate the Unified National Program for Floodplain Management of the Water Resources Council, and shall explain the means that the agency will employ to pursue the nonhazardous use of riverine, coastal and other floodplains in connection with the activities under its authority. To the extent possible, existing processes, such as those of the Council on Environmental Quality and the Water Resources Council, shall be utilized to fulfill the requirements of this Order. Agencies shall prepare their procedures in consultation with the Water Resources Council, the Director of the Federal Emergency Management Agency, and the Council on Environmental Quality, and shall update such procedures as necessary.

Sec. 3. In addition to the requirements of Section 2, agencies with responsibilities for Federal real property and facilities shall take the following measures:

(a) The regulations and procedures established under Section 2(d) of this Order shall, at a minimum, require the construction of Federal structures and facilities to be in accordance with the standards and criteria and to be consistent with the intent of those promulgated under the National Flood Insurance Program. They shall deviate only to the extent that the standards of the Flood Insurance Program are demonstrably inappropriate for a given type of structure or facility.

(b) If, after compliance with the requirements of this Order, new construction of structures or facilities are to be located in a floodplain, accepted floodproofing and other flood protection measures shall be applied to new construction or rehabilitation. To achieve flood protection, agencies shall, wherever practicable, elevate structures above the base flood level rather than filling in land.

(c) If property used by the general public has suffered flood damage or is located in an identified flood hazard area, the responsible agency shall provide on structures, and other places where appropriate, conspicuous delineation of past and probable flood height in order to enhance public awareness of and knowledge about flood hazards.

(d) When property in floodplains is proposed for lease, easement, right-of-way, or disposal to non-Federal public or private parties, the Federal agency shall (1) reference in the conveyance those uses that are restricted under identified Federal, State or local floodplain regulations; and (2) attach other appropriate restrictions to the uses of properties by the grantee or purchaser and any successors, except where prohibited by law; or (3) withhold such properties from conveyance.

Sec. 4. In addition to any responsibilities under this Order and Sections 202 and 205 of the Flood Disaster Protection Act of 1973, as amended (42 U.S.C. 4106 and 4128), agencies which guarantee, approve, regulate, or insure any financial transaction which is related to an area located in a floodplain shall, prior to completing action on such transaction, inform any private parties participating in the transaction of the hazards of locating structures in the floodplain.

Sec. 5. The head of each agency shall submit a report to the Council on Environmental Quality and to the Water Resources Council on June 30, 1978, regarding the status of their procedures and the impact of this Order on the agency's operations. Thereafter, the Water Resources Council shall periodically evaluate agency procedures and their effectiveness.

Sec. 6. As used in this Order:

(a) The term "agency" shall have the same meaning as the term "Executive agency" in Section 105 of Title 5 of the United States Code and shall include the military departments; the directives contained in this Order, however, are meant to apply only to those agencies which perform the activities described in Section 1 which are located in or affecting floodplains.

(b) The term "base flood" shall mean that flood which has a one percent or greater chance of occurrence in any given year.

(c) The term "floodplain" shall mean the lowland and relatively flat areas adjoining inland and coastal waters including floodprone areas of offshore islands, including at a minimum, that area subject to a one percent or greater chance of flooding in any given year.

Sec. 7. Executive Order No. 11296 of August 10, 1966, is hereby revoked. All actions, procedures, and issuances taken under that Order and still in effect shall remain in effect until modified by appropriate authority under the terms of this Order.

SEC. 8. Nothing in this Order shall apply to assistance provided for emergency work essential to save lives and protect property and public health and safety, performed pursuant to Sections 305 and 306 of the Disaster Relief Act of 1974 (88 Stat. 148, 42 U.S.C. 5145 and 5146).

SEC. 9. To the extent the provisions of Section 2(a) of this Order are applicable to projects covered by Section 104(h) of the Housing and Community Development Act of 1974, as amended (88 Stat. 640, 42 U.S.C. 5304(h)), the responsibilities under those provisions may be assumed by the appropriate applicant, if the applicant has also assumed, with respect to such projects, all of the responsibilities for environmental review, decisionmaking, and action pursuant to the National Environmental Policy Act of 1969, as amended [this chapter].

EX. ORD. NO. 11990. PROTECTION OF WETLANDS

Ex. Ord. No. 11990, May 24, 1977, 42 F.R. 26961, provided:

By virtue of the authority vested in me by the Constitution and statutes of the United States of America, and as President of the United States of America, in furtherance of the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321 *et seq.*), in order to avoid to the extent possible the long and short term adverse impacts associated with the destruction or modification of wetlands and to avoid direct or indirect support of new construction in wetlands wherever there is a practicable alternative, it is hereby ordered as follows:

SECTION 1. (a) Each agency shall provide leadership and shall take action to minimize the destruction, loss or degradation of wetlands, and to preserve and enhance the natural and beneficial values of wetlands in carrying out the agency's responsibilities for (1) acquiring, managing, and disposing of Federal lands and facilities; and (2) providing Federally undertaken, financed, or assisted construction and improvements; and (3) conducting Federal activities and programs affecting land use, including but not limited to water and related land resources planning, regulating, and licensing activities.

(b) This Order does not apply to the issuance by Federal agencies of permits, licenses, or allocations to private parties for activities involving wetlands on non-Federal property.

SEC. 2. (a) In furtherance of Section 101(b)(3) of the National Environmental Policy Act of 1969 (42 U.S.C. 4331(b)(3)) to improve and coordinate Federal plans, functions, programs and resources to the end that the Nation may attain the widest range of beneficial uses of the environment without degradation and risk to health or safety, each agency, to the extent permitted by law, shall avoid undertaking or providing assistance for new construction located in wetlands unless the head of the agency finds (1) that there is no practicable alternative to such construction, and (2) that the proposed action includes all practicable measures to minimize harm to wetlands which may result from such use. In making this finding the head of the agency may take into account economic, environmental and other pertinent factors.

(b) Each agency shall also provide opportunity for early public review of any plans or proposals for new construction in wetlands, in accordance with Section 2(b) of Executive Order No. 11514, as amended [set out as a note above], including the development of procedures to accomplish this objective for Federal actions whose impact is not significant enough to require the preparation of an environmental impact statement under Section 102(2)(C) of the National Environmental Policy Act of 1969, as amended [section 4332(2)(C) of this title].

SEC. 3. Any requests for new authorizations or appropriations transmitted to the Office of Management and Budget shall indicate, if an action to be proposed will be located in wetlands, whether the proposed action is in accord with this Order.

SEC. 4. When Federally-owned wetlands or portions of wetlands are proposed for lease, easement, right-of-way or disposal to non-Federal public or private parties, the Federal agency shall (a) reference in the conveyance those uses that are restricted under identified Federal, State or local wetlands regulations; and (b) attach other appropriate restrictions to the uses of properties by the grantee or purchaser and any successor, except where prohibited by law; or (c) withhold such properties from disposal.

SEC. 5. In carrying out the activities described in Section 1 of this Order, each agency shall consider factors relevant to a proposal's effect on the survival and quality of the wetlands. Among these factors are:

(a) public health, safety, and welfare, including water supply, quality, recharge and discharge; pollution; flood and storm hazards; and sediment and erosion;

(b) maintenance of natural systems, including conservation and long term productivity of existing flora and fauna, species and habitat diversity and stability, hydrologic utility, fish, wildlife, timber, and food and fiber resources; and

(c) other uses of wetlands in the public interest, including recreational, scientific, and cultural uses.

SEC. 6. As allowed by law, agencies shall issue or amend their existing procedures in order to comply with this Order. To the extent possible, existing processes, such as those of the Council on Environmental Quality and the Water Resources Council, shall be utilized to fulfill the requirements of this Order.

SEC. 7. As used in this Order:

(a) The term "agency" shall have the same meaning as the term "Executive agency" in Section 105 of Title 5 of the United States Code and shall include the military departments; the directives contained in this Order, however, are meant to apply only to those agencies which perform the activities described in Section 1 which are located in or affecting wetlands.

(b) The term "new construction" shall include draining, dredging, channelizing, filling, diking, impounding, and related activities and any structures or facilities begun or authorized after the effective date of this Order.

(c) The term "wetlands" means those areas that are inundated by surface or ground water with a frequency sufficient to support and under normal circumstances does or would support a prevalence of vegetative or aquatic life that requires saturated or seasonally saturated soil conditions for growth and reproduction. Wetlands generally include swamps, marshes, bogs, and similar areas such as sloughs, potholes, wet meadows, river overflows, mud flats, and natural ponds.

SEC. 8. This Order does not apply to projects presently under construction, or to projects for which all of the funds have been appropriated through Fiscal Year 1977, or to projects and programs for which a draft or final environmental impact statement will be filed prior to October 1, 1977. The provisions of Section 2 of this Order shall be implemented by each agency not later than October 1, 1977.

SEC. 9. Nothing in this Order shall apply to assistance provided for emergency work, essential to save lives and protect property and public health and safety, performed pursuant to Sections 305 and 306 of the Disaster Relief Act of 1974 (88 Stat. 148, 42 U.S.C. 5145 and 5146).

SEC. 10. To the extent the provisions of Sections 2 and 5 of this Order are applicable to projects covered by Section 104(h) of the Housing and Community Development Act of 1974, as amended (88 Stat. 640, 42 U.S.C. 5304(h)), the responsibilities under those provisions may be assumed by the appropriate applicant, if the applicant has also assumed, with respect to such projects, all of the responsibilities for environmental review, decisionmaking, and action pursuant to the National Environmental Policy Act of 1969, as amended [this chapter].

Ex. Ord. No. 12114. Environmental Effects Abroad of Major Federal Actions

Ex. Ord. No. 12114, Jan. 4, 1979, 44 F.R. 1957, provided:

By virtue of the authority vested in me by the Constitution and the laws of the United States, and as President of the United States, in order to further environmental objectives consistent with the foreign policy and national security policy of the United States, it is ordered as follows:

Section 1

1-1. *Purpose and Scope.* The purpose of this Executive Order is to enable responsible officials of Federal agencies having ultimate responsibility for authorizing and approving actions encompassed by this Order to be informed of pertinent environmental considerations and to take such considerations into account, with other pertinent considerations of national policy, in making decisions regarding such actions. While based on independent authority, this Order furthers the purpose of the National Environmental Policy Act [this chapter] and the Marine Protection Research and Sanctuaries Act [section 1431 et seq. of Title 16, Conservation, and section 1401 et seq. of Title 33, Navigation and Navigable Waters] and the Deepwater Port Act [section 1501 et seq. of Title 33, Navigation and Navigable Waters] consistent with the foreign policy and national security policy of the United States, and represents the United States government's exclusive and complete determination of the procedural and other actions to be taken by Federal agencies to further the purpose of the National Environmental Policy Act [this chapter], with respect to the environment outside the United States, its territories and possessions.

Section 2

2-1. *Agency Procedures.* Every Federal agency taking major Federal actions encompassed hereby and not exempted herefrom having significant effects on the environment outside the geographical borders of the United States and its territories and possessions shall within eight months after the effective date of this Order have in effect procedures to implement this Order. Agencies shall consult with the Department of State and the Council on Environmental Quality concerning such procedures prior to placing them in effect.

2-2. *Information Exchange.* To assist in effectuating the foregoing purpose, the Department of State and the Council on Environmental Quality in collaboration with other interested Federal agencies and other nations shall conduct a program for exchange on a continuing basis of information concerning the environment. The objectives of this program shall be to provide information for use by decisionmakers, to heighten awareness of and interest in environmental concerns and, as appropriate, to facilitate environmental cooperation with foreign nations.

2-3. *Actions Included.* Agencies in their procedures under Section 2-1 shall establish procedures by which their officers having ultimate responsibility for authorizing and approving actions in one of the following categories encompassed by this Order, take into consideration in making decisions concerning such actions, a document described in Section 2-4(a):

(a) major Federal actions significantly affecting the environment of the global commons outside the jurisdiction of any nation (e.g., the oceans or Antarctica);

(b) major Federal actions significantly affecting the environment of a foreign nation not participating with the United States and not otherwise involved in the action;

(c) major Federal actions significantly affecting the environment of a foreign nation which provide to that nation:

(1) a product, or physical project producing a principal product or an emission or effluent, which is prohibited or strictly regulated by Federal law in the United States because its toxic effects on the environment create a serious public health risk; or

(2) a physical project which in the United States is prohibited or strictly regulated by Federal law to protect the environment against radioactive substances.

(d) major Federal actions outside the United States, its territories and possessions which significantly affect natural or ecological resources of global importance designated for protection under this subsection by the President, or, in the case of such a resource protected by international agreement binding on the United States, by the Secretary of State. Recommendations to the President under this subsection shall be accompanied by the views of the Council on Environmental Quality and the Secretary of State.

2-4. *Applicable Procedures.* (a) There are the following types of documents to be used in connection with actions described in Section 2-3:

(i) environmental impact statements (including generic, program and specific statements);

(ii) bilateral or multilateral environmental studies, relevant or related to the proposed action, by the United States and one more foreign nations, or by an international body or organization in which the United States is a member or participant; or

(iii) concise reviews of the environmental issues involved, including environmental assessments, summary environmental analyses or other appropriate documents.

(b) Agencies shall in their procedures provide for preparation of documents described in Section 2-4(a), with respect to actions described in Section 2-3, as follows:

(i) for effects described in Section 2-3(a), an environmental impact statement described in Section 2-4(a)(i);

(ii) for effects described in Section 2-3(b), a document described in Section 2-4(a)(ii) or (iii), as determined by the agency;

(iii) for effects described in Section 2-3(c), a document described in Section 2-4(a)(ii) or (iii), as determined by the agency;

(iv) for effects described in Section 2-3(d), a document described in Section 2-4(a)(i), (ii) or (iii), as determined by the agency.

Such procedures may provide that an agency need not prepare a new document when a document described in Section 2-4(a) already exists.

(c) Nothing in this Order shall serve to invalidate any existing regulations of any agency which have been adopted pursuant to court order or pursuant to judicial settlement of any case or to prevent any agency from providing in its procedures for measures in addition to those provided for herein to further the purpose of the National Environmental Policy Act [this chapter] and other environmental laws, including the Marine Protection Research and Sanctuaries

Act [section 1431 et seq. of Title 16, Conservation, and section 1401 et seq. of Title 33, Navigation and Navigable Waters], and the Deepwater Port Act [section 1501 et seq. of Title 33, Navigation and Navigable Waters], consistent with the foreign and national security policies of the United States.

(d) Except as provided in Section 2-5(b), agencies taking action encompassed by this Order shall, as soon as feasible, inform other Federal agencies with relevant expertise of the availability of environmental documents prepared under this Order.

Agencies in their procedures under Section 2-1 shall make appropriate provision for determining when an affected nation shall be informed in accordance with Section 3-2 of this Order of the availability of environmental documents prepared pursuant to those procedures.

In order to avoid duplication of resources, agencies in their procedures shall provide for appropriate utilization of the resources of other Federal agencies with relevant environmental jurisdiction or expertise.

2-5. *Exemptions and Considerations.* (a) Notwithstanding Section 2-3, the following actions are exempt from this Order:

(i) actions not having a significant effect on the environment outside the United States as determined by the agency;

(ii) actions taken by the President;

(iii) actions taken by or pursuant to the direction of the President or Cabinet officer when the national security or interest is involved or when the action occurs in the course of an armed conflict;

(iv) intelligence activities and arms transfers;

(v) export licenses or permits or export approvals, and actions relating to nuclear activities except actions providing to a foreign nation a nuclear production or utilization facility as defined in the Atomic Energy Act of 1954 [section 2011 et seq. of this title], as amended, or a nuclear waste management facility;

(vi) votes and other actions in international conferences and organizations;

(vii) disaster and emergency relief action.

(b) Agency procedures under Section 2-1 implementing Section 2-4 may provide for appropriate modifications in the contents, timing and availability of documents to other affected Federal agencies and affected nations, where necessary to:

(i) enable the agency to decide and act promptly as and when required;

(ii) avoid adverse impacts on foreign relations or infringement in fact or appearance of other nations' sovereign responsibilities, or

(iii) ensure appropriate reflection of:

(1) diplomatic factors;

(2) international commercial, competitive and export promotion factors;

(3) needs for governmental or commercial confidentiality;

(4) national security considerations;

(5) difficulties of obtaining information and agency ability to analyze meaningfully environmental effects of a proposed action; and

(6) the degree to which the agency is involved in or able to affect a decision to be made.

(c) Agency procedure under Section 2-1 may provide for categorical exclusions and for such exemptions in addition to those specified in subsection (a) of this Section as may be necessary to meet emergency circumstances, situations involving exceptional foreign policy and national security sensitivities and other such special circumstances. In utilizing such additional exemptions agencies shall, as soon as feasible, consult with the Department of State and the Council on Environmental Quality.

(d) The provisions of Section 2-5 do not apply to actions described in Section 2-3(a) unless permitted by law.

SECTION 3

3-1. *Rights of Action.* This Order is solely for the purpose of establishing internal procedures for Federal agencies to consider the significant effects of their actions on the environment outside the United States, its territories and possessions, and nothing in this Order shall be construed to create a cause of action.

3-2. *Foreign Relations.* The Department of State shall coordinate all communications by agencies with foreign governments concerning environmental agreements and other arrangements in implementation of this Order.

3-3. *Multi-Agency Actions.* Where more than one Federal agency is involved in an action or program, a lead agency, as determined by the agencies involved, shall have responsibility for implementation of this Order.

3-5. *Multiple Impacts.* If a major Federal action having effects on the environment of the United States or the global commons requires preparation of an environmental impact statement, and if the action also has effects on the environment of a foreign nation, an environmental impact statement need not be prepared with respect to the effects on the environment of the foreign nation.

PART A—DEVELOPMENT OF A NATIONAL URBAN POLICY

§ 4502. Congressional findings and declaration of policy

(a) The Congress finds that rapid changes in patterns of urban settlement, including change in population distribution and economic bases of urban areas, have created an imbalance between the Nation's needs and resources and seriously threaten our physical and social environment, and the financial viability of our cities, and that the economic and social development of the Nation, the proper conservation of our energy and other natural resources, and the achievement of satisfactory living standards depend upon the sound, orderly, and more balanced development of all areas of the Nation.

(b) The Congress further finds that Federal programs affect the location of population, economic growth, and the character of urban development; that such programs frequently conflict and result in undesirable and costly patterns of urban development and redevelopment which adversely affect the environment and wastefully use energy and other natural resources; and that existing and future programs must be interrelated and coordinated within a system of orderly development and established priorities consistent with a national urban policy.

(c) To promote the general welfare and properly apply the resources of the Federal Government in strengthening the economic and social health of all areas of the Nation and more adequately protect the physical environment and conserve energy and other natural resources, the Congress declares that the Federal Government, consistent with the responsibilities of State and local government and the private sector, must assume responsibility for the development of a national urban policy which shall incorporate social, economic, and other appropriate factors. Such policy shall serve as a guide in making specific decisions at the national level which affect the pattern of urban development and redevelopment and shall provide a framework for development of interstate, State, and local urban policy.

(d) The Congress further declares that the national urban policy should—

(3) encourage patterns of development and redevelopment which minimize disparities among States, regions, and cities;

(1) Any regulation prescribed under subsection (a) or (b) of this section (and any revision thereof) respecting a product shall include a noise emission standard which shall set limits on noise emissions from such product and shall be a standard which in the Administrator's judgment, based on criteria published under section 4904 of this title, is requisite to protect the public health and welfare, taking into account the magnitude and conditions of use of such product (alone or in combination with other noise sources), the degree of noise reduction achievable through the application of the best available technology, and the cost of compliance. In establishing such a standard for any product, the Administrator shall give appropriate consideration to standards under other laws designed to safeguard the health and welfare of persons, including any standards under the National Traffic and Motor Vehicle Safety Act of 1966 [15 U.S.C. 1381 et seq.], the Clean Air Act [42 U.S.C. 7401 et seq.], and the Federal Water Pollution Control Act [33 U.S.C. 1251 et seq.]. SUBCHAPTER II—ADOPTION OPPORTUNITIES [NEW]

§ 5111. Congressional findings and declaration of purpose

The Congress hereby finds that many thousands of children remain in institutions or foster homes solely because of legal and other barriers to their placement in permanent, adoptive homes; that the majority of such children are of school age, handicapped, or both; that adoption may be the best alternative for assuring the healthy development of such children; that there are qualified persons seeking to adopt such children who are unable to do so because of barriers to their placement; and that, in order both to enhance the stability and love of the child's home environment and to avoid wasteful expenditures of public funds, such children should not be maintained in foster care or institutions when adoption is appropriate and families for them can be found. It is, therefore, the purpose of this subchapter to facilitate the elimination of barriers to adoption and to provide permanent and loving home environments for children who would benefit by adoption, particularly children with special needs by—

(1) promoting the establishment of model adoption legislation and procedures in the States and territories of the United States in order to eliminate jurisdictional and legal obstacles to adoption; and

(2) providing a mechanism for the Department of Health, Education, and Welfare to (A) promote quality standards for adoption services (including pre-placement, post-placement, and post-adoption counseling and standards to protect the rights of children in need of adoption), and (B) provide for a national adoption and foster care information data gathering and analysis system and a national adoption information exchange system to bring together children who would benefit by adoption and qualified prospective adoptive parents who are seeking such children.

(Pub. L. 95-266, title II, § 201, Apr. 24, 1978, 92 Stat. 208.)

Change of Name

The Department of Health, Education, and Welfare was redesignated the Department of Health and Human Services by section 3508 of Title 20, Education.

§ 5112. Model adoption legislation and procedures

(a) Issuance and publication of proposals based on recommendations of panel; comments by interested individuals, etc., and consultations; issuance and publication of final version; prohibition against conflict with interstate compacts

Not later than eighteen months after April 24, 1978, the Secretary of Health, Education, and Welfare (hereinafter referred to as the "Secretary") shall issue, based on the recommendations of the panel described in subsection (b) of this section, proposed model adoption legislation and procedures and publish such proposal in the Federal Register for comment. After soliciting and giving due consideration to the comments of interested individuals, groups, and organizations and consulting further with such panel, the Secretary shall issue and publish model adoption legislation and procedures which shall not conflict with the provisions of any interstate compact in operation pursuant to which States are making, supervising, or regulating placements of children.

(b) Panel; appointment, membership, functions, etc.

(1) Not later than ninety days after April 24, 1978, the Secretary shall appoint a panel (hereinafter referred to as the "panel") to be composed of not less than eleven nor more than seventeen members generally representative of public and voluntary organizations, agencies, and persons interested and with expertise and experience in facilitating the achievement of the purposes of this subchapter (including, but not limited to, national, State, and local child welfare organizations, including those representative of minorities, and adoptive parent organizations). The panel shall (A) review current conditions, practices, and laws relating to adoption, with special reference to their effect on facilitating or impeding the location of suitable adoptive homes for children who would benefit by adoption and the completion of suitable adoptions for such children; and (B) not later than twelve months after the date on which the members of the panel have been appointed, propose to the Secretary model (including adoption assistance agreement) legislation and procedures relating to adoption designed to facilitate adoption by families of all economic levels.

(2) The panel shall be terminated thirty days after the Secretary publishes the final model legislation and procedures pursuant to subsection (a) of this section.

(3) Members of the panel, other than those regularly employed by the Federal Government, while serving on business of the panel shall be entitled to receive compensation at a rate not in excess of the daily equivalent of the rate payable to a GS-18 employee under section 5322 [1] of title 5, including traveltime; and, while so serving away from their homes or regular places of business, they may be allowed travel expenses (including per diem in lieu of subsistence) as authorized by section 5703 of such title for persons in the Government service employed intermittently.

(c) Encouragement and facilitation of enactment of comprehensive adoption assistance legislation and establishment of model provisions

The Secretary shall take such steps as he or she deems necessary to encourage and facilitate the enactment in each State of comprehensive adoption assistance legislation and the establishment in each State of the model legislation and procedures published pursuant to subsection (a) of this section.

[*See main edition for text of* (*a*) *and* (*b*)]

(c) Decent housing, suitable living environment, and economic opportunities for persons of low and moderate income; community development activities which may be supported by Federal assistance

The primary objective of this chapter is the development of viable urban communities, by providing decent housing and a suitable living environment and expanding economic opportunities, principally for persons of low and moderate income. Consistent with this primary objective, the Federal assistance provided in this chapter is for the support of community development activities which are directed toward the following specific objectives—

[*See main edition for text of* (*1*) *to* (*5*)]

(6) the reduction of the isolation of income groups within communities and geographical areas and the promotion of an increase in the diversity and vitality of neighborhoods through the spatial deconcentration of housing opportunities for persons of lower income and the revitalization of deteriorating or deteriorated neighborhoods to attract persons of higher income;

(7) the restoration and preservation of properties of special value for historic, architectural, or esthetic reasons; and

(8) the alleviation of physical and economic distress through the stimulation of private investment and community revitalization in areas with population outmigration or a stagnating or declining tax base.

It is the intent of Congress that the Federal assistance made available under this chapter not be utilized to reduce substantially the amount of local financial support for community development activities below the level of such support prior to the availability of such assistance.

(d) Consolidation of complex and overlapping Federal assistance programs into consistent system of Federal aid

It is also the purpose of this chapter to further the development of a national urban growth policy by consolidating a number of complex and overlapping programs of financial assistance to communities of varying sizes and needs into a consistent system of Federal aid which—

[*See main edition for text of* (*1*) *to* (*3*)]

(4) fosters the undertaking of housing and community development activities in a coordinated and mutually supportive manner by Federal agencies and programs, as well as by communities.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 5306, 5307, 5312, 5316, 5318 of this title.

§ 5304. Procedures for award of grants

(a) Application; contents; statements of assurances

No grant may be made pursuant to section 5306 or section 5318 of this title unless an application shall have been submitted to the Secretary in which the applicant—

(1) sets forth a summary of a three-year community development plan which identifies community development and housing needs, demonstrates a comprehensive strategy for meeting those needs, and specifies both short- and long-term community development objectives which have been developed in accordance with areawide development planning and national urban growth policies;

(2) formulates a program which (A) includes the activities to be undertaken to meet its community development needs and objectives, together with the estimated costs and general location of such activities, (B) indicates resources other than those provided under this chapter which are expected to be made available toward meeting its identified needs, including activities designed to revitalize neighborhoods for the benefit of low- and moderate-income persons, and objectives, and (C) takes into account appropriate environmental factors;

(3) describes a program designed to—

(A) eliminate or prevent slums, blight, and deterioration where such conditions or needs exist;

(B) provide improved community facilities and public improvements, including the provision of supporting health, social, and similar services where necessary and appropriate and in a manner to insure fully opportunity for participation by, and benefits to, the handicapped; and

(C) improve conditions for low- and moderate-income persons residing in or expected to reside in the community as a result of existing or projected employment opportunities in the community (and those elderly persons residing in or expected to reside in the community), or as estimated in a community accepted State or regional housing opportunity plan approved by the Secretary, and foster neighborhood development in order to induce higher-income persons to remain in, or return to, the community;

(4) submits a housing assistance plan which—

(A) accurately surveys the condition of the housing stock in the community and assesses the housing assistance needs of lower-income persons (including elderly and handicapped persons, large families, owners of homes requiring rehabilitation assistance, and persons displaced or to be displaced) residing in or expected to reside in the community as a result of existing or projected employment opportunities in the community (and those elderly persons residing in or expected to reside in the community), or as estimated in a community accepted State or regional housing opportunity plan approved by the Secretary, and identifies housing stock which is in a deteriorated condition, including the impact of conversion of rental housing to condominium or cooperative ownership on such needs,

(B) specifies a realistic annual goal for the number of dwelling units or lower-income persons to be assisted, including (i) the relative proportion of new, rehabilitated, and existing dwelling units, including existing rental and owner occupied dwelling units to be upgraded and thereby preserved, (ii) the sizes and types of housing projects and assistance best suited to the needs of lower-income persons in the community, and (iii) in the case of subsidized rehabilitation, adequate provisions to assure that a preponderance of persons assisted should be of low- and moderate-income, and

(C) indicates the general locations of proposed housing for lower-income persons, with the objective of (i) furthering the revitalization of the community, including the restoration and rehabilitation of stable neighborhoods to the maximum extent possible, and the reclamation of the housing stock where feasible through the use of a broad range of techniques for housing restoration by local government, the private sector, or community organizations, including provision of a reasonable opportunity for tenants displaced as a result of such activities to relocate in their immediate neighborhood, (ii) promoting greater choice of housing opportunities and avoiding undue concentrations of assisted persons in areas containing a high proportion of low-income persons, and (iii) assuring the availability of public facilities and services adequate to serve proposed housing projects;

[*See main edition for text of* (*5*)]

(6) provides satisfactory assurances that, prior to submission of its application, it has (A) prepared and followed a written citizen participation plan which provides citizens an opportunity to participate in the development of the application, encourages the submission of views and proposals, particularly by residents of blighted neighborhoods and citizens of low- and moderate-income, provides for timely responses to the proposals submitted, and schedules hearings at times and locations which permit broad participation; (B) provided citizens with adequate information concerning the amount of funds available for proposed community development activities and housing activities, the range of activities that may be undertaken, and other important requirements; (C) held public hearings to obtain the views of citizens on community development and housing needs; and (D) provided citizens with an opportunity to submit comments concerning the community development performance of the applicant; but nothing in this paragraph shall be construed to restrict the responsibility and authority of the applicant for the development of the application and the execution of its community development program.

(b) Additional requirements of application; certifications to Secretary; waiver of required Program provisions

[*See main edition for text of* (*1*)]

(2) Any grant under this chapter shall be made only on condition that the applicant certify to the satisfaction of the Secretary that its Community Development Program has been developed so as to give maximum feasible priority to activities which will benefit low- and moderate-income families or aid in the prevention or elimination of slums or blight. The Secretary may also approve an application describing activities which the applicant certifies and the Secretary determines are designed to meet other community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community, and other financial resources are not available.

(3) The Secretary may waive all or part of the requirements contained in paragraphs (1), (2), and (3) of subsection (a) if (A) the application does not involve a comprehensive community development program, as determined by the Secretary, and (B) the Secretary determines that, considering the nature of the activity to be carried out, such waiver is not inconsistent with the purposes of this chapter.

[*See main edition for text of* (*4*)]

(c) Approval of application

The Secretary shall approve an application for an amount which does not exceed the amount determined in accordance with section 5306(a) of this title unless—

[*See main edition for text of* (*1*) *and* (*2*)]

(3) the Secretary determines that the application does not comply with the requirements of this chapter, with specific regard to the primary purposes of principally benefiting persons of low- and moderate-income or aiding in the prevention or elimination of slums or blight or meeting other community development needs having a particular urgency, or other applicable law or proposes activities which are ineligible under this chapter.

The Secretary may not disapprove an application on the basis that such application addresses any one of the primary purposes described in paragraph (3) to a greater or lesser degree than any other, except that such application may be disapproved if the Secretary determines that the extent to which a primary purpose is addressed is plainly inappropriate to meeting the needs and objectives which are consistent with the community's efforts to achieve the primary objective of this chapter.

(d) Submission of annual performance report by grantee to Secretary; contents; annual review and audit by Secretary of program implementation; adjustments in amount of annual grants

Prior to the beginning of fiscal year 1977 and each fiscal year thereafter, each grantee shall submit to the Secretary a performance report concerning the activities carried out pursuant to this chapter, together with an assessment by the grantee of the relationship of those activities to the objectives of this chapter and the needs and objectives identified in the grantee's statement submitted pursuant to subsection (a) of this section. The performance report shall include any citizen comments submitted pursuant to subsection (a)(6)(D) of this section and the Secretary shall consider such comments, together with the views of other citizens and such other information as may be available, in carrying out the provisions of this subsection. The Secretary shall, at least on an annual basis, make such reviews and audits as may be necessary or appropriate to determine whether the grantee has carried out a program substantially as described in its application, whether that program conformed to the requirements of this chapter and other applicable laws, and whether the applicant has a continuing capacity to carry out in a timely manner the approved Community Development Program. The Secretary may make appropriate adjustments in the amount of the annual grants in accordance with his findings pursuant to this subsection. With respect to grants made pursuant to sections 5306(d)(2) and 5306(f)(1)(B) of this title, the Secretary may adjust, reduce, or withdraw grant funds, or take other action as appropriate in accordance with such reviews and audits, except that funds already expended on eligible activities under this chapter shall not be recaptured or deducted from future grants made to the recipient.

(e) Submission of application for review and comment by areawide agency under procedures established by President pursuant to applicable statutes; State participation in selection process for funding grants

No grant may be made under this chapter unless the application therefor has been submitted for review and comment to an areawide agency under procedures established by the President pursuant to title II of the Demonstration Cities and Metropolitan Development Act of 1966 [42 U.S.C. 3331 et seq.] and title IV of the Intergovernmental Cooperation Act of 1968 [42 U.S.C. 4231 et seq.]. In addition, the Secretary may provide an opportunity for the State, in which a grant is to be made to a unit of general local government under section 5306(d)(2) or (f)(1)(B) of this title, to participate in the selection process for funding such grants. (h) Environmental protection measures applicable for release of funds to applicants for projects; issuance of regulations by Secretary subsequent to consultation with Council on Environmental Quality; request and certification to Secretary for approval of release of funds; form, contents and effect of certification

(1) In order to assure that the policies of the National Environmental Policy Act of 1969 [42 U.S.C. 4321 et seq.] and other provisions of law which further the purposes of such Act (as specified in regulations issued by the Secretary) are most effectively implemented in connection with the expenditure of funds under this chapter, and to assure to the public undiminished protection of the environment, the Secretary, in lieu of the environmental protection procedures otherwise applicable, may under regulations provide for the release of funds for particular projects to applicants who assume all of the responsibilities for environmental review, decisionmaking, and action pursuant to such Act, and such other provisions of law as the regulations of the Secretary specify, that would apply to the Secretary were he to undertake such projects as Federal projects. The Secretary shall issue regulations to carry out this subsection only after consultation with the Council on Environmental Quality.

(2) The Secretary shall approve the release of funds for projects subject to the procedures authorized by this subsection only if, at least fifteen days prior to such approval and prior to any commitment of funds to such projects other than for purposes authorized by section 5305(a)(12) of this title or for environmental studies, the applicant has submitted to the Secretary a request for such release accompanied by a certification which meets the requirements of paragraph (3). The Secretary's approval of any such certification shall be deemed to satisfy his responsibilities under the National Environmental Policy Act of 1969 [42 U.S.C. 4321 et seq.] and such other provisions of law as the regulations of the Secretary specify, insofar as those responsibilities relate to the applications and releases of funds for projects to be carried out pursuant thereto which are covered by such certification.

(3) A certification under the procedures authorized by this subsection shall—

[*See main edition for text of* (*A*) *to* (*C*)]

(D) specify that the certifying officer (i) consents to assume the status of a responsible Federal official under the National Environmental Policy Act of 1969 [42 U.S.C. 4321 et seq.] and each provision of law specified in regulations issued by the Secretary insofar as the provisions of such Act or other such provision of law apply pursuant to paragraph (1) of this subsection, and (ii) is authorized and consents on behalf of the applicant and himself to accept the jurisdiction of the Federal courts for the purpose of enforcement of his responsibilities as such an official.

(i) Payments; revolving loan fund: establishment in private financial institution for rehabilitation activities; standards for payments: criteria; agreements: review and approval

(1) The Secretary shall, in making funds available to the recipients of grants under this chapter, permit any such recipient to receive funds, in one payment, in an amount not to exceed the total amount designated in the recipient's application, and approved by the Secretary pursuant to this section, for use by the recipient for establishing a revolving loan fund which is to be established in a private financial institution and which is to be used to finance rehabilitation activities that are part of the recipient's community development program. The Secretary may, as a condition of making such payment, require that the revolving loan fund be utilized for the making of loans to finance rehabilitation activities in a manner consistent

with this chapter. Rehabilitation activities authorized under this section shall begin within forty-five days after the Secretary has made such payment.

(2) The Secretary shall establish standards for such cash payments which will insure that the deposits result in appropriate benefits in support of the recipient's rehabilitation program. These standards shall be designed to assure that the benefits to be derived from the local program include, at a minimum, one or more of the following elements, or such other criteria as determined by the Secretary—

(A) leverage of community development block grant funds so that participating financial institutions commit private funds for loans in the rehabilitation program in amounts substantially in excess of deposit of community development funds;

(B) commitment of private funds for rehabilitation loans at below-market interest rates or with repayment periods lengthened or at higher risk than would normally be taken;

(C) provision of administrative services in support of the rehabilitation program by the participating lending institutions; and

(D) interest earned on such cash deposits shall be used in a manner which supports the community rehabilitation program.

At the time of application, the Secretary shall review and approve all agreements with lending institutions which receive funds for community rehabilitation programs. Such approval shall be made on a case-by-case basis, and upon a determination by the Secretary that the agreement with the lending institution meets minimum benefit standards as listed in this paragraph.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 5304, 5318 of this title.

§ 5306. Allocation and distribution of funds

(a) Amount allocated to metropolitan areas; annual grants for metropolitan cities and urban counties; limitations

Of the amount approved in an appropriation Act under section 5303(a) of this title for grants in any year (excluding the amount provided for use in accordance with sections 5303(a)(2) and 5307 of this title), 80 per centum shall be allocated by the Secretary to metropolitan areas. Except as provided in subsections (c) and (e) of this section, each metropolitan city and urban county shall, subject to the provisions of section 5304 of this title and except as otherwise specifically authorized, be entitled to annual grants from such allocation in an aggregate amount not exceeding the greater of its basic amount computed pursuant to paragraph (1) or (2) of subsection (b) of this section or its hold-harmless amount computed pursuant to subsection (g) of this section.

(b) Amount allocated to metropolitan cities and urban counties; computation

(1) The Secretary shall determine the amount to be allocated to each metropolitan city which shall be the greater of an amount that bears the same ratio to the allocation for all metropolitan areas as either—

(A) the average of the ratios between—

(i) the population of that city and the population of all metropolitan areas;

(ii) the extent of poverty in that city and the extent of poverty in all metropolitan areas; and

(iii) the extent of housing overcrowding in that city and the extent of housing overcrowding in all metropolitan areas; or

(B) the average of the ratios between—

(i) the extent of growth lag in that city and the extent of growth lag in all metropolitan cities;

(ii) the extent of poverty in that city and the extent of poverty in all metropolitan areas; and

(iii) the age of housing in that city and the age of housing in all metropolitan areas.

(2) The Secretary shall determine the amount to be allocated to each urban county, which shall be the greater of an amount that bears the same ratio to the allocation for all metropolitan areas as either—

(A) the average of the ratios between—

(i) the population of that urban county and the population of all metropolitan areas;

(ii) the extent of poverty in that urban county and the extent of poverty in all metropolitan areas; and

(iii) the extent of housing overcrowding in that urban county and the extent of housing overcrowding in all metropolitan areas; or

(B) the average of the ratios between—

(i) the extent of growth lag in that urban county and the extent of growth lag in all metropolitan cities and urban counties;

(ii) the extent of poverty in that urban county and the extent of poverty in all metropolitan areas; and

(iii) the age of housing in that urban county and the age of housing in all metropolitan areas.

(3) In determining the average of ratios under paragraphs (1)(A) and (2)(A), the ratio involving the extent of poverty shall be counted twice, and each of the other ratios shall be counted once; and in determining the average of ratios under paragraphs (1)(B) and (2)(B), the ratio involving the extent of growth lag shall be counted once, the ratio involving the extent of poverty shall be counted one and one-half times, and the ratio involving the age of housing shall be counted two and one-half times.

(4) In computing amounts or exclusions under this section with respect to any urban county there shall be excluded units of general local government located in the county (A) which are entitled to hold-harmless grants pursuant to subsection (h) of this section, or (B) the populations of which are not counted in determining the eligibility of the urban county to receive a grant under this subsection.

(5) In computing amounts under this section with respect to any urban county, there shall be included all of the area of any unit of local government which is part of, but is not located entirely within the boundaries of, such urban county if the part of such unit of local government which is within the boundaries of such urban county would otherwise be included in computing the amount for such urban county under this section, and if the part of such unit of local government which is not within the boundaries of such urban county is not included as a part of any other unit of local government for the purpose of this section. Any amount received by such urban county under this section may be used with respect to the part of such unit of local government which is outside the boundaries of such urban county.

(c) Adjustment of amounts for metropolitan cities and urban counties; time periods for adjustments

With respect to funds approved for distribution to a metropolitan city or urban county under this section during fiscal years 1975, 1976, and 1977, the basic grant amount of such city or county as computed under subsection (b) of this section shall be adjusted only for such funds approved for distribution in fiscal years 1975, 1976, and 1977 as provided in this subsection if the amount so computed for the first such year exceeds the city's or county's hold-harmless amount as determined under subsection (g) of this section. (d) Additional allocations of amounts allocated to metropolitan areas and added amounts for grants to metropolitan cities, urban counties, specified units of general local government, and States; computations; pro rata reduction; multiyear commitment; annual grant; limitation

(1) Any portion of the amount allocated to metropolitan areas under the first sentence of subsection (a) of this section which remains after the allocation of grants to metropolitan cities and urban counties in accordance with subsection (b) of this section and any amounts added in accordance with the provisions of section 5303(a)(2) of this title shall be allocated by the Secretary, first, for grants to metropolitan cities, urban counties, and other units of general local government within metropolitan areas to meet their hold-harmless needs as determined under subsections (g) and (h) of this section, and, second, in accordance with the provisions of paragraph (2).

(2) Any portion of such amounts which remains after applying the provisions of paragraph (1) shall be utilized by the Secretary for grants to units of general local government within metropolitan areas (other than metropolitan cities and urban counties), and States for use within metropolitan areas, allocating for the metropolitan areas of each State the greater of an amount that bears the same ratio to the allocation for such areas of all States available under this paragraph as either—

(A) the average of the ratios between—

(i) the population of the metropolitan areas in that State and the population of the metropolitan areas of all States;

(ii) the extent of poverty in the metropolitan areas in that State and the extent of poverty in the metropolitan areas of all States; and

(iii) the extent of housing overcrowding in the metropolitan areas in that State and the extent of housing overcrowding in the metropolitan areas of all States; or

(B) the average of the ratios between—

(i) the age of housing in the metropolitan areas in that State and the age of housing in the metropolitan areas of all States;

(ii) the extent of poverty in the metropolitan areas in that State and the extent of poverty in the metropolitan areas of all States; and

(iii) the population of the metropolitan areas in that State and the population of the metropolitan areas of all States.

In determining the average of the ratios under subparagraph (A), the ratio involving the extent of poverty shall be counted twice and each of the other ratios shall be counted once; and in determining the average of the ratios under subparagraph (B), the ratio involving the age of housing shall be counted two and one-half times, the ratio involving the extent of poverty shall be counted one and one-half times, and the ratio involving population shall be counted once. The Secretary shall, in order to compensate for the discrepancy between the total of the amounts to be allocated under this paragraph and the total of the amounts available under such paragraph, make a pro rata reduction of each amount allocated to the metropolitan areas in each State under such paragraph so that the metropolitan areas in each State will receive an amount which represents the same percentage of the total amount available under such paragraph as the percentage which the metropolitan areas of the same State would have received under such paragraph if the total amount available under that paragraph had equaled the total amount which was allocated under that paragraph.

(3) If the Secretary approves a grant under paragraph (2) to a unit of general local government which has a comprehensive community development program with provision for lower-income housing, the Secretary may make a multiyear commitment, up to three years, to any such unit of general local government for specified grant amounts, subject to the availability of appropriations. In determining whether to make such a commitment to a unit of general local government, the Secretary shall give special consideration to those communities presently carrying out comprehensive community development programs, which are subject to the provisions of subsection (h)(2) of this section, before making new commitments. In making grants under paragraph (2), the Secretary shall establish for each participating unit of general local government an annual grant at an amount meaningful to the size of the unit and the program identified, and shall consider such factors as the unit's engaging in economic redevelopment activities, past performance of the unit in community development activities, prior and present funding levels under this chapter, the function of the unit as a regional center of economic development and activity, impact on the unit's growth of national policy or direct Federal program decisions, the potential for having increased employment within such unit as a result of community development activity, the physical and economic deterioration within the unit, the age of housing stock and the extent of poverty within the unit, the extent to which the unit's activity or program of activities is necessary to alleviate a serious threat to health or safety, the capacity of the unit to carry out such programs, and any other factors deemed, by the Secretary, to be relevant to carrying out the purposes of this chapter. The Secretary shall make grants under paragraph (2) in such a manner as to insure that a reasonable proportion of grants is available to applicants which are not seeking funding for comprehensive community development programs. The Secretary may accept and approve commitments for annual grants based on comprehensive community development programs commencing in future fiscal years subject only to the availability of appropriations. In computing amounts under paragraph (2), there shall be excluded metropolitan cities, urban counties, Indian tribes, and units of general local government which are entitled to hold-harmless grants pursuant to subsection (h) of this section.

(e) Reallocation of amounts allocated to metropolitan cities, urban counties, and metropolitan areas for use by States, metropolitan cities, urban counties, or specified units of general local government; prerequisites; review by Secretary

Any amounts allocated to a metropolitan city or urban county pursuant to the preceding provisions of this section which are not applied for during a program period or which are not approved by the Secretary, and any other amounts allocated to a metropolitan area which the Secretary determines, on the basis of the applications and other evidence available, are not likely to be fully obligated within a reasonable time, shall be reallocated for use by States, metropolitan cities, urban counties, or units of general local government, first, in any metropolitan area in the same State, and second, in any other metropolitan area. The Secretary shall review determinations under this subsection from time to time as appropriate with a view of assuring maximum use of all available funds in the period for which such funds were appropriated.

(f) Amounts allocated to units of general local government of metropolitan areas and States; computations; pro rata reduction; multiyear commitment; annual grant; limitation; reallocation of amounts to nonmetropolitan areas of other States; prerequisites; review by Secretary

(1) Of the amount approved in an appropriation Act under section 5303(a) of this title for grants in any year (excluding the amount provided for use in accordance with sections 5303(a)(2) and 5307 of this title), 20 per centum shall be allocated by the Secretary—

(A) first, for grants to units of general local government outside of metropolitan areas to meet their hold-harmless needs as determined under subsection (h) of this section; and

(B) second, any portion of such amount which remains after applying the provisions of subparagraph (A) shall be utilized by the Secretary for grants to units of general local government outside of metropolitan areas and States for use outside the metropolitan areas, allocating for the nonmetropolitan areas of each State the greater of an amount that bears the same ratio to the allocation for such areas of all States available under this subparagraph as either—

(i) the average of the ratios between—

(I) the population of the nonmetropolitan areas in that State and the population of the nonmetropolitan areas of all States;

(II) the extent of poverty in the nonmetropolitan areas in that State and the extent of poverty in the nonmetropolitan areas of all States; and

(III) the extent of housing overcrowding in the nonmetropolitan areas in that State and the extent of housing overcrowding in the nonmetropolitan areas of all States; or

(ii) the average of the ratios between—

(I) the age of housing in the nonmetropolitan areas in that State and the age of housing in the nonmetropolitan areas of all States;

(II) the extent of poverty in the nonmetropolitan areas in that State and the extent of poverty in the nonmetropolitan areas of all States; and

(III) the population of the nonmetropolitan areas in that State and the population of the nonmetropolitan areas of all States.

In determining the average of the ratios under clause (i) of subparagraph (B) the ratio involving the extent of poverty shall be counted twice and each of the other ratios shall be counted once; and in determining the average of the ratios under clause (ii) of subparagraph (B), the ratio involving the age of housing shall be counted two and one-half times, the ratio involving the extent of poverty shall be counted one and one-half times, and the ratio involving population shall be counted once. The Secretary shall, in order to compensate for the discrepancy between the total of the amounts to be allocated under subparagraph (B) and the total of the amounts available under such subparagraph, make a pro rata reduction of each amount allocated to the nonmetropolitan areas in each State under such subparagraph so that the nonmetropolitan areas in each State will receive an amount which represents the same percentage of the total amount available under such subparagraph as the percentage which the nonmetropolitan areas of the same State would have received under such subparagraph if the total amount available under such subparagraph had equaled the total amount which was allocated under such subparagraph.

(2) If the Secretary approves a grant under paragraph (1)(B) to a unit of general local government which has a comprehensive community development program with provision for lower-income housing, the Secretary may make a multiyear commitment, up to three years, to any such unit of general local government for specified grant amounts, subject to the availability of appropriations. In determining whether to make such a commitment to a unit of general local government, the Secretary shall give special consideration to those communities presently carrying out comprehensive community development programs, which are subject to the provisions of subsection (h)(2) of this section, before making new commitments. In making grants under paragraph (1)(B), the Secretary shall establish for each participating unit of general local government an annual grant at an amount meaningful to the size of the unit and the program identified, and shall consider such factors as the unit's engaging in economic redevelopment activities, past performance of the unit in community development activities, prior and present funding levels under this chapter, the function of the unit as a regional center of economic development and activity, impact on the unit's growth of national policy or direct Federal program decisions, the potential for having increased employment within such unit as a result of community development activity, the physical and economic deterioration within the unit, the age of housing stock and the extent of poverty within the unit, the extent to which the unit's activity or program activities is necessary to alleviate a serious threat to health or safety, the capacity of the unit to carry out such programs, and any other factors deemed, by the Secretary, to be relevant to carrying out the purposes of this chapter. The Secretary shall make grants under paragraph (1)(B) in such a manner as to insure that a reasonable proportion of grants is available to applicants which are not seeking funding for comprehensive community development programs. The Secretary may accept and approve commitments for annual grants based on comprehensive community development programs commencing in future fiscal years subject only to the availability of appropriations. In computing amounts under paragraph (1)(B), three[1] shall be excluded units of general local government which are entitled to hold-harmless grants pursuant to subsection (h) of this section and Indian tribes.

(3) Any amounts allocated to a unit of general local government under paragraph (1) which are not applied for during a program period or which are not approved by the Secretary, and any amounts allocated to the nonmetropolitan areas of a State under paragraph (1)(B) which the Secretary determines, on the basis of applications and other evidence available, are not likely to be fully obligated within a reasonable time, shall be reallocated as soon as practicable to the nonmetropolitan areas of other States. The Secretary shall review determinations under this paragraph from time to time with a view to assuring maximum use of all available funds in the program period for which such funds were appropriated.

(g) Hold-harmless amount of metropolitan cities and urban counties; factors determining computation of sum

[*See main edition for text of (1)*]

(2) During the fiscal years 1975, 1976, and 1977, the hold-harmless amount of any metropolitan city or urban county shall be the full amount computed for the city or county in accordance with paragraph (1). In the fiscal years 1978, 1979, and 1980, if such amount is greater than the basic grant amount of the metropolitan city or urban county for that year, as computed under subsection (b)(1)(A) or (B), or (2)(A) or (B) of this section, it shall be reduced so that—

(i) in the fiscal year 1978, the excess of the hold-harmless amount over the basic grant amount, as computed under subsection (b)(1)(A) or (B), or (2)(A) or (B) of this section, shall equal two-thirds of the difference between the amount computed under paragraph (1) and the basic grant amount for such year,

(ii) in the fiscal year 1979, the excess of the hold-harmless amount over the basic grant amount, as computed under subsection (b)(1)(A) or (B), or (2)(A) or (B) of this section, shall equal one-third of the difference between the amount computed under paragraph (1) and the basic grant amount for such year, and

---

[1] So in original. Probably should be "there".

(iii) in the fiscal year 1980, there shall be no excess of the hold-harmless amount over the basic grant amount.

[*See main edition for text of* (*h*)]

(i) Percentages excluded from data in computation of hold-harmless grants for units of general local government for fiscal years 1978 and 1979

In excluding the data of units of general local government which are entitled to a hold-harmless grant pursuant to subsection (h) of this section from the computations described in subsections (b)(4), (d), and (f) of this section, the Secretary shall exclude only two-thirds of such data for the fiscal year 1978 and one-third of such data for the fiscal year 1979.

(j) Waiver of eligibility by units of general local government for hold-harmless grants; computations unaffected by waiver

Any unit of general local government eligible for a hold-harmless grant pursuant to subsection (h) of this section may, by such date as the Secretary shall determine, irrevocably waive its eligibility for a hold-harmless grant for a single year under such subsection. In the case of such a waiver the unit of general local government shall not be excluded from the computations described in subsections (b)(4), (d), and (f) of this section.

[*See main edition for text of* (*k*)]

(*l*) Report to Congress: adequacy of funds allocation formula; "impaction" defined

Not later than September 30, 1978, the Secretary shall report to the Congress with respect to the adequacy, effectiveness, and equity of the formula used for allocation of funds under this chapter, with specific analysis and recommendation as to the feasibility of utilizing factors of impaction (such as adjusted age of housing and extent of poverty) as a measurement consideration, and the feasibility of utilizing a single formula based on the current factors or others, including regional or area differences in income and cost of living. As used in this subsection, the term "impaction" means the intensity, measured in terms of absolute numbers and proportions of each needs factor.

(m) Pro rata reduction of basic grant and hold-harmless entitlement amounts and other funds to meet deficiency of funds

In the event that the total amount available for distribution under this section in fiscal year 1978, fiscal year 1979, or fiscal year 1980 is insufficient to meet all basic grant and hold-harmless entitlement needs as provided pursuant to this section, and funds are not otherwise appropriated to meet such deficiency, the Secretary shall meet the deficiency through a pro rata reduction of (1) all basic grant and hold-harmless entitlement amounts, and (2) funds available under subsection (d)(2) of this section (including amounts provided for use under section 5303(a)(2) of this title) and subsection (f)(1)(B) of this section.

(b) Prerequisites

No guarantee or commitment to guarantee shall be made with respect to any note or other obligation if the issuer's total outstanding notes or obligations guaranteed under this section would thereby exceed an amount equal to three times the amount of the grant approval for the issuer pursuant to section 5306 of this title.

(c) Payment of principal, interest and costs

Notwithstanding any other provision of this chapter, grants allocated to an issuer pursuant to this chapter (including program income derived therefrom) are authorized for use in the payment of principal and interest due (including such servicing, underwriting, or other costs as may be specified in regulations of the Secretary) on the notes or other obligations guaranteed pursuant to this section.

(d) Repayment contract; security

To assure the repayment of notes or other obligations and charges incurred under this section and as a condition for receiving such guarantees, the Secretary shall require the issuer to—

§ 5318. Urban development action grants

(a) Grants to severely distressed cities and urban counties for prescribed purposes

In order to promote the primary objective of this chapter of the development of viable urban communities, of the total amount of authority approved in appropriation Acts under section 5303(c) of this title, the Secretary is authorized to make urban development action grants to severely distressed cities and urban counties to help alleviate physical and economic deterioration through reclamation of neighborhoods having excessive housing abandonment or deterioration, and through community revitalization in areas with population outmigration or a stagnating or declining tax base. Grants made under this section shall be for the support of severely distressed cities and urban counties that require increased public and private assistance in addition to the assistance otherwise made available under this chapter and other forms of Federal assistance.

(b) Criteria and standards; regulations

(1) Urban development action grants shall be made only to cities and urban counties that have, in the determination of the Secretary, demonstrated results in providing housing for persons of low- and moderate-income and in providing equal opportunity in housing and employment for low- and moderate-income persons and members of minority groups. The Secretary shall issue regulations establishing criteria in accordance with the preceding sentence and setting forth minimum standards for determining the level of physical and economic distress of cities and urban counties for eligibility for such grants, which standards shall take into account factors such as the age and condition of housing stock, including residential abandonment; average income; population outmigration; and stagnating or declining tax base.

(2) A city or urban county which fails to meet the minimum standards established pursuant to paragraph (1) shall be eligible for assistance under this section if it meets the requirements of the first sentence of paragraph (1), and—

(A) in the case of a city with a population of fifty thousand persons or more or an urban county, contains an area (i) composed of one or more contiguous census tracts, enumeration districts, or block groups, as defined by the United States Bureau of Census, having at least a population of ten thousand persons or 10 per centum of the population of the city or urban county, (ii) in which at least 70 per centum of the residents have incomes below 80 per centum of the median income of such city or urban county, and (iii) in which at least 30 per centum of the residents have incomes of below the national poverty level; or

(B) in the case of a city with a population of less than fifty thousand persons, contains an area (i) composed of one or more contiguous census tracts, enumeration districts, or block groups or other areas defined by the United States Bureau of Census or for which data certified by the United States Bureau of Census are available having at least a population of two thousand and five hundred persons or 10 per centum of the population of such city, whichever is greater, (ii) in which at least 70 per centum of the residents have incomes below 80 per centum of the median income for such city, and (iii) in which at least 30 per centum of the residents have incomes of below the national poverty level.

The Secretary shall utilize up to, but not more than, 20 per centum of the funds appropriated for use in any fiscal year under this section for the purpose of making grants to cities and urban counties eligible under this paragraph.

(c) Applications; contents; citizen participation plan; public hearings

Applications for assistance under this section shall—

(1) include documentation of eligibility for grants in accordance with the standards described in subsection (b) of this section;

(2) describe a concentrated urban development action program setting forth a comprehensive action plan and strategy to alleviate physical and economic distress through systematic change, which program shall be consistent with the community development program described in section 5304(a)(2) of this title and the housing assistance plan described in section 5304(a)(4) of this title, and, where it exists and is in effect, the overall economic development plan as provided for in section 3142(b)(10) of this title, but only in the event and after such time as such plans are required by law or administrative action to be consistent with community development programs. Such program shall be developed as to take advantage of unique opportunities to attract private investment, stimulate investment in restoration of deteriorated or abandoned housing stock, or solve critical problems resulting from population outmigration or a stagnating or declining tax base;

(3) include the activities to be undertaken in the urban development action program, together with the estimated costs and general locations of such activities;

(4) indicate public and private resources which are expected to be made available toward achieving the action plan and strategy described in paragraph (2);

(5) provide satisfactory assurances that, prior to submission of its application, it has (A) prepared and followed a written citizen participation plan, which plan provides the opportunity for citizens to participate in the development of the application, with special attention to measures to encourage the statement of views and the submission of proposals by low- and moderate-income people and residents of blighted neighborhoods, and to scheduling hearings at times and locations which are convenient to all citizens, (B) provided citizens with adequate information concerning the amount of funds available for proposed activities under this section, the range of activities that may be undertaken, and other important program requirements, and (C) held public hearings to obtain the views of citizens on needs which may be dealt with under this section; and

(6) include a statement analyzing the impact of the proposed urban development action program on the residents, particularly those of low and moderate income, of the residential neighborhood, and on the neighborhood, in which the program is to be located.

(d) Application requirements of section 5304(a) for section 5306 allocation and distribution of funds applicable to this section

To the extent that the application requirements of section 5304(a)(4) of this title have been satisfied in connection with a grant made pursuant to section 5306 of this title, such requirements shall be determined to have been met for purposes of this section.

(e) Selection criteria

(1) Except in the case of a city or urban county eligible under subsection (b)(2), in establishing criteria for the purpose of making grants under this section the Secretary shall establish selection criteria which must include (A) as the primary criterion, the comparative degree of physical and economic distress among applicants, as measured (in the case of a metropolitan city or urban county) by the differences in the extent of growth lag, the extent of poverty, and the adjusted age of housing in the metropolitan city or urban county; (B) other factors determined to be relevant by the Secretary in assessing the comparative degree of physical and economic deterioration in cities and urban counties; and (C) at least the following other criteria: demonstrated performance of the city or urban county in housing and community development programs; impact of the proposed urban development action program on the special problems of low- and moderate-income persons and minorities; extent of financial participation by other public or by private entities; extent of assistance to be made available by the State; impact on the physical, fiscal, or economic deterioration of the city or urban county; extent to which the program describes activities representing a special or unique opportunity to meet local priority needs or the objectives of this chapter; impact of the proposed urban development action program on the residents, particularly those of low and moderate income, of the

residential neighborhood, and on the neighborhood, in which the program is to be located; and feasibility of accomplishing the program in a timely fashion within the grant amount available.

(2) For the purpose of making grants with respect to areas described in subsection (b)(2) of this section, the Secretary shall establish selection criteria, which must include (A) factors determined to be relevant by the Secretary in assessing the comparative degree of physical and economic deterioration among eligible areas, and (B) such other criteria as the Secretary may determine, including at a minimum the criteria listed in clause (C) of paragraph (1) of this subsection.

(3) The Secretary may not approve any grant to a city or urban county eligible under subsection (b)(2) of this section unless—

(A) the grant will be utilized in connection with a project located in an area described in subsection (b)(2) of this section, except that the Secretary may waive this requirement where the Secretary determines (i) that there is no suitable site for the project within such area, (ii) the project will be located directly adjacent to such area, and (iii) the project will substantially contribute to the physical and economic development of such area;

(B) the city or urban county has demonstrated to the satisfaction of the Secretary that basic services supplied by the city or urban county to the area described in subsection (b)(2) of this section are at least equivalent, as measured by per capita expenditures, to those supplied to other areas within the city or urban county which are similar in population size and physical characteristics and which have median incomes above the median income for the city or urban county;

(C) the grant will be utilized in connection with a project which will directly benefit the low- and moderate-income families and individuals residing in the area described in subsection (b)(2) of this section; and

(D) the city or urban county makes available, from its own funds or from funds received from the State or under any Federal program which permits the use of financial assistance to meet the non-Federal share requirements of Federal grant-in-aid programs, an amount equal to 20 per centum of the grant to be available pursuant to this section to be used in carrying out the activities described in the application.

(f) Activities of urban development action program

In addition to activities authorized under section 5305(a) of this title, an urban development action program may also include such additional community development and neighborhood development and conservation activities as the Secretary may determine to be consistent with the purposes of this section.

(g) Consultation of Secretary with other Federal agencies and coordination of assistance

No assistance shall be provided for business loans or industrial development under this section unless the Secretary shall first consult with and coordinate such assistance with other Federal agencies which make available funds for similar activities.

(h) Annual reviews and audits; administrative action appropriate to findings; recapture or deduction of expended funds prohibited

The Secretary shall, at least on an annual basis, make reviews and audits of recipients of grants pursuant to this section as necessary to determine the progress made in carrying out activities substantially in accordance with approved plans and timetables. The Secretary may adjust, reduce, or withdraw grant funds, or take other action as appropriate in accordance with the findings of such review and audits, except that funds already expended on eligible activities under this chapter shall not be recaptured or deducted from future grants made to the recipient.

(i) Relocation

No assistance may be provided under this section for projects intended to facilitate the relocation of industrial or commercial plants or facilities from one area to another, unless the Secretary finds that such relocation does not significantly and adversely affect the unemployment or economic base of the area from which such industrial or commercial plant or facility is to be relocated.

(j) Allocation of funds based upon balance among program objectives

The Secretary shall allocate the amounts available for grants under this section in a manner which achieves a reasonable balance among programs that are designed primarily (1) to restore seriously deteriorated neighborhoods, (2) to reclaim for industrial purposes underutilized real property, and (3) to renew commercial employment centers.

(k) Minimum percentage of funds for use of certain noncentral cities

Not less than 25 per centum of the funds made available for grants under this section shall be used for cities under fifty thousand population which are not central cities of a standard metropolitan statistical area.

(*l*) Criteria of nonsubstitution of grants for available non-Federal funds

A grant may be made under this section only where the Secretary determines that there is a strong probability that the non-Federal investment in the project would not be made without such grant and where the Secretary determines that there is a strong probability that the grant would not substitute for non-Federal funds which are otherwise available to the project.

(m) Waiver or reduction of requirement of closely settled unit of general local government

For purposes of carrying out this section, the Secretary may reduce or waive the requirement, as described in section 5302(a)(5)(B)(ii) of this title and applied to recipients of community development grants, that a town or township be closely settled.
